PARK DEPARTMENT.

BOSTON, June 20, 1950.

HON. JOHN B. HYNES,
Mayor of Boston.

DEAR SIR:

We recently submitted to the City Auditor two service orders, No. 361 and No. 265, both issued to J. F. Stack & Co., 25 Huntington avenue, Boston.

The first, No. 361, called for the furnishing, spreading, and rolling of approximately 250 cubic yards of loam over the baseball and softball diamonds at the Strandway Stadium, South Boston, in the amount of \$875. The second, No. 365, calls for the excavation of a trench 625 feet long, near the Strandway Stadium, for the sum of \$785.

After we had requested the Stack Company to do the work on the ball diamonds (Order 361), we found that we were required to excavate a trench 625 feet long so that we might have telephone service at our building in Columbus park which is used by the foreman of the South Boston-Dorchester

district for his headquarters. We had discussed with the telephone company the matter of service at this location. They wanted to erect poles on the Strandway, which are required for overhead wires, but we felt that this was not the proper type of equipment to appear in that location and, as an alternative, the telephone company stated we would be required to excavate a trench for their cable.

As we had issued an order to the J. F. Stack & Co., for doing work on the ball diamonds at Columbus park and we knew they had equipment and men in the immediate vicinity, I made arrangements with them to excavate the trench. Accordingly, we issued Service Order 365 to this company in the amount of \$785.

The total of the two orders amounts to \$1,860. The City Auditor is of the opinion that the work could have been advertised because it is in excess of \$1,000. However, the jobs are distinct types of work. It was only because the Stack Company was on the premises to do the ball diamond work that I felt it would be good business for the city to have them excavate the trench for the telephone cable.

Accordingly, I respectfully ask your approval of the issuance of these two service orders, as work has been started on them. You may be quite sure that the city is getting real value in both instances.

Respectfully yours,

FRANK R. KELLEY, *Chairman.*

REAL ESTATE COMMISSION.

BOSTON, June 19, 1950.

HON. JOHN B. HYNES,
Mayor of Boston.

DEAR MR. MAYOR:

The Board of Real Estate Commissioners from time to time engages the services of contractors to clean refuse from vacant lots of land under its jurisdiction. During the course of a year the total cost of such cleanings will total over \$1,000. However, it is impossible to determine or even approximate the cost, due to the fact that we order the cleaning generally upon complaints of the Health Department. In each case the cleaning job is an emergency at the time of the complaint, necessitating the employment of a contractor at that specific time to do emergency work.

In view of the above-mentioned facts it would be impractical to advertise for bids, and it is respectfully requested that permission be given this department to employ such contractors as are necessary from time to time to clean lots of land without public advertising.

Respectfully yours,

HERMAN CARR,
Chairman.

SUPPLY DEPARTMENT.

BOSTON, June 21, 1950.

HON. JOHN B. HYNES,
Mayor of Boston.

DEAR MR. MAYOR:

For several years approval has been granted to purchase perishable foods, including fruits, vegetables, meats, poultry, butter, fish, and eggs, weekly, instead of on a monthly basis as was this department's practice prior to 1938.

This departure from customary departmental procedure was initiated only after thorough consideration of all factors involved, and was the recommendation not only of city officials but of a committee of purchasing agents representing leading private concerns.

As this procedure has proven to be in the best interests of the city, it is requested that authority be granted me to purchase weekly in the open market and without public advertisement the foods listed above and also to purchase sugar, as required, on the same procedure for a period of six months from July 1, 1950, to December 31, 1950, inclusive.

Respectfully yours,

JOHN V. MORAN,
Superintendent of Supplies.

ADDITION TO CONTRACT.

FIRE DEPARTMENT.

Approval has been given for the following addition to the contract of M. S. Kelliher Company for the erection of a new headquarters building and garage, on Southampton street, Boston:

Addition No. 1.

Furnish labor and material for cross connecting of water supplies at the new headquarters building and garage for sprinkler protection, with all the necessary 8-inch cast-iron pipe, fittings, valves, clamps, excavation, backfilling, and two valve pits complete with cover and frames to complete this work in every detail as per drawing. The total cost of this extra work is \$9,602.63; however, there is an allowance of \$4,000 in the contract for additional sprinkler equipment, making the net total of this addition \$5,602.63.

Original contract, \$1,684,932; addition No. 1, \$5,602.63; total contract with addition No. 1, \$1,690,534.63; deduction No. 1, \$500; total contract with addition and deduction, \$1,690,034.63.

The original contract called for water service connections from Southampton street only, but, in order to insure that sufficient water supply for the sprinkler system and other service pipes is available a similar water connection should be made into the mains on the Massachusetts avenue side of the building. If, for any reason, the water service is disconnected on one side of the building, the required supply may be obtained from the other side. The additional connection is required both as a safety measure, and for the carrying on of operations within the building.

EXTENSION OF CONTRACTS.

DEPARTMENT OF SCHOOL BUILDINGS.

Approval has been given for the extension of the time of completion of the contract with Ferris & Mahoney Company for plumbing and gas work at the English High School, from June 15, 1950, to August 15, 1950. This extension was requested because of delay in materials.

HOSPITAL DEPARTMENT.

Approval has been given for a further extension of time from May 20, 1950, to July 5, 1950, on contract of M. Solimando for addition to tenth floor of the Medical Building, Boston City Hospital. This further extension was requested because of long delay in the delivery of special plumbing fixtures necessary for the completion of the contract.

Approval has been given for a further extension of time from May 15, 1950, to July 5, 1950, on contract of M. Solimando for repairs and renovations to ventilating duct work and repairs to metal pans in kitchen, Boston City Hospital. This further extension was requested because of the fact there was a long delay in the shipment of electrical thermostats which were installed in the ovens.

PUBLIC WORKS DEPARTMENT.

Approval has been given for the extension of the time of completion of the contract with Martin J. Kelly Company, Inc., 75 Stedman street, Jamaica Plain, for redecking the drawspan of the Dover Street Bridge, to August 29, 1950. This extension was requested for the reason that the contractor states that to date he has been unable to secure the necessary lumber necessary to do this work. He states that his order for lumber was placed at the time he received the contract but that difficulties at the point of origin of the lumber have held up shipment of same.

Approval has been given for the extension of the time of completion of the contract with Baker & Co., Inc., for laying sheet asphalt pavement in Garfield avenue and Washington street, from June 30, 1950, to August 31, 1950. This extension was requested for the reason that the contractor has been delayed by inclement weather.

Approval has been given for the extension of the time of completion of the contract with Baker & Co., Inc., for sheet asphalt pavement in Beechcroft street, Brock street, and Turner street, from June 30, 1950, to July 31, 1950. This extension was requested for the reason that the contractor was delayed by inclement weather.

Approval has been given for the extension of the time of completion of the contract with Baker & Co., Inc., for laying sheet asphalt pavement in D street, East Third street, and Emerson street, from June 30, 1950, to July 31, 1950. This extension was requested for the reason that the contractor was delayed by inclement weather.

Approval has been given for the extension of the time of completion of the contract with National Contractors Company, Inc., 60 State street, Boston, for laying sheet asphalt pavement in Buttonwood street, Hinckley street, Morrill street, Rowell street, and Wilbur street, from June 30, 1950, to July 31, 1950. This extension was requested for the reason that the contractor was delayed by inclement weather.

NO DAMAGES SUSTAINED.

The Mayor has approved the following vote of the Board of Street Commissioners:

Voted, That this Board determines that no person sustains damages in his estate by the making of the public improvement consisting of the laying out and construction of Beaufield street, Dorchester district, as a highway, from Granite avenue 274 feet westerly and southerly, under the order of this Board of June 22, 1950, and awards no damages therefor.

TRAFFIC COMMISSION RULINGS.

Voted, That as urgently required by considerations of public safety and convenience, occasioned by the detours in force in connection with the repairs to Dover Street Bridge, for a period estimated to be sixty (60) days, parking of vehicles is prohibited in the following street, effective June 28, 1950:

Waltham Street, Boston Proper.

Southwest side, from Washington street to Harrison avenue.

OMIT AND SUBSTITUTE WORK UNDER CONTRACT.

PUBLIC WORKS DEPARTMENT.

Martin J. Kelly Company, Inc., has been directed to omit and substitute the following work under the contract for re-decking the drawspan of the Dover Street Bridge, dated March 13, 1950. Items ordered: Omit Item 3 of contract (30,000 feet, board measure of 4-inch x 8-inch spruce plank at \$140 per M feet, board measure, measured in place, totaling \$4,200; substitute 30,000 feet, board measure, 4-inch x 10-inch yellow pine at \$265 per M feet, board measure, totaling \$7,950; under Item 2, substitute 3-inch x 6-inch spruce plank for 3-inch x 8-inch spruce, at no change in cost. Estimated increased cost of substitution, \$3,750.

AMENDED DAMAGES.

The Mayor has approved the following votes of the Board of Street Commissioners:

Voted, That the order of the Street Commissioners and Mayor of September 9, 1949, as amended, determining damages caused by the making of the public improvement, consisting of the laying out of Lombard street, be, and the same hereby is, amended, by adding to said order the amount \$46 as an award to Mary J. Sheldon; that the amount \$46 be, and the same hereby is, awarded to Mary J. Sheldon for the damages so sustained.

Voted, That the order of the Street Commissioners and Mayor of November 8, 1948, as amended, determining damages caused by the making of the public improvement, consisting of the laying out of Leland road and Hackensack road, be, and the same hereby is, amended, by adding to said order the amount \$269.44 as an award to John S. Mahoney; that the amount \$269.44 be, and the same hereby is, awarded to John S. Mahoney for the damages so sustained.

Voted, That the order of the Street Commissioners and Mayor of June 29, 1948, as amended, determining damages caused by the making of the public improvement, consisting of the laying out of Jeffers street, be, and the same hereby is, amended, by adding to said order the amount \$283.58 as an award to Lewis W. and Margaret P. Chamberlain, husband and wife as tenants by the entirety; that the amount \$283.58 be, and the same hereby is, awarded to Lewis W. and Margaret P. Chamberlain, husband and wife as tenants by the entirety, for the damages so sustained.

CONSTRUCTION WORK.

The Mayor has approved the request of the Public Works Department for the following construction work:

A sanitary sewer of 340 linear feet of 10-inch pipe in Shaw street (to be built in old taking), between Cemo street and 347 feet southerly, in the West Roxbury district, at an estimated cost of \$3,300.

POLICE DEPARTMENT ORDERS.*General Order No. 1340.*

The following-named officers having requested retirement under the provisions of the Statutes of 1892, chapter 353, as amended, for the reason that they are incapacitated, it is hereby

BOSTON TRAFFIC COMMISSION BUYS 3,000 ADDITIONAL PARKING METERS, WITH MAYOR'S APPROVAL, TO BE TWO-HOUR, TWO-NICKEL TYPE, CONVERTIBLE TO PENNY-NICKEL COMBINATION, IF NECESSARY, WITHOUT ADDITIONAL COST TO CITY—TYPE PURCHASED TO SAVE CITY \$7 PER METER.

At a meeting of the Boston Traffic Commission held on July 6 it was voted to acquire 3,000 additional parking meters. The commission decided, after studying all types and makes of parking meters now on the market, because of public convenience, simplicity of operation, ease and economy of maintenance, and low-purchase price, that the best interests of the city would be served by the purchase of Mark Time manual meters at a net price of \$52 each, installed.

These meters are manufactured by the M. H. Rhodes Company of Hartford, Connecticut, the only New England concern bidding. They will be the two-hour, two-nickel type and can be converted to penny-nickel combination without additional cost to the city.

The commission will receive a five-year guarantee from the company, which

THORNDIKE BUILDING AT CITY HOSPITAL TO HAVE INCREASED X-RAY FACILITIES — MAYOR HYNES, AT REQUEST OF BOARD OF TRUSTEES, APPROVES CHANGE OF PLANS AND INCREASE IN ESTIMATED COST TO \$171,559.73.

At the request of the Trustees of the Boston City Hospital, Mayor Hynes has approved an addition to the cost of the contract for alterations and additions to the Thorndike Building, to provide additional X-ray facilities. The total of the original contract was \$168,421.50. With the addition the contract will amount to \$171,559.73.

The letter of request reads as follows:

HOSPITAL DEPARTMENT.

BOSTON, June 20, 1950.

HON. JOHN B. HYNES,

Mayor of Boston.

DEAR MR. MAYOR:

On January 29, 1947, the Mayor of Boston approved a contract between the city, acting through the Trustees of the City Hospital, and the J. A. Singarella Company, relating to alterations and additions to the Thorndike Building, Boston City Hospital, to provide addi-

MAYOR JOHN B. HYNES APPEALS TO BOSTON HOUSEWIVES TO DO NO PANIC BUYING OR HOARDING AND THUS KEEP PRICES FROM SOARING, INCREASING LIVING COSTS WHICH ARE ALREADY HIGH—POINTS TO LACK OF REASON FOR FEAR OR APPREHENSION OF POSSIBLE SHORTAGES IN FOODSTUFFS—URGES THAT SENSE OF PATRIOTIC FAIRNESS AND SOUND JUDGMENT BE ALLOWED TO GOVERN ACTIONS.

Mayor Hynes on July 11 appealed to Boston housewives to refrain from panic buying and hoarding, pointing out that by purchasing more than necessary they are forcing up the prices which they themselves must pay.

"Living costs already are high," the Mayor stated. "Panic buying for the purpose of hoarding can only send them higher.

"I hope that Boston housewives will exercise the good judgment and common sense for which they are noted and that they will only do the normal amount of shopping for their household needs.

"There is absolutely no reason or cause for any fear or apprehension of possible shortages of any kind of foodstuffs in the foreseeable future. Our storage bins are bulging with food supplies of all kinds.

"If the war in Korea results in a scramble for foods which were rationed in the recent war, the probable effect would be temporary shortages, until stocks could be replenished, and an unnecessary rise in prices.

"In the end, the only loser would be the housewife herself. She would be hoarding supplies she didn't need, and by creating a false demand she would force prices up.

"The sensible and patriotic thing in fairness to yourself and your neighbors is to keep a normal amount of foods on your shelves. This is a time when all of us should exercise sound judgment. I am sure Boston housewives will do that. The average family cannot stand the impact of any increase in living expenses."

"O Boston, fair City enthroned like a radiant queen,
From thy hills looking down on the ship-teeming plain of the ocean,
May thy future be bright, thy skies beam with light all serene,
Ensured by thy sons' and thy daughters' unselfish devotion!"

MAYOR APPROVES INCREASED X-RAY FACILITIES FOR THORNDIKE BUILDING AT CITY HOSPITAL.

(Continued from page 721.)

tional X-ray facilities at the institution. The total contract sum is \$168,421.50.

The contract provided that the aforesaid work was to be completed on or before November 24, 1947. However, due to a shortage of critical materials, necessary for the work, the Trustees subsequently approved an extension of the completion date to January 15, 1948. Later, and for similar reasons, the date for completion of the contract was extended to June 15, 1948.

The contractor's work consisted of (a) building a new addition between the Thorndike Building and the Surgical Ward Building, to consist of eleven new X-ray rooms, and (b) making alterations within the basement and first floors of the Thorndike Building in order to provide film-viewing rooms, film-storage facilities, and also a G.U. suite. Further, due to the absolute necessity of providing continuity of the vital X-ray service, it was imperative to complete the aforesaid addition before starting the alterations within the Thorndike Building itself.

During the period between February 16 and June 15, 1948, the Trustees, through the City Purchasing Department, ordered a Pako X-ray (developing) machine, but, in order to install this machine, it was necessary for the contractor to leave a wall in the addition unfinished, so that the machine, when available, might be erected. The city at this time also purchased additional new X-ray equipment which was being installed, but the new addition could not be occupied until the aforesaid Pako developing machine and the new X-ray equipment were in actual operation. As a result of these circumstances, the new addition could not be fully occupied until March 24, 1949, which is the date the General Electric Company put the Pako developing machine into operation.

Therefore, this delay between June 15, 1948, and March 24, 1949, was beyond the control of the contractor and forms the basis of his total claim in the sum of \$4,374.67 for expenses incurred during this period for fire insurances, increased labor costs, administrative expenses, and loss of production, of which intended claim the Trustees first had notice on July 3, 1948.

In view of the foregoing, and after prolonged deliberation, the Board has concluded that a payment to the contractor in the sum of \$3,138.23 would be proper reimbursement for the expenses incurred by him in performing the contract, above and beyond his obligations thereunder, and particularly in view of the fact that the architects for the work, James H. Ritchie & Associates, state that "there is no question that the Singarella Company cooperated with the city to the full extent" and that the contemplated adjustment "is a fair one."

We respectfully request your permission, therefore, to amend the contract to permit the additional payment of \$3,138.23 to this contractor, thereby making the new contract total cost the sum of \$171,559.73.

Respectfully yours,

MARTIN J. ENGLISH,
President, Board of Trustees.

CITY BUYS MORE PARKING METERS.

(Continued from page 721.)

means that the city will not have to expend any money for parts during that period.

The Mark Time meter purchased at \$52 represents a saving of approximately \$7 per meter below the price paid by the city for the MiCo parking meters now on the streets. This amounts to approximately \$21,000 on 3,000 meters.

Large installations of Mark Time meters have been made in Newark, New Jersey; Denver, Colorado; Columbus, Ohio; Jacksonville, Florida; Hartford, Connecticut; Patterson, New Jersey; Tacoma, Washington; Peoria, Illinois; Duluth, Minnesota.

* Contract awarded.

WITHOUT ADVERTISING.

Upon varying dates as indicated the Mayor approved contracts with commercial houses, contractors, etc., for furnishing supplies, labor, etc. Communications from the heads of the departments interested were as follows:

PARK DEPARTMENT.

HON. JOHN B. HYNES,
Mayor of Boston.

DEAR SIR:

You are respectfully notified that advertised proposals were publicly opened and read at this office, 33 Beacon street, Boston, on Tuesday, June 13, 1950, at 2 o'clock p.m., for erecting wire fences and fence repairs at the animal ranges, Franklin Park Zoo, as follows:

P. J. Dinn & Co., 278 Dover street, Boston, \$7,169.

Boston Chain Link Fence Company, 350 Adams street, Dorchester, \$7,623.80.

It was voted, subject to your approval, to award the contract to the low bidder, P. J. Dinn & Co., 278 Dover street, Boston, for the approximate sum of \$7,169, same to be charged to the special appropriation, Rehabilitation of the Franklin Park Zoo.

Respectfully yours,

FRANK R. KELLEY, Chairman.

AMENDED DAMAGES.

The Mayor has approved the following vote of the Board of Street Commissioners:

Voted, That the order of the Street Commissioners and Mayor of September 2, 1949, as amended, determining damages caused by the making of the public improvement, consisting of the laying out of Lombard street, be, and the same hereby is, amended, by adding to said order the amount \$186.50 as an award to Francis J. Norton and Lillian M. Norton, husband and wife, as tenants by the entirety; that the amount \$186.50 be, and the same hereby is, awarded to Francis J. Norton and Lillian M. Norton, husband and wife, as tenants by the entirety, for the damages so sustained.

EXTRA WORK UNDER CONTRACT.

PUBLIC WORKS DEPARTMENT.

Baker & Co., Inc., have been directed to perform the following extra work under the contract for laying sheet asphalt pavement in Garfield avenue and Washington street, dated December 19, 1950. Items ordered: Construct one drop inlet where directed in Washington street. Price to be paid, the lump sum of \$100. Estimated cost of extra work, \$100.

EXTENSION OF CONTRACTS.

DEPARTMENT OF SCHOOL BUILDINGS.

Approval has been given for the extension of the time of completion of the contract with R. Tweed & Son for interior painting at the Dorchester High for Boys, from June 30, 1950, to August 31, 1950. This extension was requested on account of insufficient time allowed due to delay in signing of contract.

PUBLIC WORKS DEPARTMENT.

Approval has been given for the extension of the time of completion of the contract with the Central Construction Company, 228 Southamptton street, Boston, for sheet asphalt pavement in Archdale road, Biltmore street, Malcolm road, Seaverns avenue, and Whitcomb avenue, from June 30, 1950, to August 31, 1950. This extension was requested for the reason that the contractor has not yet resumed work under this contract.

Approval has been given for the extension of the time of completion of the contract with the Central Construction Company, 228 Southamptton street, Boston, for sheet asphalt pavement in South Huntington avenue, from Centre street to Huntington avenue, from June 30, 1950, to August 31, 1950. This extension was requested for the reason that the contractor has not yet resumed work under the contract.

Approval has been given for the extension of the time of completion of the contract with the Central Construction Company, 228 Southamptton street, Boston, for sheet asphalt pavement in Blue Hill avenue, Roxbury, from Dudley street to Warren street, from June 30, 1950, to July 15, 1950. This extension was requested for the reason that the contractor will require a few more days to complete the street.

Approval has been given for the extension of the time of completion of the contract with Dooley Brothers Inc., 39 George street, Roxbury, for sheet asphalt pavement in Arlington street, Duncklee street, Etna street, Faneuil street, Harriet street, Lane Park, Langley road, and Tip Top street, from June 30, 1950, to September 15, 1950. This extension was requested for the reason that the contractor has been delayed in starting Faneuil street because of sewer work being done.

Approval has been given for the extension of the time of completion of the contract with James A. Susi, 90 Cornell street, Roslindale, for sheet asphalt pavement in Hyde Park avenue and Walk Hill street, from June 30, 1950, to August 31, 1950. This extension was requested for the reason that the contractor was delayed by failure of the

Metropolitan Transit Authority to complete the car rail work in the street on Hyde Park avenue.

Approval has been given for the extension of the time of completion of the contract with A. Singarella & Son, 22A Tremlett street, Dorchester, for laying sheet asphalt pavement in Aeacia road, Ansonia road, Freeman avenue, Hackensaek road, Leland road, Rendall road, and Worley street, from June 30, 1950, to July 31, 1950. This extension was requested for the reason that the contractor has been delayed due to inclement weather and delay in delivery of edgestone.

OMIT AND SUBSTITUTE WORK UNDER CONTRACT.

PUBLIC WORKS DEPARTMENT.

Baker & Co., Inc., has been directed to omit and substitute the following work under the contract for laying sheet asphalt pavement in Garfield avenue and Washington street, dated December 19, 1950. Estimated cost of substituted work, \$11,037.50; estimated cost of omitted work, \$9,909; estimated increase in cost, \$1,128.50.

CONSTRUCTION WORK.

PUBLIC WORKS DEPARTMENT.

To construct a 12-inch cast-iron pipe sanitary sewer (laterally) in Old Colony Parkway 960 feet south of Mt. Vernon street, between east side of Old Colony Parkway and west side of Old Colony Parkway, in the Dorchester district, at an estimated cost of \$7,200.

POLICE DEPARTMENT ORDERS.

General Order No. 1,342.

Patrolmen James F. Burke and Kenneth H. Robinson of Division 10 are commended for meritorious police work performed on June 21, 1950.

While patrolling in a police radio car, these officers received information that a man was acting in a suspicious manner and they immediately proceeded to the location given. When they neared the suspect he fled but after a brief chase and struggle he was placed under arrest. This man had on his person a loaded revolver and investigation revealed that he was in the vicinity planning to rob a beverage company.

This arrest resulted in clearing up a number of crimes in Greater Boston, including armed holdups and house breaks, and the recovery of considerable valuable property. The criminal has been sentenced to a long term in State Prison.

The commissioner is pleased to recognize and commend these officers for their prompt and efficient action in taking into custody this armed criminal which

undoubtedly prevented the commission of more serious crimes, and in addition, it is hereby ordered that each be granted two days' extra vacation.

The Acting Superintendent of Police will promulgate this order.

THOMAS F. SULLIVAN,
Police Commissioner.

FIRE DEPARTMENT ORDERS.

General Order No. 39.

PROCEEDINGS OF CITY COUNCIL.

Monday, June 26, 1950.

Regular meeting of the City Council held in the Council Chamber, City Hall, at 2 P.M., President HURLEY in the chair, Absent, Councilors Chase, Coffey, Kinsella, and P. A. Tracy.

APPROPRIATION OF \$150,000 FOR RESERVE FUND.

The following was received:

City of Boston,
Office of the Mayor, June 26, 1950.
To the City Council.
Gentlemen:

On June 12, I forwarded to your Honorable Body an order for the appropriation of \$150,000 for the Reserve Fund, in order that this fund might contain sufficient resources to meet necessary and probable requirements to the end of the year.

I respectfully request that your Honorable Body give approval to this order at today's meeting in order that I might include this amount of money in the tax rate which will be declared this week.

Respectfully,
J. B. HYNES, Mayor.

Referred to the Executive Committee.

AMENDMENT TO BUILDING CODE.

The following was received:

City of Boston,
Office of the Mayor, June 26, 1950.
To the City Council.
Gentlemen:

Transmitted herewith is a self-explanatory communication received by me this day from the Building Commissioner. Also enclosed is an ordinance putting into effect the Building Commissioner's recommendation. In view of the situation to which the Building Commissioner calls attention, I recommend immediate adoption of the ordinance.

Respectfully,
J. B. HYNES, Mayor.

City of Boston,
Building Department, June 26, 1950.
To His Honor the Mayor of the City of Boston and the Honorable the City Council of Said City.

Gentlemen:
The Boston Building Code as presently in force allows advertising signs of combustible material not more than 20 square feet in area to be erected in the first and second fire zones flat against the exterior wall of a building. Projecting signs of like material are completely prohibited. As the spread of fire from a projecting sign is less likely than from a sign flat against a wall, the absolute prohibition of combustible projecting signs would seem to be unjustifiable.

Accordingly, acting under the power vested in me by Statutes 1938, chapter 479, section 105A, as inserted by Statutes 1939, chapter 217, section 1, I recommend that section 1201 of chapter 479 of the Acts of 1938 be amended by ordinance by striking out paragraph (c), as amended by section 138 of chapter 2 of the Ordinances of 1943, and inserting in place thereof the following:

(c) Structures of Division 2, erected on the roof or on the facade of a building in the first or second fire zone, shall be constructed with incombustible materials, except water tanks, flag poles, isolated signs flat against an exterior wall not more than 20 square feet in area, and isolated signs projecting from an exterior wall; provided, that such projecting signs have a frame of incombustible material, that the combustible material in such projecting signs is no more combustible than wood, that no part of such combustible material is nearer an exterior wall than 15 inches, and that the surface area of such combustible material is not more than 35 square feet on any face and not more than 70 square feet in the aggregate, except that the surface area of such combustible material, if the nearest point thereof is 18 or more inches from all exterior walls, may be more than 35 square feet on a face and more than 70 square feet in the aggregate if the building commissioner certifies on the application for the permit to erect such sign that in his opinion the spread of fire therefrom is no more likely than from a projecting sign having an incombustible frame and two wooden faces each

35 square feet in area the nearest point of which wood is 15 inches from the nearest exterior wall.

Respectfully,
HARRY J. KEEFE,
Building Commissioner.

City of Boston.

In the Year Nineteen Hundred and Fifty.
An Ordinance Further Amending the Boston Building Code.

Be it ordained by the City Council of Boston, as follows:

Section 1201 of chapter 479 of the Acts of 1938 is hereby amended by striking out paragraph (c), as amended by section 138 of chapter 2 of the Ordinances of 1943, and inserting in place thereof the following:

(c) Structures of Division 2, erected on the roof or on the facade of a building in the first or second fire zone, shall be constructed with incombustible materials, except water tanks, flag poles, isolated signs flat against an exterior wall not more than 20 square feet in area, and isolated signs projecting from an exterior wall; provided, that such projecting signs have a frame of incombustible material, that the combustible material in such projecting signs is no more combustible than wood, that no part of such combustible material is nearer an exterior wall than 15 inches, and that the surface area of such combustible material is not more than 35 square feet on any face and not more than 70 square feet in the aggregate, except that the surface area of such combustible material, if the nearest point thereof is 18 or more inches from all exterior walls, may be more than 35 square feet on a face and more than 70 square feet in the aggregate if the building commissioner certifies on the application for the permit to erect such sign that in his opinion the spread of fire therefrom is no more likely than from a projecting sign having an incombustible frame and two wooden faces each 35 square feet in area the nearest point of which wood is 15 inches from the nearest exterior wall.

Referred to the Committee on Ordinances.

NAMING INTERSECTIONS IN HONOR OF DECEASED VETERANS.

The following was received:

City of Boston,
Office of the Mayor, June 26, 1950.
To the City Council.
Gentlemen:

I submit herewith three orders for the naming of certain intersections in the city in honor of three veterans of World War II who were killed in action.

These orders are the result of requests made by members of your Honorable Body and the Committee to Memorialize Veterans after due consideration, has recommended the naming of the sites as set forth in the accompanying orders.

In a small way, this indicates our appreciation of their sacrifices, and it perpetuates in fitting fashion their memories as heroic citizens of Boston. Accordingly, I recommend that your Honorable Body give approval to these orders.

Respectfully,
J. B. HYNES, Mayor.

City of Boston,
Street Laying-Out Department,
June 21, 1950.

Hon. John B. Hynes,
Mayor of Boston.

Dear Mr. Mayor:

At a meeting of the Committee to Memorialize Veterans, it was voted to designate the following intersections in honor of the following named veterans of World War II:

Blue Hill avenue and McLellan street, Dorchester district—Milton C. Kornetz Square.
Faneuil and Market streets, Brighton district—William MacDonald Square.
Norfolk and Stanton streets, Dorchester district—Kenneth J. McDonald Square.

Notice of the above vote has been forwarded to the City Council for action.

Respectfully,
L. W. COSTELLO, Secretary.

Ordered, That the space at the junction of Blue Hill avenue and McLellan street, Ward 14, be named Milton C. Kornetz Square, in honor of Milton C. Kornetz, late veteran of World War II.

Ordered, That the space at the junction of Faneuil and Market streets, Ward 22, be named William MacDonald Square, in honor of William MacDonald, late veteran of World War II.

Ordered, That the space at the junction of Norfolk and Stanton streets, Ward 17, be named Kenneth J. McDonald Square, in honor of Kenneth McDonald, late veteran of World War II.

The orders were severally passed under suspension of the rule.

PROBE OF RECENT HAPPENINGS AT FRANKLIN PARK.

The following was received:

City of Boston,
Office of the Mayor, June 26, 1950.
To the City Council.
Gentlemen:

I transmit herewith communication from the Police Commissioner relative to your order of June 5, 1950, concerning the making of a probe of the recent happenings in the Franklin Park area perpetrated by groups who came into that area for the purpose of creating unrest and causing malicious harm.

Respectfully,
J. B. HYNES, Mayor.

City of Boston,
Police Department, June 20, 1950.
Thomas G. J. Shannon,
Chief Clerk, Mayor's Office.

Dear Mr. Shannon:

I am returning herewith copy of order of the City Council, dated June 5, 1950, reading as follows:

"Requesting that a probe be made immediately of recent happenings in the Franklin Park area perpetrated by groups who came into that area for the purpose of creating unrest and causing malicious harm."

I am in receipt of a report from the commanding officer of that division advising that the incidents referred to in the order involved juveniles between the age of nine and sixteen years. Since April 3 of this year, eleven arrests were made. In addition, seven boys were taken into custody, but were not prosecuted because of desires of parents of victims.

The officers on foot, on motorcycle, in sector car and the plain-clothes men in automobiles are constantly on the watch for incidents of this nature, and every complaint is thoroughly investigated.

Very truly yours,
T. F. SULLIVAN,
Police Commissioner.

Placed on file.

CONVENIENCE STATION AT CITY POINT.

The following was received:

City of Boston,
Office of the Mayor, June 26, 1950.
To the City Council.
Gentlemen:

I transmit herewith communication from the Metropolitan District Commissioner relative to your order of June 12, 1950, concerning the opening of the convenience station located at City Point for the many thousands of women and children that go to the beach.

Respectfully,
J. B. HYNES, Mayor.

Commonwealth of Massachusetts,
Metropolitan District Commission,
June 22, 1950.

Thomas G. J. Shannon,
Chief Clerk, Mayor's Office.

My dear Mr. Shannon:

The commission acknowledges receipt of your memorandum of June 14, 1950, with the accompanying copy of an order of your Honorable Council requesting the opening of the City Point Public Sanitary, the order being offered by Councilor Wenzler.

Our maintenance superintendent has reported to me that the sanitary was opened to the public on June 12, the day the honorable councilor offered his order, after some expensive and quite necessary repairs were finished.

Very truly yours,
WILLIAM T. MORRISSEY, Commissioner.

NATIONAL FEDERAL WORKS PROJECTS IN BOSTON AND NEW ENGLAND.

The following was received:

City of Boston,
Office of the Mayor, June 26, 1950.
To the City Council.
Gentlemen:

I transmit herewith communication from Senator Henry Cabot Lodge, Jr., relative to your order of June 5, 1950, concerning the studying of the several National Federal Works

Projects in Boston and New England for the purposes of easing the present unemployment situation that at present prevails.

Respectfully,

J. B. HYNES, Mayor.

United States Senate,
Committee on Foreign Relations,
June 15, 1950.

Mr. Thomas G. J. Shannon,
Chief Clerk, Mayor's Office.
Dear Mr. Shannon:

Thank you for your letter enclosing a copy of the order sponsored by Councilor Julius Ansel and passed by the Boston City Council. I am very glad to have this order because it relates to the matter of public works projects in Boston and New England for the purpose of easing the present unemployment situation. This is a matter which interests me very much and I want to leave no stone unturned to be helpful. I shall take up the subject matter of this order with the proper Federal authorities at once.

Very sincerely yours,

HENRY CABOT LODGE, JR.,
United States Senator.

ELIMINATION OF FIRE HAZARD, 12 AND 14 PORTER STREET, JAMAICA PLAIN.

The following was received:

City of Boston,
Office of the Mayor, June 26, 1950.
To the City Council.
Gentlemen:

I transmit herewith communication from the Fire Commissioner relative to your order of June 5, 1950, concerning the elimination of a fire hazard in the building known and designated as 12 and 14 Porter street, Jamaica Plain.

Respectfully,

J. B. HYNES, Mayor.

City of Boston,
Fire Department, June 22, 1950.
Hon. John B. Hynes,
Mayor of Boston.

Your Honor:

With reference to the order passed in City Council June 5, 1950, requesting that you confer with the Fire Commissioner and others in order that steps might be taken to eliminate the fire hazard in the building known and designated as 12 and 14 Porter street, Jamaica Plain, please be advised as follows:

On February 23, 1950, Chief John F. McDonough of this department sent a notice to George Giles & Son, 689 Massachusetts avenue, Cambridge, agents for the heirs of Samuel Tarplin, that the property was open to trespass and boys had been climbing through broken windows and had been smoking on the premises. Same was ordered boarded up at once.

On April 5, 1950, our attention was called to this fire hazard by City Councilor Philip A. Tracy.

On April 10, 1950, we received an inspection report signed by Lieut. Biaggi Germano of Engine Company 42 to the effect that the building was vacant and in an unsafe condition and constituted a serious fire hazard to this and the adjacent property. It was recommended that the attention of the Building Department be called to the condition immediately.

On April 12, 1950, we submitted the report of Lieutenant Germano to Mr. John J. Mahoney, Building Commissioner.

On April 26, 1950, we sent an order to George A. Giles & Son, 689 Massachusetts avenue, Cambridge, attention of E. Burbank Saul, directing that all combustible waste materials consisting of discarded furniture, cardboard cartons, waste papers, rags, empty beer cases, fruit baskets, burlap bagging be removed and properly disposed of from interior of building. FORTHWITH.

That all combustible waste material consisting of waste papers, broken cartons, dry brush growth, scrap wood, old mattresses be removed and properly disposed of from rear yard area.

That building be properly secured against trespass by unauthorized persons. FORTHWITH.

Subsequently, verbal and written complaints were received about the same condition. As the result of these, Lieut. Chief Inspector Francis W. Kelley consulted with Mr. Owens, Assistant Corporation Counsel, with reference to the demolition of the building and was advised that it would take from three to four weeks for a decree from the Land Court to convey property at the above location to the City of Boston. He advised that, in the meantime, all combustible waste material within the building could be moved to correct part of the condition.

On May 10, 1950, in a letter directed to Mr. George Hyland, Commissioner of the Department of Public Works, by Deputy Chief Edward N. Montgomery, in charge of the Fire Prevention Division, we requested that the Public Works Department assign a truck and manpower to clean out the building to evade the hazardous condition now existing.

On May 11, 1950, Mr. Hyland replied that his department could not undertake work of the nature described for various reasons. He wrote that he would forward our communication to the Building Commissioner for whatever action the latter deemed advisable.

Deputy Chief Montgomery advised Councilor Tracy on May 12, 1950, that this department had gone as far as it could in the matter of correcting conditions at 12 and 14 Porter street, Jamaica Plain. Deputy Chief Montgomery supplied Councilor Tracy with photographs and copies of correspondence in the hope that he would pursue the effort to have the condition corrected.

Our Fire Prevention Bureau has determined that it is definitely a fire hazard, and we trust that everything will be done to remove it as quickly as possible.

Respectfully yours,

MICHAEL T. KELLEHER,
Fire Commissioner.

City of Boston,
Office of the Mayor, June 26, 1950.
To the City Council.
Gentlemen:

I transmit herewith communication from the Building Commissioner relative to your order of June 5, 1950, concerning the taking of immediate steps to eliminate the fire hazard which exists in the building known and designated as 12 and 14 Porter street in Jamaica Plain.

Respectfully,

J. B. HYNES, Mayor.

City of Boston,
Building Department, June 19, 1950.
Hon. John B. Hynes,
Mayor of Boston.

Dear Mr. Mayor:

In answer to the City Council order of June 5, 1950, concerning the building at 12 and 14 Porter street, Ward 11, I wish to say that this office has had some correspondence with Councilor Tracy on the subject.

There is a complaint on record against the premises and the building has been posted as required by law, since we have been unable to locate the owner. The property is not structurally unsafe within the meaning of the law (chapter 479, Acts of 1938, section 116d), consequently we have been unable to order its removal.

On June 15, 1950, a decree was signed in the Land Court and I have been informed that the city will take title within the week. I have also discussed the matter with Mr. Herman Carp and he has assured me that when the necessary papers have been processed he will at once make a survey to determine whether his department will repair or remove the building.

Very truly yours,

HARRY J. KEEFE,
Building Commissioner.

NAMING OF MONSIGNOR WILLIAM J. CASEY ROAD.

The following was received:

City of Boston,
Office of the Mayor, June 26, 1950.
To the City Council.
Gentlemen:

I transmit herewith communication from the Chairman of the Park Department relative to your order of June 5, 1950, concerning the changing of the name of Park road and the easterly roadway of the Arborway from 876 Centre street to 249 South street, Jamaica Plain, to Monsignor William J. Casey road.

Respectfully,

J. B. HYNES, Mayor.

City of Boston,
Park Department, June 19, 1950.
Thomas G. J. Shannon,
Chief Clerk, Mayor's Office.

Dear Sir:

I am in receipt of a memo from your office with attached enclosure, City Council order dated June 5, requesting the Park Commission to "change the name of Park road and the easterly roadway of the Arborway from 876 Centre street, to 249 South street, Jamaica Plain, to Monsignor William J. Casey road."

This area would not appear to be a proper one to name after Monsignor Casey. I believe the people of Jamaica Plain would be more interested in having some building or possibly some street adjacent to St. Thomas's Church named for him.

In the Park Department we have the Fenway, Riverway, Jamicaway, Arborway, and Strandway, and these various parkways are known only by these names. The Arborway starts at Prince and Pond streets and runs to Franklin Park. I think it would be very unwise to take a piece out of the middle of the Arborway, give it a new name and then have it known as the Arborway on either end with the center of the Arborway known by another name.

Experience shows that when a change is made of this character, it is never referred to under the new name, but is continued to be known by the name which has existed for many years. All of this area would be continued to be known as the Arborway.

Very truly yours,

FRANK R. KELLEY, Chairman.

PLAYGROUND ON RIVER STREET, WARD 18.

The following was received:

City of Boston,
Office of the Mayor, June 26, 1950.
To the City Council.
Gentlemen:

I transmit herewith communication from the Chairman of the Boston Housing Authority relative to your order of June 5, 1950, concerning the transfer of the vacant land on River street, Ward 18, to the Park Department for playground purposes to take care of the requirements of approximately 2,000 additional children who are now living in the housing development in that area.

Respectfully,

J. B. HYNES, Mayor.

Boston Housing Authority,

June 20, 1950.

Hon. John B. Hynes,
Mayor of Boston.

My dear Mr. Mayor:

Steps are now being taken to transfer the custody and control of the vacant land at River street to the Park Department for a play area for the children.

Very truly yours,

CORNELIUS T. KILEY, Chairman.

REPLACEMENT OF STREET SIGNS, WARD 16.

The following was received:

City of Boston,
Office of the Mayor, June 26, 1950.
To the City Council.
Gentlemen:

I transmit herewith communication from the Public Works Commissioner relative to your order of June 19, 1950, concerning the immediate replacement of all street signs in Ward 16 that have become obliterated.

Respectfully,

J. B. HYNES, Mayor.

City of Boston,
Public Works Department,
June 22, 1950.

Thomas G. J. Shannon,
Chief Clerk, Mayor's Office.

Dear Mr. Shannon:

This is in reference to the following order that was passed in the City Council under date of June 19:

"Ordered, That the Public Works Commissioner be requested, through his Honor the Mayor, to immediately replace all street signs in Ward 16 that have become obliterated."

It is our intention not only to replace all obliterated street signs in Ward 16, but in all other wards, because the above-referenced condition is prevalent throughout the city.

Steps have already been taken to replace the obliterated signs and also street signs that are missing. The entire condition, therefore, concerning street signs should be corrected before the end of the year.

Respectfully yours,

GEORGE G. HYLAND,
Commissioner of Public Works.

EXPRESSION OF THANKS TO PRESS FROM JUDGE THOMAS E. LINEHAN.

The following was received:

Linehan & Owens,
June 11, 1950.

To the City Council.

Gentlemen:

I am sorry that due to an oversight I failed to thank the press in my letter of resignation, presented at last Monday's meeting of the City Council, for their kindness and fairness in reporting my activities in regard to veterans' housing and other matters in which I was deeply interested.

I fully realize that without the publicity given by the press, many of the projects which I sponsored would not have been successful.

My relations with the press have been very friendly all through the years and I shall always remember these pleasant associations.

Respectfully yours,
THOMAS E. LINEHAN.

3. Report on the message of the Mayor and ordinance (referred today) on reorganization of Health Department—recommending passage of the ordinance in the following new draft:

City of Boston.

In the Year Nineteen Hundred and Fifty.

An Ordinance Concerning the Organization of the Health Department.

Be it ordained by the City Council of Boston, as follows:

SECTION 1. Section 1 of chapter 17 of the Revised Ordinances of 1947 is hereby amended by adding at the end thereof the following: The health commissioner may appoint, subject to the approval of the mayor, an assistant health commissioner, who shall be sworn to the faithful discharge of his duties and shall hold office until his successor is appointed and qualified. The assistant health commissioner shall perform such duties as may be assigned to him from time to time by the health commissioner.

SECT. 2. Said chapter 17 is hereby further amended by striking out section 2 and inserting in place thereof the following: Section 2. There shall be in the health department the following sections: section of general services, section of medical services, section of environmental sanitation, and section of local health service. Each section shall be in charge of a director, who shall be appointed by the health commissioner. The health commissioner may, from time to time, determine the divisions, if any, within each of said sections, and shall appoint the heads of such divisions. In appointing the director of a section or the head of a division, the health commissioner shall certify that in his opinion the person appointed is an expert in the work which will devolve upon him, that he is a person specially fitted by education, training, or experience to perform the duties of the position, and that the appointment is made solely in the interest of the city, such certificate to be filed with the city clerk and to be open to public inspection.

SECT. 3. All employees of the divisions of the health department abolished by this ordinance who are subject to civil service shall, without civil service examination or registration, be reappointed to similar positions with similar status and like compensation in a division established by the health commissioner under this ordinance; and all such employees shall, upon such reappointment, retain all rights to retirement with pension that have accrued or would hereafter accrue to them; and the service of all such employees shall be deemed to have been continuous, to the same extent as if such abolition had not taken place. This ordinance shall take effect on July 5, 1950.

The report of the committee was accepted. On motion of Councilor Cook the ordinance as submitted by the Mayor was rejected. The new draft of the ordinance as submitted by the Executive Committee was rejected, yeas 8, nays 9:

Yeas—Councilors Beades, Cook, Hurley, Ramsey, Shanley, Sullivan, F. P. Tracey, Yerxa—8.

Nays—Councilors Ansel, Bryan, Cantwell, Farin, Hannon, Lane, Lanigan, McCormack, Wenzler—9.

Later in the session Councilor Ramsey moved reconsideration of the vote on the new draft of the ordinance as submitted by the Executive Committee and the motion to reconsider prevailed, yeas 13, nays 3:

Yeas—Councilors Ansel, Beades, Bryan, Cantwell, Farin, Hurley, Lane, McCormack, Ramsey, Shanley, Sullivan, F. P. Tracey, Yerxa—13.

Nays—Councilors Hannon, Lanigan, Wenzler—3.

The new draft of the ordinance as submitted by the Executive Committee was passed.

ADVERTISING ON ARCHITECTS' BIDS.

Coun. SULLIVAN offered the following:
Ordered, That his Honor the Mayor be requested to instruct all department heads, where public bids are required and an architect is engaged, to first advertise for bids from the architect.

Passed under suspension of the rule.

Later in the session Councilor Sullivan moved to reconsider the foregoing order. The motion to reconsider was carried. On further motion of Councilor Sullivan the order was laid on the table for one week.

PURCHASE OF SHOUP VOTING MACHINES.

Coun. SULLIVAN offered the following:
Resolved, That the Boston City Council, in meeting assembled, hereby records itself as favoring the purchase of the Shoup type voting machine; and be it further

Resolved, That a copy of this resolution be forwarded to his Honor the Mayor and the Board of Election Commissioners.

Councilor Cook moved that the resolution be laid on the table. Councilor Sullivan moved to amend Councilor Cook's motion to lay the resolution on the table for one week. The motion to amend was lost, yeas 7, nays 9:

Yeas—Councilors Beades, Hurley, Ramsey, Shanley, Sullivan, F. P. Tracey, Wenzler—7.

Nays—Councilors Ansel, Bryan, Cantwell, Cook, Farin, Hannon, Lane, Lanigan, Yerxa—9.

The question then came on Councilor Cook's motion that the resolution be laid on the table, and the motion was carried.

THE NEXT MEETING.

On motion of Councilor Cantwell, it was voted that when the Council adjourned, it would be to meet again on Monday, July 10, 1950, at 2 o'clock P.M.

CIVILIAN DEFENSE.

Coun. BEADES offered the following:
Ordered, That the Law Department be requested, through his Honor the Mayor, to immediately draw up an ordinance concerning Civilian Defense in the City of Boston to the extent permitted by legislation now in the process of enactment before the Great and General Court of Massachusetts and this order be drawn without delay so that the City of Boston will be adequately prepared to meet any further emergencies.

PARKING METERS PROFITABLE FOR CITIES.

A survey of parking meter usage in 62 cities over 100,000, recently made by the city purchasing agent of Chicago in cooperation with the National Institute of Governmental Purchasing, indicated an annual income per meter of \$74.31, or \$6.19 per month. Cities reporting an average annual income per meter in excess of \$100 included Minneapolis, St. Paul, Providence, Dayton, Long Beach,

Chattanooga, Canton (Ohio), and South Bend (Indiana). Cities which reported an income of \$90 to \$100 per meter per year were Seattle, Columbus (Ohio), Richmond, Miami, Flint, Norfolk, Tulsa, Wichita, Sacramento, and Charlotte. Maintenance costs reported by 33 cities, including labor, repairs, and collections, averaged \$6.99 per meter per year, or nearly 10 per cent of the revenue.

Each proposal should be enclosed in an envelope, sealed, marked "Proposal for Artificial Stone Sidewalks in Tacoma Street, Ward 18, from Wood Avenue to Bradlee Street," and left at Room 508, fifth floor, City Hall Annex, before 12 M. of WEDNESDAY, JULY 26, 1950, with a certified check for TWELVE HUNDRED (1,200) DOLLARS, payable to and to become the property of the city if the proposal after acceptance is not carried out. The proposals will then be publicly opened and read in the hearing room of the Street Commissioners, Room 401, City Hall Annex.

Proposals must be made in duplicate, the sealed duplicate, without check, to be deposited by the bidder with the City Auditor previous to the time named for opening the bids. All proposals must be from bidders of record on file at Room 508, City Hall Annex. There will be a charge of two dollars (\$2) for each set of plans and specifications taken out. If the price of any item appears to the Commissioner to be abnormally high or low, or the bidder neglects to bid on each and every item, it may lead to the rejection of the proposal containing such price. The rate per hour of the wages to be paid to mechanics, teamsters, chauffeurs and laborers in the work to be performed under the contract shall not be less than the rate of wages in the schedule determined by the Commissioner of Labor and Industries of the Commonwealth, a copy of which schedule is annexed to the form of contract referred to herein. Copies of said schedule may be obtained, without cost, upon application therefor at the office of the Commissioner of Public Works. Before commencing performance of this contract, the Contractor shall provide by insurance for the payment of compensation and the furnishing of other benefits under chapter 152 of the General Laws (the Workmen's Compensation Law so called) to all persons to be employed under this contract and shall continue such insurance in full force and effect during the term of this contract. The undersigned reserves the right to reject any or all proposals or to award the contract as he deems best.

TO ROOFING CONTRACTORS.

INVITATION FOR PROPOSALS FOR ROOFING AND OTHER WORK AT THE RALPH WALDO EMERSON SCHOOL, SHIRLEY STREET, BOSTON, MASS.

The Superintendent of Construction of the Department of School Buildings, Boston, Mass., hereinafter referred to as the Awarding Authority, invites sealed proposals for roofing and other work at the Ralph Waldo Emerson School, Shirley street, Boston, Mass.

Proposals will be received until 12 o'clock noon, Monday, July 24, 1950, at the office of the Awarding Authority, fourth floor, 26 Norman street, Boston, Mass., at which time and place they will be publicly opened and read aloud.

Proposals shall be submitted in duplicate on forms obtained from the Awarding Authority. Each copy of the proposal shall be properly filled out, signed and inclosed in a sealed envelope, plainly marked with the name of the bidder and the description of the work bid upon. One copy shall be filed at the office of the Awarding Authority, designated above, and the other copy shall be filed at the office of the City Auditor, City Hall, Boston, Mass. Both copies shall be filed before the time stated above for the opening of proposals.

A bid deposit in the form of cash or a certified check on, or a certificate of deposit issued by, a responsible bank or trust company, payable to the City of Boston, in the sum of \$150, shall be submitted with the copy of the proposal filed with the Awarding Authority. The bid deposit shall be in a separate envelope, properly marked. Bid bonds will not be accepted.

No bidder may withdraw his bid within thirty days after the actual date of the opening thereof.

The rate per hour of the wages to be paid to mechanics, teamsters, chauffeurs, and laborers in the work to be performed shall not be less than the rate of wages determined for this work by the Commissioner of Labor and Industries of the Commonwealth of Massachusetts under the provisions of General Laws (Ter. Ed.), chapter 149, section 26, a schedule of which appears in the specifications.

The successful bidder will be required to provide by insurance for the payment of compensation and the furnishing of other benefits under the Workmen's Compensation Law, General Laws (Ter. Ed.), chapter 152, to all persons to be employed under the contract, and sufficient proof of compliance with the foregoing stipulation will be required before commencing performance of this contract.

A performance bond, issued by a surety company satisfactory to the Awarding Authority, in the full amount of the contract will be required of the successful general contractor.

The Awarding Authority reserves the right to waive any informalities and to reject any and all bids.

MAYOR HYNES ASKS SUM OF \$20,000 FOR PURPOSE OF ESTABLISHING CIVIL DEFENSE ORGANIZATION FOR BOSTON—TO PREPARE CITY FOR POSSIBLE SURPRISE ATTACKS.

The Mayor, on Monday, July 17, sent the following message to the City Council:

GENTLEMEN:

In view of existing world conditions, I deem it desirable to provide for a civil defense organization to plan and direct civil defense operations which would take place in time of an emergency. We are all aware that air power has shrunk the globe and removed our natural defense barriers. As a coastal city and the financial center of New England, Boston must be prepared for surprise attacks which could place the lives of our citizens, as well as industrial plants, commercial facilities, and other installations, in immediate jeopardy.

I have already appointed a small committee of department officials to consider the problem. It is now evident that this committee should be expanded so as to include the best brains in the community. We should have an inventory of existing facilities and resources of

UNDERGROUND GARAGE ON BOSTON COMMON AWAITS SETTLEMENT OF PROBLEM OF FINANCING BETWEEN R.F.C. AND MOTOR PARKS, INC., MAYOR HYNES EXPLAINS IN STATEMENT TO PUBLIC.

Upon July 14 the following statement was issued by his Honor, Mayor John B. Hynes:

With reference to inquiries concerning the building of the garage underneath Boston Common, it appears at the present time that the financing of the construction of the garage has been arranged through the R. F. C. The final agreement between the R. F. C. and Motor Parks, Inc., has not yet been signed. When this document is signed, all details concerning the construction, financing, and operation of the garage will be publicized.

It should be emphasized that, under the terms of the law providing for the underground garage, the financing and construction will be done by private interests. The City of Boston, again under the terms of the statute, will receive 2 per cent annually of the gross receipts of the operation.

It is my understanding that Motor Parks, Inc., a local concern, will employ in the construction of the garage local contractors and engineers. It is estimated

MAYOR JOHN B. HYNES HAS GIVEN THE "GO AHEAD" SIGNAL TO BOARD OF REAL ESTATE COMMISSIONERS TO PROCEED WITH CONSTRUCTION OF OFF-STREET PARKING GARAGE AT FORT HILL SQUARE—ARCHITECTS EMPLOYED AND PLANS UNDER WAY FOR STRUCTURE TO ACCOMMODATE OVER 600 CARS—AESTHETIC BEAUTY OF PARK NOT TO BE SPOILED—WILL PROVIDE EASY WALKING ACCESS TO BUSINESS AND COMMERCIAL DISTRICTS FOR SUBURBAN RESIDENTS TO THE NORTH OF BOSTON—WORK TO BE STARTED BY LATE FALL AFTER LEGISLATURE PASSES BILL FOR TRANSFER OF PROPERTY FROM PARK DEPARTMENT.

Mayor John B. Hynes has given the Board of Real Estate Commissioners the "go ahead" signal for the construction of the off-street parking garage on the site of the Fort Hill Square Park, now controlled by the Park Department. The area contains 29,743 square feet of space and, when the garage is constructed, will accommodate over 600 cars. The cost of the structure is estimated at approximately \$1,000,000.

According to Chairman Herman Carp, of the Board of Real Estate Commissioners, the roof of the structure will be lifted about 10 feet above the sidewalk level with a park area on a part of the roof without destroying the street level or the beauty of the site as a park. There will be two stories below the street level for the parking of the cars.

This garage will provide easy access for those desiring to visit the shopping district and will lead directly from a ramp off the proposed Boston arterial highway, whereby cars can enter the garage and into the square; another leads into the garage, and returns without creating any jam or confusion.

This garage, as it leads from the arterial highway will be so constructed as to provide that those persons living north of Boston and coming into the city by way of the Mystic River Bridge will not be hampered by traffic and may quickly reach the garage, park their cars at a reasonable rate, walk to the shopping district still without being hampered by traffic, then, their errands completed, walk back to the garage, climb the ramp to the highway with their cars, then to the Mystic River Bridge and return to their homes. Thus they will not be compelled to drive through the congested traffic areas—with a saving of time.

The garage, the site, and the plans have been approved by the Traffic Commission, the Planning Board, and the Park Department. There is a bill now before the Legislature which will provide for the transfer of the control of the Fort Hill Square property to the Real Estate Board, after which this much-needed facility will get under way. One of the attractive features of the arrangement will be the low cost for car users at a daily rate which will be kept at a minimum.

This garage locus will be of immense benefit to both the shoppers and to the business of the city.

MAYOR HYNES APPROVES THE CONSTRUCTION OF OFF-STREET PARKING GARAGE IN FORT HILL SQUARE.

(Continued from page 745.)

The Board of Real Estate Commissioners has been authorized by the Mayor to employ the services of Charles A. Maguire and Associates as architect-engineers, and after the transfer of the land control has been completed, with the approval of the Legislature, plans will be quickly completed. Bids will be asked for the construction, and work is expected to be started by late fall.

When the garage is completed, its use will in no small part tend toward a cessation of the decentralization of retail stores in the Hub. The letter from the Mayor authorizing the employment of the architects to begin the work reads as follows:

BOARD OF REAL ESTATE COMMISSIONERS.

Boston, June 21, 1950.

HON. JOHN B. HYNES,
Mayor of Boston.

DEAR MR. MAYOR:

The Board of Real Estate Commissioners proposes to engage the services of Charles A. Maguire and Associates, a partnership, of 294 Washington street, Boston, Mass., as architect-engineer in connection with the proposed construction of an off-street parking facility at Fort Hill square. The estimated cost of the proposed structure is approximately one million (1,000,000) dollars, and the architect-engineer shall be paid a standard fee equal to the sum of 6 per cent of the full amount of the cost of said construction.

It is proposed that this off-street parking facility be constructed at a point where the down ramp of the proposed Central Artery meets the street, and, inasmuch as Charles A. Maguire and Associates are engineering the artery, it is felt by this Board that the same engineering firm should plan our garage in conjunction with the planning of the Central Artery.

In view of the nature of the professional services involved, no benefit would be gained by advertising for bids, and it is respectfully requested that permission be given to award the contract to Charles A. Maguire and Associates without public advertising.

Respectfully yours,

HERMAN CARP, *Chairman.*

UNDERGROUND GARAGE ON BOSTON COMMON AWAITS FINANCING.

(Continued from page 745.)

that it will take approximately one year and a half to complete the underground structure.

Generally, it is expected that the garage will be the foremost structure of its type in the country, with modern features for the convenience and safety of its patrons. A pedestrian tunnel will connect the garage to Tremont street. Under the terms of the legislative act the Common and the Public Gardens will be restored to their present beauty, and no monuments will be affected in any way. Further, it is contemplated that the surface of the Boston Common will be more attractive than at the present time when the garage is completed.

All other details concerning the garage will be announced when the agreement between the R. F. C. and Motor Parks, Inc., has been signed, which it is expected will be accomplished within a short time.

MAYOR SEEKS FUNDS FOR CIVIL DEFENSE.

(Continued from page 745.)

major importance which should be protected in the event of attack. Consideration should also be given to the establishment of auxiliary protective facilities which could be called upon in event of an emergency, in order to supplement and augment the services of our regular protective agencies.

It is impossible, of course, to determine exactly at this time the extent of the program which will need to be developed. In order to make a start, however, I feel that funds should be provided to permit definite action in establishing a civil defense organization. I therefore submit herewith an order providing for the transfer from the Reserve Fund of the sum of \$20,000 to be used for this purpose. Because of existing conditions, I recommend its immediate consideration and adoption.

Respectfully,

JOHN B. HYNES, *Mayor.*

MAYOR HYNES HONORED BY KENTUCKY OFFICIALS WITH GREETINGS AND KEY TO CITY OF LOUISVILLE.

A unique conference took place on Friday morning, July 14, in the office of Mayor John B. Hynes at City Hall, when Col. George Mascott, executive vice president of the Kentucky Chamber of Commerce, Louisville, presented the Mayor with greetings from Governor Earle Clements of Kentucky and the Honorable Charles Farnsley, Mayor of Louisville.

Mascott, as a special emissary of the Governor of Kentucky, presented the Mayor with a key to "My Old Kentucky Home" and asked that he urge all Kentuckians now living in Massachusetts and the Boston area—of which there are approximately 5,000—to come home to Kentucky during the 1950 mid-century "My Old Kentucky Homecoming" celebration. This year-long activity in the Blue Grass State is jointly sponsored by the Kentucky Chamber of Commerce and the Commonwealth of Kentucky, in an effort to bring back for a visit as many as possible of the approximately 1,000,000 Kentuckians and their descendants now living elsewhere.

Mascott also presented Mayor Hynes with a key to the City of Louisville and a greeting from Mayor Farnsley of that city, which contained an invitation to Mayor Hynes and the people of Boston to visit the Blue Grass State.

* Contract awarded.

WITHOUT ADVERTISING.

Upon varying dates as indicated the Mayor approved contracts with commercial houses, contractors, etc., for furnishing labor, materials and supplies. Communications from heads of departments interested were as follows:

HOSPITAL DEPARTMENT.

BOSTON, July 10, 1950.

HON. JOHN B. HYNES,
Mayor of Boston.

DEAR MR. MAYOR:

Your permission is respectfully requested to dispense with advertising, and to award a contract to Viking Automatic Sprinkler Company, Inc., 51 Sleeper street, Boston, for furnishing all labor and materials necessary for flushing the complete installation at Boston City Hospital, at an estimated cost of \$2,500.

Because of the emergency nature of this work, the trustees recommend the award of the contract to Viking Automatic Sprinkler Company, Inc., in the sum of \$2,500.

Respectfully yours,

MARTIN J. ENGLISH, M.D.,
President, Board of Trustees.

PARK DEPARTMENT.

BOSTON, June 30, 1950.

HON. JOHN B. HYNES,
Mayor of Boston.

DEAR SIR:

Under date of May 2, 1950, service order No. 30, in the Cemetery Division, was issued to Eastern Tree and Landscape Corporation, Bridge street, Dedham, for spraying trees and shrubs in Mount Hope, Fairview, and Evergreen Cemeteries with a 6 per cent D.D.T. oil solution, from a fixed wing airplane, for a sum not to exceed \$520.

On May 4, service order No. 251, in the Park Division, was issued to the same company for spraying all trees on the George Wright Golf Course and in the Franklin Park area with 6 per cent D.D.T. oil solution, from a fixed wing airplane, for a sum not to exceed \$989. These orders were charged to separate budgets, one to the Cemetery Division and the other to the Park Division.

The City Auditor is of the opinion that both these jobs should have been advertised. But as they were charged to two separate budgets, we felt we were within our rights in issuing the two orders. Further, this is the only concern we know of that is equipped to do airplane spraying, which can be done much

faster and more economically than by hand labor, and as there was nothing to be gained by advertising and as stated herein we thought we were within our rights, we issued two separate service orders.

We therefore ask for your approval of our action in this matter. The two orders total \$1,509, one charged to the appropriation 2-42, in the Cemetery Division budget, and the other to 2-42, in the Park Division budget.

Respectfully yours,

FRANK R. KELLEY, *Chairman.*

SUPPLY DEPARTMENT.

BOSTON, July 7, 1950.

HON. JOHN B. HYNES,
Mayor of Boston.

DEAR MR. MAYOR:

On June 27, 1950, your Honor approved a letter of award for furnishing surgical supplies to the various city departments until December 31, 1950.

Item 117 which was awarded to Metropolitan Supply Company was figured incorrectly. It is therefore requested that the amount of the award be changed to read \$4,901.32, the correct total, instead of \$1,743.22, the amount in the letter of June 8, 1950.

Respectfully yours,

JOHN V. MORAN,
Superintendent of Supplies.

BOSTON, July 17, 1950.

HON. JOHN B. HYNES,
Mayor of Boston.

DEAR MR. MAYOR:

This department is in receipt of three requisitions from the Traffic Commission for traffic signal equipment manufactured by Eagle Signal Corporation.

Inasmuch as R. W. LeBaron Company is the only local agent for Eagle Signal Corporation, no advantage will be gained by publicly advertising for bids. It is therefore requested that I be granted authority to award a contract, without public advertisement, to R. W. LeBaron Company for the equipment requested.

Total amount of contract will be \$2,390.

Respectfully yours,

JOHN V. MORAN,
Superintendent of Supplies.

BOSTON, July 12, 1950.

HON. JOHN B. HYNES,
Mayor of Boston.

DEAR MR. MAYOR:

During the period from May 8, 1950, to June 29, 1950, as a result of competitive telephone and written quotations, this department issued orders to the Harper X-Ray Company for X-ray materials for the Health Department, Boston Sanatorium, Long Island Hospital, and Boston City Hospital.

The accrued total during this period is approximately \$7,700. These materials were not anticipated by the using departments in advance of the dates needed.

It is necessary that a contract be issued to the Harper X-ray Company before the City Auditor will pay bills for these materials. They have been delivered and used, and inasmuch as no single order or delivery warranted a contract at the time of purchase it is requested that permission be granted to dispense with publicly advertising and

to award a contract to the Harper X-Ray Company for approximately \$7,700.

Respectfully yours,

JOHN V. MORAN,
Superintendent of Supplies.

PRINTING DEPARTMENT.

BOSTON, July 14, 1950.

HON. JOHN B. HYNES,
Mayor of Boston.

DEAR MR. MAYOR:

Your Honor's permission is respectfully requested to permit the Printing Department to award a contract, without advertising, to the International Business Machines Corporation, 575 Boylston street, Boston, Mass.

This request is made in order that we may furnish the Welfare Department with tabulating cards for use on tabulating machines in the sum of \$1,903.50.

50,000 Account 2 checks, form 544323 front and 130775 back, prepunched and prenumbered serially in columns 71 to 76 from 450,001 to 500,000, Series C, gang-punched 2 in column 77, upper right corner cut, background A, tint, violet, \$3.12 per M, \$156.

50,000 Account 3 checks, form 544324 front and 130775 back, prepunched and prenumbered serially in columns 71 to 76 from 450,001 to 500,000, Series C, gang-punched 3 in column 77, upper right corner cut, background A, tint, gray, \$3.12 per M, \$156.

50,000 Account 4 checks, form 139726 front and 130775 back, prepunched and prenumbered serially in columns 71 to 76 from 600,001 to 650,000, Series B, gang-punched 4 in column 77, upper right corner cut, no background, no tint, \$2.72 per M, \$136.

50,000 Manila Cards No. 529237, P-Green, stripe across top, lower right corner cut, \$1.13 per M, \$56.50.

50,000 Manila Cards No. 507536, lower right corner cut, \$1.12 per M, \$56.

50,000 B-Red Cards No. 507536, lower right corner cut, \$1.17 per M, \$58.50.

50,000 E-Green Cards No. 507536, lower right corner cut, \$1.17 per M, \$58.50.

50,000 G-Yellow Cards No. 507536, lower right corner cut, \$1.17 per M, \$58.50.

50,000 Manila Cards No. 766761, P-Green, stripe across top, lower right corner cut, \$1.13 per M, \$56.50.

100,000 Account 5 checks, form 139728 front and 130775 back, prepunched and prenumbered serially in columns 71 to 76 from 500,001 to 600,000, Series D, gang-punched 5 in column 77, upper right corner cut, background L, tint, blue, \$3.09 per M, \$309.

100,000 Account 6 checks, form 139727 front and 130775 back, prepunched and prenumbered serially in columns 71 to 76 from 400,001 to 500,000, Series D, gang-punched 6 in column 77, upper right corner cut, background L, tint, red, \$3.09 per M, \$309.

100,000 Manila Cards No. 529237, lower right corner cut, \$1.09 per M, \$109.

100,000 D-Blue Cards No. 5081, lower right corner cut, \$1.14 per M, \$114.

100,000 F-Brown Cards No. 5081, lower right corner cut, \$1.14 per M, \$114.

These materials are to be used on International Business Machines at the Welfare Department, and as this company makes cards especially designed for use on these machines, in my opinion no advantage could be gained by advertising for bids.

Respectfully submitted,

JOHN J. TWOMEY,
Superintendent of Printing.

EXTENSION OF CONTRACTS.

HOSPITAL DEPARTMENT.

Approval has been given for an extension of time from May 1, 1950, to September 15, 1950, on contract of Rich Brothers Construction Company for explosion proofing and acoustical work in the Dowling Building, Boston City Hospital. This extension was requested due to the fact that certain items that were originally deleted from the contract are now being restored in order to complete the entire work on the explosion-proofing and air-conditioning system.

PUBLIC WORKS DEPARTMENT.

Approval has been given for the extension of the time of completion of the contract with the General Ship and Engine Works, Inc., 336 Border street, East Boston, for miscellaneous repairs to ferryboat "Daniel A. MacCormack." This extension was requested for the reason that the contractor was delayed by having to remove the steam pipes as ordered by the Steamboat Inspectors.

Approval has been given for the extension of the time of completion of the contract with McCulloch Manufacturing Company for furnishing labor to assemble gate valves and post hydrants, from July 1, 1950, to August 1, 1950. This extension was requested for the reason that more time is needed for the assembling of the valves and hydrants.

ADDITION TO CONTRACT.

FIRE DEPARTMENT.

Approval has been given for the following addition to the contract of J. A. Singarella Company for the erection of a new fire station, Engine 56, East Boston:

Addition No. 2.

Furnish labor and material for installation of a Powers regulator valve on the hot water tank, \$287.32.

Original contract, \$126,790; Addition No. 1, dated April 24, 1950, \$327.80; total contract with Additions Nos. 1 and 2, \$127,405.12.

TRANSFERS OF APPROPRIATIONS.

The Mayor has approved the following requests for transfers of appropriations:

ELECTION DEPARTMENT.

From A-2, Temporary Employees, \$1,000, to E-10, Electrical, \$1,000.

PUBLIC WORKS DEPARTMENT.

Water Division.

From C-13, Tools and Instruments, \$30,000, to E-5, Water Materials, \$30,000.

SUFFOLK COUNTY.

MUNICIPAL COURT, WEST ROXBURY DISTRICT.

From 2-4, Transportation of Persons, \$120, to 3-16, Wearing Apparel, \$120.

AMENDED DAMAGES.

The Mayor has approved the following votes of the Board of Street Commissioners:

Voted, That the order of the Street Commissioners and Mayor of October 17, 1947, as amended, determining damages caused by the making of the public improvement consisting of the laying out of Woodley avenue (formerly Washington Heights Avenue East), be, and the same hereby is, amended, by adding to said order the amount \$110, as an award to Guido Motta and Maria Motta, husband and wife, as tenants by the entirety; that the amount \$110 be, and the same hereby is, awarded to Guido Motta and Maria Motta, husband and wife, as tenants by the entirety, for the damages so sustained.

Voted, That the order of the Street Commissioners and Mayor of September 20, 1948, as amended, determining damages caused by the making of the public improvement consisting of the laying out of Colchester street, be, and the same hereby is, amended, by adding to said order the amount \$100, as an award to John J. King and Margaret V. King, husband and wife, as tenants by the entirety; that the amount \$100 be, and the same hereby is, awarded to John J. King and Margaret V. King, husband and wife, as tenants by the entirety, for the damages so sustained.

Voted, That the order of the Street Commissioners and Mayor of November 24, 1947, as amended, determining damages caused by the making of the public improvement consisting of the laying out of Shanley street (formerly Perle street), be, and the same hereby is, amended, by adding to said order the amount \$78.50, as an award to Catherine L. Wennberg; that the amount \$78.50 be, and the same hereby is, awarded to Catherine L. Wennberg for the damages so sustained.

The Acting Superintendent of Police will promulgate this order.

THOMAS F. SULLIVAN,
Police Commissioner.

General Order No. 1,346.

Patrolmen John P. Shepard, Jr., and Stephen L. Baczek of Division 10 are commended for meritorious police service performed on July 3, 1950, and each is granted two days' extra vacation.

While these officers were patrolling in a radio car, they received a message that there was a holdup in a liquor store. They immediately proceeded to the scene and learned that a woman had been held up and robbed by a man with a revolver who had afterwards been seen to enter a tavern. The officers covered both doors of the establishment and upon entering observed a man answering the description. When they approached him he immediately attempted to draw a weapon, whereupon he was seized and placed under arrest.

This man was later identified by the victim as the holdup man and the one who had previously held up and robbed the same store.

The commissioner is pleased to commend these officers for their prompt and courageous action in tracing and apprehending this criminal.

The Acting Superintendent of Police will promulgate this order.

THOMAS F. SULLIVAN,
Police Commissioner.

LAND-TAKING IN DORCHESTER.

The Mayor has approved the order of the Board of Street Commissioners for the taking of land for a public improvement, consisting of the laying out and construction of Beaufield street, Dorchester district, as a highway, from Granite avenue 274 feet westerly and southerly, bounded and described as follows:

A highway named Beaufield street is hereby laid out, from Granite avenue 274 feet westerly and southerly, and ordered constructed.

Said highway and the land, exclusive of trees or structures standing upon or affixed thereto, in which an easement for street purposes is hereby taken, is bounded and described as follows:

Easterly by Granite avenue, 35 feet; northerly by the northerly line of said Beaufield street as hereby laid out, 179.45 feet; westerly by the westerly line of said Beaufield street as hereby laid out by two measurements, 17.36 feet on a curve of 12 feet radius and 107.57 feet;

southerly by the southerly line of said street as hereby laid out, 35.24 feet; easterly by the easterly line of said street as hereby laid out by two measurements, 74.31 feet and 14.46 feet on a curve of 10 feet radius; and southerly by the southerly line of said street as hereby laid out, 150.34 feet.

Trees or structures standing upon or affixed to the aforesaid land shall be removed therefrom within sixty days following a notice of the city's intention to enter upon said land for the purpose of constructing said improvement.

Betterments are to be assessed for the making of aforesaid improvement.

Ordered, That this Board estimates that the abutting lots of land situated on all sides of said Beaufield street as laid out under this order, will receive benefit or advantage, beyond the general advantage to all real estate in said city, from the improvement herein ordered, each of said lots in the amount hereinafter respectively set against it, said lots and the supposed owners thereof being shown on a plan hereinbefore referred to, and on file in the office of this department.

Coun. BEADES in the Chair.

LAND ON CANAL STREET.

The following was received:

City of Boston,
Office of the Mayor, July 10, 1950.

To the City Council.
Gentlemen:

This is written to withdraw the order submitted by me to your Honorable Body on March 20, 1950, for the sale of the estate at 53-85 Canal street, Boston. While that order, when submitted, was in conformity with then existing statutes, it does not conform with chapter 318 of the Acts of 1950, which was approved by His Excellency the Governor on April 10, 1950, and is now in effect.

Respectfully,

J. B. HYNES, Mayor.

NATIONAL FEDERAL WORKS PROJECTS IN BOSTON AND NEW ENGLAND.

The following was received:

City of Boston,
Office of the Mayor, July 10, 1950.

To the City Council.
Gentlemen:

I transmit herewith a further communication from United States Senator Henry Cabot Lodge, Jr., together with a communication from the Assistant to the President, John R. Steelman, relative to your order of June 5, 1950, concerning the advisability of studying several National Federal Works Projects in Boston and New England for the purpose of easing the present unemployment situation that at present prevails.

Respectfully,

J. B. HYNES, Mayor.

United States Senate,
Committee on Foreign Relations,
July 5, 1950.

Mr. Thomas G. J. Shannon,
Chief Clerk, Mayor's Office.

Dear Mr. Shannon:

Referring again to your letter of June 12, I enclose a response which I have received from the Assistant to the President which refers

to the legislation which I sponsored and which is now law for a full survey of New England rivers with regard to power and other potentialities.

With kind regards,

Very sincerely yours,

HENRY CABOT LODGE, JR.,
United States Senator.

The White House,

Washington, June 29, 1950.

The Assistant to the President.

Dear Senator:

Thank you for your letter of June 15, 1950, transmitting the resolution of the Boston City Council.

The Federal Government is not now contemplating any national Federal works projects for the relief of unemployment. As you know, economic activity nationally at present is at a very high level.

However, the Council of Economic Advisers has asked a panel of experts for their views on the development of the New England economy. In addition, in accordance with the provisions of section 205, Public Law 516, 81st Congress, an interagency group has been established to study power and water development in the New England and New York area. Finally, all possible assistance to spot areas of high unemployment will be continued. I am confident that as a result of these combined efforts means will be found of meeting the problems to which the Boston City Council has addressed itself.

Sincerely,

JOHN R. STEELMAN.

Boston Housing Authority,

June 29, 1950.

Hon. John B. Hynes,
Mayor of Boston.

Subject: City Council Order of May 8, 1950,
Concerning the Baker Street Development.

Dear Mayor Hynes:

Under date of May 8, 1950, the City Council inquired through you concerning certain aspects of the work at the Baker Street development in West Roxbury.

The Authority asked the contractor for a statement concerning the order. For your information and that of the City Council there is sent you herewith a copy of this statement.

Very truly yours,

CORNELIUS T. KILEY, Chairman.

Allied Engineering Corporation,
71 Proctor Street, Roxbury, Mass.

May 22, 1950.

Boston Housing Authority, 230 Congress Street, Boston, Mass.

Attention: Mr. Cornelius T. Kiley, Chairman.
Subject: City Council Order of May 8, 1950,
re Baker Street Housing Project.

Gentlemen:

In reply to your request of the order of the Boston City Council asking that grades be checked in the Baker Street Housing Project, West Roxbury, Mass., the following are the facts:

The Allied Engineering Corporation used grades given them by the Boston Housing Authority and as set forth on the drawings of John M. Gray Company, John M. Gray Company drawing of July 27, 1947, and signed by John M. Gray, Jr., drawing No. B-1. Mr. Gray's concern received the grades as set forth by the Street Department of the City of Boston for the streets to be built in that area and planned the setting of his houses accordingly, as is the only proper thing to do in any locality.

It is unfortunate for the people who bought or built houses in that area previous to the construction of the streets or the erection of the new Boston Housing Authority homes, that the builder of the older homes did not have the foresight or care enough to ascertain from City Hall the grades of the streets that would be eventually constructed there.

This is an old, old discussion between Councilor Bryan of this district and our company. We have discussed it with him on many occasions and also with the residents whose properties are involved, but let us state again emphatically that we constructed these houses and placed the fill and loam as set forth in the contract and specifications given us by the Boston Housing Authority.

Most of these older home owners drain their land into the center of this previously vacant area and it is common knowledge that this was a small swampy area, in fact many of the children of this area formerly used it in the wintertime for skating. There is only one solution as seen by our engineers and that is that somebody bring in enough fill and loam to bring these older houses up to the proper grade. It will cost a sizable sum of money, to be borne either by the individual home owners or the City of Boston. We know of no way that this money can be forthcoming for somebody's negligence or mistakes of years gone by. It is obvious that some of these owners know that their land is not near grade as they have as much as 8 or 9 feet of foundation showing above the land.

The Boston Housing Authority, after Mr. Bryan and the neighbors out there made a great number of extensive complaints, called in the Stewart Associates in order to try and help some of these people. The Stewart Associates made an examination and drew some plans, dated 6-28-48, which the Boston Housing Authority approved and a gutter was installed between Paragon Street and George Street and tied in to an existing storm drain running through the land.

When you consider that the engineers of the Street Department of the City of Boston, the architects and engineers of the John M. Gray Company, the engineers of the Stewart Associates, the engineers and inspectors of the Boston Housing Authority, and the engineers and architects of the Allied Engineering Corporation all agree on what is wrong and all the records of these organizations are ready and available to prove the contentions that are set forth in this letter, it seems that somebody does not want to understand the actual trouble.

The remedy is simple but costly. We are sorry that we cannot be charitable enough to do the work for nothing, but we have already spent several thousand dollars out of our own pockets beyond the contract price to help some of these unfortunate people. If the Boston Housing Authority, Councilor Bryan, or the City of Boston want this company to draw plans and give an estimate on how much it will cost to correct the situation that now exists, we will be glad to do so for a nominal and reasonable fee.

Very truly yours,

ALLIED ENGINEERING CORPORATION,

RICHARD J. SINNOTT,

Secretary of the Corporation.

Gentlemen:

I transmit herewith communication from the Chairman of the Board of Street Commissioners relative to your order of June 26, 1950, concerning the accepting and laying out of Sewall street, in Ward 16, as a public way.

Respectfully,
J. B. HYNES, Mayor.

City of Boston,

June 30, 1950.

Thomas G. J. Shannon,
Chief Clerk, Mayor's Office.

Dear Sir:

Reference is made to the following Council order dated June 26, 1950:

"Ordered, That the Board of Street Commissioners be requested, through his Honor the Mayor, to accept and lay out Sewall street, in Ward 16, as a public way, which request was originally made on October 31, 1949."

The Boston Housing Authority has under consideration as a housing project site an area of land situated on the southerly side of said Sewall street.

Experience has proven that the laying out and construction of streets adjacent to any newly developed area should follow such development rather than precede it.

Therefore, this Board has deferred consideration of Sewall street until the Housing Authority's final plans are known.

GERALD F. SCALLY, Chairman.

Hon. John B. Hynes,
Mayor of Boston.

Re: Council Order Dated June 19, 1950, Requesting that Menlo Street Be Made One Way, from Sparhawk Street to Henshaw Street.

Dear Sir:

Our engineers report that if Menlo street was made one way, from Sparhawk street to Henshaw street, a driver heading for Menlo street, from Cambridge street by way of Henshaw street, would be forced back through Wirt street to Cambridge street to Sparhawk street in order to finally get into Menlo street. This is because Henshaw street is one way, from Market street to Wirt street.

If the order called for the making of Menlo street one way, from Henshaw street to Sparhawk street, we believe that such a regulation would be effective because it would fit in a one-way pattern that might be set up running between Sparhawk and Henshaw streets.

Respectfully submitted,
WM. ARTHUR REILLY, Commissioner.

BAKER STREET BRIDGE.

The following was received:

Gentlemen:

Transmitted this day from the Corporation Counsel relative to your order of June 19, 1950, concerning the railroad bridge on Baker street, West Roxbury. I agree fully with your Honorable Body that the widening of Baker street at the site of the railroad bridge is a much needed highway improvement. I have therefore instructed the Corporation Counsel, the Board of Street Commissioners, and all other officials involved to make every effort to expedite this project.

Respectfully,
J. B. HYNES, Mayor.

City of Boston,
Law Department, July 6, 1950.
Hon. John B. Hynes,
Mayor of Boston.

Dear Sir:

On June 21, 1950, your Honor transmitted to me the following order passed by the City Council two days earlier:

"Whereas, In the opinion of this Council, public convenience requires the widening of Baker street, a public way, in West Roxbury, in the vicinity of the Baker Street Railroad Bridge, carrying the Dedham Branch of the Boston & Providence Railroad across said Baker street, it is necessary that said bridge be altered and structural changes and repairs made thereto; now, therefore, it is hereby

"Ordered, That the Corporation Counsel of the City of Boston be instructed, through his Honor the Mayor, to apply to the Department of Public Utilities of the Commonwealth of Massachusetts for said department to take action in regard to such alterations, structural changes and repairs in said Baker Street Bridge, under the provisions of chapter one hundred and fifty-nine and chapter one hundred and sixty of the General Laws, as most recently amended, and under any other appropriate statutory provisions."

The Law Department has been in consultation with the Board of Street Commissioners for some months with respect to the bridge mentioned in the above-quoted order. Before Baker street can be widened, however, at the location of said bridge, land must be taken by eminent domain from the Boston & Providence Railroad Corporation. The taking is, at the present time, complicated by reason of the fact that the Boston & Providence Railroad Corporation is in receivership and its property subject to the jurisdiction of the Federal Court. As soon as these legal entanglements have been straightened out and the necessary plans prepared, all needful documents and petitions will be executed and filed.

Yours very truly,

WILLIAM L. BAXTER,
Corporation Counsel.

EXTENSION OF FEDERAL RENT CONTROL.

The following was received:

City of Boston,
Office of the Mayor, July 7, 1950.
To the City Council.
Gentlemen:

The Federal Housing and Rent Act of 1947, as most recently amended by the Federal Housing and Rent Act of 1950, provides that the provisions of Title II thereof relating to maximum rents will cease to be effective at the close of December 31, 1950, with certain exceptions. So far as the City of Boston is concerned, the pertinent exception is that the provisions of said Title II shall continue in effect to the close of June 30, 1951, "in any incorporated city, town, or village which, at a time when maximum rents under this title are in effect therein, and prior to December 31, 1950, declares (by resolution of its governing body adopted for that purpose, or by popular referendum, in accordance with local law) that a shortage of rental housing accommodations exists which requires the continuance of rent control in such city, town, or village."

Transmitted herewith is the draft of an order making such a declaration. In view of the acute housing shortage still existing in this city, I recommend its immediate adoption by your Honorable Body.

Respectfully,

J. B. HYNES, Mayor.

Whereas, The Federal Housing and Rent Act of 1947, as most recently amended by the Federal Housing and Rent Act of 1950, provides, in part, that the provisions of Title II thereof concerning maximum rents, except section 204 (a), shall cease to be in effect at the close of December 31, 1950, except that they shall cease to be in effect at the close of June 30, 1951, "in any incorporated city, town, or village which, at a time when maximum rents under this title are in effect therein, and prior to December 31, 1950, declares (by resolution of its governing body adopted for that purpose, or by popular referendum, in accordance with local law) that a shortage of rental housing accommodations exists which requires the continuance of rent control in such city, town, or village"; and

Whereas, Maximum rents under said Title II are now in effect in the City of Boston, Massachusetts; now, therefore, it is hereby

Ordered, That, for the purpose of continuing in effect in said City of Boston to the close of June 30, 1951, the provisions of Title II of

the Federal Housing and Rent Act of 1947, as amended, it be, and hereby is, declared that a shortage of rental housing accommodations exists which requires the continuance of rent control in said City of Boston; and

Ordered, That the City Clerk of the City of Boston be, and he hereby is, authorized and directed to notify the Housing Expediter in writing of this order forthwith after it has been approved by his Honor the Mayor.

APPROPRIATION FROM GEORGE F. PARKMAN FUND.

The following was received:

City of Boston,
Office of the Mayor, July 10, 1950.
To the City Council.
Gentlemen:

I am in receipt of the attached communication from the Board of Park Commissioners requesting the appropriation of \$31,000 from the income of the George F. Parkman Fund, to be expended under the direction of the Board of Park Commissioners, for the Maintenance and Improvement of the Common and Parks in Existence on January 12, 1887.

The 1950 budget estimates of the personal service requirements of the Park Department included an estimate of the total income of \$180,000 from the Parkman Fund. The budget allowances made provision for the appropriation of this income as it accrued for the purpose of defraying the cost of work actually performed on the Common and Parks in Existence on January 12, 1887.

I submit herewith an order appropriating the sum of \$31,000, the accrued income now available from the Parkman Fund, and respectfully recommend its immediate passage by your Honorable Body.

Respectfully,

J. B. HYNES, Mayor.

City of Boston,
Park Department, July 6, 1950.
Hon. John B. Hynes,
Mayor of Boston.

Dear Sir:

By vote of the Board of Park Commissioners, you are respectfully asked to request the City Council to transfer from the income of the George F. Parkman Fund the sum of \$31,000 which is now available, to be expended under the direction of the Board of Park Commissioners as follows:

Common and Parks in Existence on	
January 12, 1887, Maintenance and	
Improvement of.....	\$31,000

When making up the budget estimates for the year 1950, a sum equal to the total yearly income of the George F. Parkman Fund was deducted from Item A-1, Permanent Employees, with the understanding that this deduction was to be replaced by the total yearly income of said Parkman Fund for 1950, to be transferred as it accrued from time to time during the year to the regular maintenance appropriation of the Park Department.

Respectfully yours,
FRANK R. KELLEY, Chairman.

Ordered, That the sum of thirty-one thousand dollars (\$31,000) be, and hereby is, appropriated from the income of the George F. Parkman Fund, to be expended under the direction of the Park Commissioners, for the Maintenance and Improvement of the Common and Parks in Existence on January 12, 1887, as follows:

Common and Parks in Existence on	
January 12, 1887, Maintenance and	
Improvement of.....	\$31,000

SALE OF LAND TO W. F. SCHAFFT & SONS AND EASEMENT IN LAND TO BOSTON EDISON COMPANY.

The following was received:

City of Boston,
Office of the Mayor, July 10, 1950.
To the City Council.
Gentlemen:

Under a consent granted December 30, 1949, by the then Mayor, the State Department of Public Works is building in behalf of the City of Boston a \$6,000,000 highway project at Sullivan square, Charlestown, under General Laws (Ter. Ed.) c. 81, s. 29A, as in-

serted by St. 1943, c. 416. The construction of this project will interfere substantially with the use of an easement acquired in 1942 by the Boston Edison Company to construct and maintain an underground tunnel through a part of the John J. Ryan, Jr., Playground. The project also involves the taking in fee of 19,397 square feet from the estate of W. F. Schrafft & Sons Corporation as well as changing the grade of the street in front of its plant with the result that there is inadequate space on its remaining estate for a suitable driveway from its building to the new street level.

To mitigate the damages for which the Commonwealth would otherwise be liable to Schrafft and Edison, the State Department of Public Works has asked the city to co-operate by conveying to Schrafft a small portion of the John J. Ryan, Jr., Playground no longer required for public purposes and by granting to Edison in another part of that playground an easement for an underground tunnel which will in no way hamper the use of the surface for playground purposes. Transmitted herewith are two orders—one authorizing the conveyance in fee simple to Schrafft of 9,505 square feet, and the other authorizing the grant of an easement to Edison in two parcels aggregating 39,216 square feet. Also enclosed are communications from the Board of Park Commissioners notifying your Honorable Body of that Board's determination that the lands involved, to the extent of the estates stated, are no longer required for public purposes.

Much consideration has been given to the price to be paid. Since under the statute under which the project is being built title to the project vests in the city, the State Department of Public Works has felt that the consideration should be nominal only. Obviously the situation is one where the city ought not to endeavor to reap a profit; but, since it is the Commonwealth, and not the city, which is liable for the damages, there is a serious legal question whether a mere nominal consideration would not technically result in a gift of public property to private corporations. The John J. Ryan, Jr., Playground is valued by the assessors at approximately 60 cents a square foot. Easements for subsurface facilities are commonly appraised at one quarter of the value of the land. Thus it would seem that a fair value for the 39,216-square foot easement to be granted to Edison would be 15 cents a square foot or \$6,000. The land to be subjected to the easement, like the playground itself, includes an area of flats which is reflected in the over-all valuation. No flats are involved in the parcel proposed to be conveyed to Schrafft's. In 1928, to straighten out a boundary line, the city deeded to Schrafft's at 70 cents a square foot 2,367 square feet of land very close to the 9,505 square feet now proposed to be conveyed. There is no evidence that land in the neighborhood involved is worth materially more today than in 1928. Hence, it would appear that a reasonable price for the 9,505 square feet now proposed to be conveyed to Schrafft's would be 70 cents a square foot or \$6,653.50.

At a recent conference, the State Department of Public Works has made it plain to me that unless the city acts speedily, either the highway project, which already is well under way, will have to be interrupted, or there will be a disruption of Edison's electric service and Schrafft's plant operations. Accordingly, I recommend the immediate adoption by your Honorable Body of the two orders transmitted herewith.

Respectfully,

J. B. HYNES, Mayor.

City of Boston,
Park Department, July 6, 1950.
To the Honorable the City Council.
Gentlemen:

As authorized and directed by vote of the Board of Park Commissioners, a certified copy of which vote is annexed hereto and made a part hereof, I hereby notify you on behalf of said Board that in the opinion of the said Board the two parcels of land described in said vote, to the extent of the rights and easements described in said vote, are no longer required for public purposes and that said Board recommends the grant of said rights and easements in said two parcels of land to the Boston Edison Company for \$6,000.

Respectfully yours,

FRANK R. KELLEY, Chairman.

At a regular meeting of the Board of Park Commissioners, all members being present, held at the Park Department office, 33 Beacon street, Boston, Mass., on Wednesday, July 5, 1950, the following vote was unanimously adopted:

Voted, That it be, and hereby is, determined to be the opinion of this Board that the two parcels of land hereinafter described, to the extent of a right and easement therein to construct, reconstruct, add to, repair, renew, maintain and operate, in the subsurface soil, an underground tunnel, duct lines, manholes, pipe lines, and underground materials, appliances and apparatus and of a right and easement to enter upon said parcels of land for the purpose of enjoying the aforesaid right and easement, are no longer required for public purposes, to wit, the two portions of the John J. Ryan, Jr., Playground shown on plan entitled "City of Boston, Alford Street, Charlestown, June 30, 1950, James W. Haley, Chief Engineer, Street Laying-Out Department," and bounded and described as follows:

City of Boston,
Park Department, July 6, 1950.

To the Honorable the City Council.
Gentlemen:

As authorized and directed by vote of the Board of Park Commissioners, a certified copy of which vote is annexed hereto and made a part thereof, I hereby notify you on behalf of said Board that in the opinion of the said Board the land described in said vote is no longer required for public purposes, and that said Board recommends the sale of said land to W. F. Schrafft & Sons Corporation for \$6,653.50.

Respectfully yours,
FRANK R. KELLEY, Chairman.

At a regular meeting of the Board of Park Commissioners, all members being present, held at the Park Department office, 33 Beacon street, Boston, Mass., on Wednesday, July 5, 1950, the following vote was unanimously adopted:

Voted, That it be, and hereby is, determined to be the opinion of this Board that the land hereinafter described is no longer required for public purposes, to wit, that portion of the John J. Ryan, Jr., Playground shown on plan entitled "City of Boston, Alford Street, Main Street, Charlestown, June 30, 1950, James W. Haley, Chief Engineer, Street Laying-Out Department," and bounded and described as follows:

Westerly by the easterly location line of section 3 of the highway layout made by the State Department of Public Works in behalf of the City of Boston on January 3, 1950, and recorded with Suffolk Deeds, Book 6574, page 411, by two measurements, twenty-two and 32-100 (22.32) feet and thirteen and 77-100 (13.77) feet; northwesterly by land of the City of Boston (John J. Schrafft & Sons Corporation, three hundred ninety-two and 00-100 (392.00) feet, containing ninety-five hundred and five (9,505) square feet, more or less; and further

Voted, That the Chairman be, and he hereby is, authorized and directed to notify the City Council on behalf of the Board that in the opinion of the Board said land is no longer required for public purposes and that the Board recommends the sale of said land to W. F. Schrafft & Sons Corporation for \$6,653.50.

True Copy Attest:

ARTHUR J. O'KEEFE, Secretary.

Whereas, The Board of Park Commissioners, which is in charge of the two parcels of land hereinafter described, which were taken by eminent domain under an order of the Board of Park Commissioners dated May 8, 1891, and recorded with Suffolk Deeds, Book 1999, page 633, has notified the City Council that in the opinion of said Board said two parcels of land, to the extent of a right and easement therein to construct, reconstruct, add to, repair, renew, maintain and operate, in the subsurface soil, an underground tunnel, duct lines, manholes, pipe lines, and underground materials, appliances and apparatus and of a right and easement to enter upon said parcels of land for the purpose of enjoying the aforesaid right and easement, are no longer required for public purposes; now therefore, it is hereby

Ordered, That his Honor the Mayor be, and he hereby is, authorized in the name and behalf of the City of Boston to grant to the Boston Edison Company, by a deed in form satisfactory to the Corporation Counsel, at a minimum price of six thousand (6,000) dollars, a right and easement in the two parcels of land hereinafter described to construct, reconstruct, add to, repair, renew, maintain and operate, in the subsurface soil, an underground tunnel, duct lines, manholes, pipe lines, and underground materials, appliances and apparatus and of a right and easement to enter upon said parcels of land for the purpose of enjoying the aforesaid right and easement. Said two parcels of land are the two parcels of land shown on plan entitled "City of Boston, Alford Street, Charlestown, June 30, 1950, James W. Haley, Chief Engineer, Street Laying-Out Department," and bounded and described as follows:

PUBLIC WORKS DEPARTMENT.

PROPOSALS FOR LAYING WATER MAINS IN SALMAN STREET, VOGEL STREET, STIMSON STREET, GOULD STREET, WEST ROXBURY.

The Commissioner of Public Works of the City of Boston, office 508 City Hall Annex, invites proposals from citizens of the United States and corporations or other legal associations wherein the controlling interest to the extent of at least over one half thereof is owned by a citizen or citizens of the United States, for laying water mains in Salman street, Vogel street, Stimson street, Gould street, West Roxbury. A bond will be required for doing the work of a surety company approved by the Commissioner in the sum of 100 per cent of the amount of the contract, to secure the due performance of the contract and the full protection of the city. Forms of proposals may be obtained at Room 508, City Hall Annex. Each proposal should be enclosed in an envelope, sealed, marked "Proposal for Laying Water Mains in Salman Street, Vogel Street, Stimson Street, Gould Street, West Roxbury," and left at Room 508, fifth floor, City Hall Annex, before 12 M. of WEDNESDAY, AUGUST 2, 1950, with a certified check for FIVE HUNDRED (500) DOLLARS, payable to and to become the property of the city if the proposal after acceptance is not carried out. The proposals will then be publicly opened and read in the hearing room of the Street Commissioners, Room 401, City Hall Annex.

Proposals must be made in duplicate, the sealed duplicate, without check, to be deposited by the bidder with the City Auditor previous to the time named for opening the bids. All proposals must be from bidders of record on file at Room 508, City Hall Annex. There will be a charge of two dollars (\$2) for each set of plans and specifications taken out. If the price of any item appears to the Commissioner to be abnormally high or low, or the bidder neglects to bid on each and every item, it may lead to the rejection of the proposal containing such price. The rate per hour of the wages to be paid to mechanics, teamsters, chauffeurs and laborers in the work to be performed under the contract shall not be less than the rate of wages in the schedule determined by the Commissioner of Labor and Industries of the Commonwealth, a copy of which schedule is annexed to the form of contract referred to herein. Copies of said schedule may be obtained, without cost, upon application therefor at the office of the Commissioner of Public Works. Before commencing performance of this contract, the Contractor shall provide by insurance for the payment of compensation and the furnishing of other benefits under chapter 152 of the General Laws (the Workmen's Compensation Law so called) to all persons to be employed under this contract and shall continue such insurance in full force and effect during the term of this contract. The undersigned reserves the right to reject any or all proposals or to award the contract as he deems best.

TO DEALERS OF CAFETERIA EQUIPMENT.

INVITATION FOR PROPOSALS FOR NEW CAFETERIA COUNTER IN THE BRIGHTON HIGH SCHOOL, WARREN STREET, BRIGHTON DISTRICT, BOSTON, MASS.

The Superintendent of Construction of the Department of School Buildings, Boston, Mass., hereinafter referred to as the Awarding Authority, invites sealed proposals for new cafeteria counter in the Brighton High School, Warren street, Brighton district, Boston, Mass.

Proposals will be received until 12 o'clock noon, Monday, July 31, 1950, at the office of the Awarding Authority, fourth floor, 26 Norman street, Boston, Mass., at which time and place they will be publicly opened and read aloud.

Proposals shall be submitted in duplicate on forms obtained from the Awarding Authority. Each copy of the proposal shall be properly filled out, signed and inclosed in a sealed envelope, plainly marked with the name of the bidder and the description of the work bid upon. One copy shall be filed at the office of the Awarding Authority, designated above, and the other copy shall be filed at the office of the City Auditor, City Hall, Boston, Mass. Both copies shall be filed before the time stated above for the opening of proposals.

A bid deposit in the form of cash or a certified check on, or a certificate of deposit issued by, a responsible bank or trust company, payable to the City of Boston, in the sum of \$200, shall be submitted with the copy of the proposal filed with the Awarding Authority. The bid deposit shall be in a separate envelope, properly marked. Bid bonds will not be accepted.

No bidder may withdraw his bid within thirty days after the actual date of the opening thereof.

The rate per hour of the wages to be paid to mechanics, teamsters, chauffeurs and laborers in the work to be performed shall not be less than the rate of wages determined for this work by the Commissioner of Labor and Industries of the Commonwealth of Massachusetts under the provisions of General Laws (Ter. Ed.), chapter 149, section 26, a schedule of which appears in the specifications.

The successful bidder will be required to provide by insurance for the payment of compensation and the furnishing of other benefits under the Workmen's Compensation Law, General Laws (Ter. Ed.), chapter 152, to all persons to be employed under the contract, and sufficient proof of compliance with the foregoing stipulation will be required before commencing performance of this contract.

Specifications may be obtained at the office of the Awarding Authority.

A performance bond, issued by a surety company satisfactory to the Awarding Authority, in the full amount of the contract will be required of the successful general contractor.

The Awarding Authority reserves the right to waive any informalities and to reject any and all bids.

OVERSEERS OF THE PUBLIC WELFARE.

PROPOSALS FOR THE INSTALLATION OF AN INSTANTANEOUS WATER HEATER AT THE WAYFARERS' LODGE AND CITY WOODYARD, 30 HAWKINS STREET, BOSTON.

The Overseers of the Public Welfare in the City of Boston, referred to as the Awarding Authority, invite proposals for the installation of an instantaneous water heater at the Wayfarers' Lodge and City Woodyard, 30 Hawkins street, Boston, Mass., according to the specifications which may be obtained at the office of the Board, first floor, 43 Hawkins street, Boston, Mass. Bidders must use the form of proposal to be obtained at this office. There will be a charge of twenty-five cents (\$0.25) for each blank proposal taken out. Bids, with a certified check in the sum of one hundred dollars (\$100), payable to and to become the property of the City of Boston, if the proposal is not carried out, must be left at the office of the Board, first floor, 43 Hawkins street, Boston, Mass., before noon, August 2, 1950, at which time and place they will be publicly opened and read. The certified check shall be in a separate envelope, properly marked. A duplicate proposal, without check, must be left with the City Auditor, prior to the time named for opening of the bids. The rate per hour of the wages to be paid to mechanics, teamsters, chauffeurs and laborers in the work to be performed shall not be less than the rate of wages determined for this work by the Commissioner of Labor and Industries of the Commonwealth of Massachusetts under the provisions of General Laws (Ter. Ed.), chapter 149, section 26. The successful bidder will be required to provide by insurance for the payment of compensation and the furnishing of other benefits under the Workmen's Compensation Law (Ter. Ed.), chapter 152, to all persons to be employed under the contract and sufficient proof of compliance with the foregoing will be required prior to the award of a contract. The successful contractor must furnish a bond for the full amount of the total estimated amount of the contract with a surety company authorized to do business in Massachusetts as surety for the faithful performance of the contract. The Awarding Authority reserves the right to accept or reject any or all bids. All contracts made subject to appropriations being available to meet the payments thereunder.

PROPOSED PURCHASE OF ADDITIONAL VOTING MACHINES HALTED BY MAYOR HYNES FOR A MORE PROPITIOUS TIME—NOT DEEMED URGENT AT THIS TIME.

Mayor Hynes on July 24 sent the following communication to Mr. Joseph Russo, Chairman of the Board of Election Commissioners:

The proposed purchase of voting machines, although desirable in many respects, can well be postponed to a more propitious time, and I so recommend.

In the light of present conditions, and in view of the rising costs of all necessary commodities purchased by the city, it would seem the part of wisdom to make no large purchases at this time, for any purpose not of pressing necessity.

The Department of School Buildings, under the direction of James H. Mooney, Superintendent of Construction, with the approval of Mayor John B. Hynes, has undertaken a number of improvements, major and minor, of the school buildings of the city in anticipation of the fall enrollment of students. This work is planned to be carried out and completed before the end of this year. All these alterations and improvements are undertaken with the purpose in view of making for safety.

In addition to the repairs and alterations new construction has been planned to provide an elementary Readville section of the Henry Grew District, an addition to the Michael J. Perkins Elementary School in the South Boston District and an addition to the Brighton High School.

An appropriation has been made for an elementary school in the Fairmount section of the Elihu Greenwood District, Hyde Park, but no work will be performed on this project during the present year.

Extensive egress alterations are to be made in the following schools:

Lewis, Charles C. Perkins, Rice, John Winthrop, Agassiz, Old Agassiz, Hyde Park High, Chapman, Jeremiah E. Burke, Dudley, G. Putnam, Everett, Louisa May Alcott, Sherwin, Dwight, Hyde, Simon Curran, M. Gertrude Godvin, Julia Ward Howe, Dorchester High (Boys), Charlestown High, Clarence R. Edwards, Oliver Holden, William H. Kent, William E. Channing, James J. Chittick, Elihu Greenwood, Prince, Martin Milmore, William McKinley, Joseph P. Manning, Mary E. Curley, Ellis Mendell, James P. Timilty, Nathan Hale, Oliver Wendell Holmes, Edward Everett, John G. Whittier, John Cheverus, Phillip H. Sheridan, Nathaniel Hawthorne, Daniel Webster, Samuel Adams, Dearborn, Albert Palmer, Asa Gray, Ralph Waldo Emerson, Samuel W. Mason, Hugh O'Brien, Girls, Trade, Farragut, Charles Bulfinch, Horace Mann, East Boston High, Hugh Roe O'Donnell, Dante Alighieri, Donald McKay, Patrick J. Kennedy, Joseph Tuckerman, William E. Russell, Hawes Hall.

Secondary lighting will be installed in the following buildings:

Boston Clerical, James P. Timilty, Clarence R. Edwards, Roslindale High, Brighton High, Jeremiah E. Burke, South Boston High, East Boston High, Charlestown High, Brandeis Vocational, Hyde Park High, Patrick T. Campbell, Boston Latin.

Roofing repairs will be made on the following schools:

Cora Etheridge, James A. McDonald, Ralph Waldo Emerson, Savin Hill, Public Latin, Grover Cleveland, Dorchester High (Boys), Sherwin, Martha Baker.

Installation of new heating equipment will be made in the following schools:

Boston Technical High, Thomas A. Edison, South Boston High, Supply Room, 440 Brookline avenue, John Marshall, William Bacon, Dearborn, Boston Trade, East Boston High.

MAYOR HYNES APPEALS TO MUSIC-LOVING AND PUBLIC-SPIRITED CITIZENS OF BOSTON IN BEHALF OF ESPLANADE CONCERTS.

Mayor John B. Hynes, on July 20, appealed to the music patrons and business leaders of Boston to rally to the support of the Esplanade concerts which are currently suffering from a deficit of upwards of \$15,000. Contributions should be sent to the Esplanade Concert Fund at the Back Bay Branch of the Merchants National Bank, 513 Boylston street.

"This is the 22d year Esplanade concerts have been presented by the Boston Symphony Orchestra," said Mayor Hynes. "These concerts have done more to entertain the people of Greater Boston and tourists coming here each year during the first three weeks of July than any other feature of our summer life. Many, many thousands, young and old, have enjoyed them. Only last night approximately 35,000 were in attendance.

"The Boston Symphony Orchestra and its patrons are to be commended for these remarkable concerts. They have grown in such popularity down through the years that they have become an important Boston institution. They not only contribute to our cultural life, but to our commercial welfare as well. May nothing ever happen that would lead to their discontinuance.

"However, it takes money to conduct these concerts. The musicians must be paid, and there are many other incidental expenses. The annual cost of the concerts is approximately \$35,000. As they are presented without cost to the public they are dependent on the contributions of the rich and well-to-do for their support. This year there is a deficit upwards of \$15,000. If that amount of money is not raised there is danger of the concerts not being held next year. That seems inconceivable, and yet, if sufficient money isn't raised to support them, they are certain to end. I therefore urge every music lover and business leader in Boston to assure the annual continuance of these concerts by sending a contribution, large or small, to the Esplanade Concert Fund, Merchants National Bank, 513 Boylston street, Boston."

JOSEPH L. MALONE NAMED AS DIRECTOR OF CIVILIAN DEFENSE.

(Continued from page 769.)

also attended the Boston College Graduate School. He taught at the Boston English High School for a period of 12 years and was head of the English Department at Roxbury Memorial High School and is presently headmaster of the High School of Commerce.

Mr. Malone is the former Chairman of the Training Division and Executive Secretary of the City of Boston Committee on Public Safety. He was also Chief Property Officer of this committee and served for the duration of World War II. He is a member of the Dartmouth College Alumni Association, Phi Delta Kappa, Delma Sigma Rho, Massachusetts Schoolmasters' Club, the Kiwanis Club, and the Massachusetts Secondary School Principals' Association. He has been active in Community Fund affairs since 1937 and last year was Chairman of the West Roxbury district of the Red Cross.

Mayor Hynes said that Mr. Malone would begin his duties immediately with temporary quarters in City Hall. The Mayor also said that the School Committee will be requested to give Mr. Malone a temporary leave of absence without loss of pay. At the present time, Mr. Malone's salary is approximately \$6,000 a year. In addition to this salary he will be paid an additional \$2,000 per annum as Director of Civilian Defense.

The Mayor said that Mr. Malone would begin immediately to correlate the information gathered during the course of the last World War under Civilian Defense; obtain whatever information is presently available from Federal authorities on home security; study the report of Dr. Walter Cronin of Cambridge on organizational set-up and civilian defense; confer with and work in cooperation with John F. Stokes, the State Director of Civilian Defense; and broaden out, immediately, the Mayor's temporary committee, with volunteer specialists in various fields, so that appropriate unit or subcommittees may be formed to plan and organize for every possibility in the event of attack by any enemy of the United States.

REPAINTING WHITE LINES IN SUMNER TUNNEL.

Public Works Commissioner George G. Hyland closed the Sumner Tunnel to all traffic for four hours on Tuesday, July 25, from 12.01 A.M. to 4 A.M., in order to repaint the white line traffic markers.

The white lines in the roadway are worn out and must be repainted, Commissioner Hyland stated, and the work can be done without interruption by closing the tunnel to all use during this period of the morning when the volume of traffic is generally the lightest.

Referred to the Committee on Confirmations.

MORE AMBULANCE SERVICE AT CITY HOSPITAL.

The following was received:

City of Boston,
Office of the Mayor, July 17, 1950.
To the City Council.

Gentlemen:
I transmit herewith communication from the Superintendent of the Boston City Hospital relative to your order of June 26, 1950, concerning the utilization of more than one ambulance from the hours of 12 midnight to 7 A.M.

Respectfully,
J. B. HYNES, Mayor.

City of Boston,
Hospital Department, July 7, 1950.
Mr. Thomas G. J. Shannon,
Chief Clerk, Mayor's Office.

Dear Mr. Shannon:
Your communication of June 23, 1950, enclosing City Council order of June 26, 1950, requesting the utilization of more than one ambulance from the hours of 12 midnight to 7 A.M., has been received.

We have three ambulances at the Main Hospital and one at East Boston Relief Station. As a rule we are able to do all our work by running one ambulance. We only call out a second or third ambulance in the event of an emergency.

Very truly yours,
JAMES W. MANARY, M.D.,
Superintendent.

ANGLE PARKING, UPHAMS CORNER SECTION OF NEW COLUMBIA ROAD.

The following was received:

City of Boston,
Office of the Mayor, July 17, 1950.
To the City Council.

Gentlemen:

I transmit herewith communication from the Traffic Commissioner relative to your order of July 10, 1950, concerning the establishment of angle parking in the Uphams Corner section of the new Columbia road.

Respectfully,

J. B. HYNES, Mayor.

Boston Traffic Commission,
July 14, 1950.

Hon. John B. Hynes,
Mayor of Boston.

Dear Sir:

With reference to City Council order dated July 10, 1950, requesting that angle parking be established in the Uphams Corner section of the new Columbia road, our commission voted on June 15 not to permit angle parking in this area.

This vote is consistent with recommendations of the state authorities and the interests of public safety.

There are only a few places in Boston where angle parking remains and it is hoped that they will be eliminated in the near future due to the fact that experience has shown that in almost all cases angle parking is dangerous.

Respectfully submitted,

WM. ARTHUR REILLY, Commissioner.

LAND AT 73 EAST DEDHAM STREET.

The following was received:

City of Boston,
Office of the Mayor, July 17, 1950.
To the City Council.
Gentlemen:

I submit herewith an order whereby the premises numbered 73 East Dedham street, Boston Proper, may be transferred from the care, custody, control and management of the Board of Park Commissioners to the care, custody, control and management of the Chairman, Board of Real Estate Commissioners, for the reasons set forth in the communication received from the Chairman of the Board of Park Commissioners, dated July 6, 1950, copies of which are transmitted herewith.

Respectfully,

J. B. HYNES, Mayor.

City of Boston,

Park Department, July 6, 1950.

Hon. John B. Hynes,
Mayor of Boston.

Dear Sir:

At a meeting of the Board of Park Commissioners held at the Park Department office on Wednesday, July 5, 1950, it was voted to recommend transfer of the care, custody and control of the land located at 73 East Dedham street, South End, from the Park Department to the Real Estate Commission of the City of Boston.

This land contains approximately 5,962 square feet. It was turned over to this department by the Real Estate Commission after vote of the City Council on April 14, 1941, approved by the Mayor on April 16, 1941.

The area is too small for either park or playground purposes and has been left undeveloped all these years. As it is not needed for park purposes, the Board of Park Commissioners voted to recommend that it be transferred back to the Real Estate Commission.

Your approval of this action and the necessary arrangements to effect the transfer will be greatly appreciated.

Very respectfully yours,
FRANK R. KELLEY, Chairman.

Whereas, The City of Boston, by a decree of the Land Court, Suffolk Registry District, dated October 5, 1936, foreclosed a right of

redemption under a tax deed recorded with Suffolk Deeds, Book 5395, page 116, on about 5,962 square feet of land on the southwesterly side of East Dedham street, numbered 73, in the numbering of said East Dedham street, between an estate now or formerly of Sarah A. McBarron and an estate now or formerly of the First National Bank of Boston; and

Whereas, By an order of the City Council, dated April 14, 1941, and approved by the Mayor of Boston on April 16, 1941, the above-described land was transferred from the Care, Custody, Control and Management of the Custodian, Foreclosed Real Estate Division to the Care, Custody, Control and Management of the Board of Park Commissioners for playground purposes; and

Whereas, The above-described premises are no longer required for Park Department purposes; now, therefore, it is hereby

Ordered, That the aforesaid parcel of foreclosed tax title property be, and the same hereby is, transferred from the Care, Custody, Control and Management of the Board of Park Commissioners to the Care, Custody, Control and Management of the Chairman, Board of Real Estate Commissioners.

Referred to the Committee on Public Lands.

APPROPRIATION FOR CIVIL DEFENSE ACTIVITIES.

The following was received:

City of Boston,
Office of the Mayor, July 17, 1950.
To the City Council.
Gentlemen:

In view of existing world conditions, I deem it desirable to provide for a civil defense organization to plan and direct civil defense operations which would take place in time of an emergency. We are all aware that air power has shrunk the globe and removed our natural defense barriers. As a coastal city and the financial center of New England, Boston must be prepared for surprise attacks which could place the lives of our citizens as well as industrial plants, commercial facilities and other installations in immediate jeopardy.

I have already appointed a small committee of department officials to consider the problem. It is now evident that this committee should be expanded so as to include the best brains in the community. We should have an inventory of existing facilities and resources of major importance which should be protected in the event of attack. Consideration should also be given to the establishment of auxiliary protective facilities which could be called upon in event of an emergency, in order to supplement and augment the services of our regular protective agencies.

It is impossible, of course, to determine exactly at this time the extent of the program which will need to be developed. In order to make a start, however, I feel that funds should be provided to permit definite action in establishing a civil defense organization. I therefore submit herewith an order providing for the transfer from the Reserve Fund of the sum of twenty thousand dollars to be used for this purpose. Because of existing conditions, I recommend its immediate consideration and adoption.

Respectfully,

J. B. HYNES, Mayor.

Ordered, That in accordance with the provisions of section 3B of chapter 486 of the Acts of 1909, as amended by chapter 604 of the Acts of 1941, the City Auditor be, and hereby is, authorized to transfer:

From the appropriation for Reserve Fund, \$20,000, to the appropriation for Civil Defense Activities, \$20,000.

Referred to the Executive Committee.

REPLACEMENT OF OLD BRIDGES, SULLIVAN SQUARE.

The following was received:

City of Boston,
Office of the Mayor, July 17, 1950.
To the Honorable City Council.
Gentlemen:

Enclosed herewith is a self-explanatory communication recently received from the State Commissioner of Public Works concerning the replacement with a new bridge of the old bridge on Main street, Charlestown, over the tracks of the Boston & Maine Railroad and the Boston & Albany Railroad and also the replacement with a new bridge of the old bridge on Mystic avenue, Charlestown, over the tracks of the Boston & Maine Railroad and Boston & Albany Railroad.

As the rebuilding of these bridges is an integral part of the highway project now

under way at Sullivan square, I recommend to your Honorable Body the immediate adoption of the order transmitted herewith.

Respectfully,

J. B. HYNES, Mayor.

Commonwealth of Massachusetts,
Department of Public Works,
Office of the Commissioner,
July 13, 1950.

Hon. John B. Hynes,
Mayor of Boston.

Dear Mayor Hynes:

In connection with the improvement of Sullivan square in the Charlestown section of Boston, currently under way, there is included the replacement of the two old bridges on Main street and Mystic avenue over the main line tracks of the Portland Division of the Boston & Maine Railroad. These new bridges will of course be of modern design and of steel and concrete construction.

The replacement of these two bridges constitutes an alteration of the crossing between the public way and the railroad and under the law governing such alterations, chapter 159, section 59, of the General Laws, it will be necessary for the Boston City Council to petition the Department of Public Utilities to issue an order providing for said alteration. The Department of Public Utilities will then hold a public hearing, duly advertised, and issue an order directing that the alteration be made and will specify the manner and limits of said alteration.

This is simply a legal requirement and will have no effect on the design and contracts already under way. The work involved is a part of the over-all project and the entire cost of construction will be borne by the Commonwealth. All the necessary land takings have already been made and this expense has also been borne by the Commonwealth.

As this improvement is a Federal Aid Urban Project the Bureau of Public Roads will require that an agreement be executed between the parties involved, namely, the Commonwealth, City of Boston, City of Somerville, Boston & Maine Railroad, Boston & Albany Railroad and the Metropolitan Transit Authority, relative to the division of work and expense and future maintenance of these facilities needed to carry out said alterations.

The City of Somerville is involved because one corner of the Mystic Avenue Bridge is located in that city. The Metropolitan Transit Authority is involved because their track will be located on the Mystic Avenue Bridge.

As soon as the Department of Public Utilities has issued its order this department will prepare the necessary form of agreement and submit it to the above-mentioned interested parties for approval and execution.

In order that no delay will be encountered it will be greatly appreciated if this petition is submitted immediately to the Department of Public Utilities by the proper city authorities.

The Department of Public Utilities will probably require about two weeks' notice for their hearing and since they do not schedule any hearings during the month of August it is essential that the petition be received by them so that they may hold this hearing prior to August 1, 1950.

This entire procedure relative to the petition and hearing is the very same one previously undertaken for the alteration of the Rutherford Avenue crossing in this same project.

Your immediate attention and continued co-operation relative to this matter will be greatly appreciated.

Very truly yours,

WILLIAM F. CALLAHAN, Commissioner.

Ordered, That it be, and hereby is, deemed and determined to be necessary for the security and convenience of the public that an alteration substantially as shown on the set of plans entitled "The Commonwealth of Massachusetts, Plan and Profile Showing Proposed Reconstruction of Bridge in the City of Boston, Suffolk County, on Main Street, Sta. 98—45.43 to Sta. 99—81.30, over the Boston & Albany Railroad Grand Junction Branch, Bridge No. G. J. 3.63, Boston & Maine Railroad Terminal Division East and West Routes, Bridge No. 169, and on Mystic Avenue, Sta. 73—45.51 to Sta. 75—31.43, over the Boston & Albany Railroad Grand Junction Branch, Bridge No. G. J. 3.66, Boston & Maine Railroad Terminal Division East and West Routes, Bridge No. 1.73, Scales as Noted, Department of Public Works, 100 Nashua Street, Boston, Mass., P. H. Kitfield, Chief Engineer," be made where Main street in the Charlestown District of Boston and the Boston & Albany Railroad's Grand Junction Branch and the Boston & Maine Railroad's Terminal Division East and West Routes now cross each other, and that an alteration substantially as shown on said set of plans be made where Mystic

avenue in said Charlestown district and the Boston & Albany Railroad's Grand Junction Branch and the Boston & Maine Railroad's Terminal Division East and West Routes now cross each other; and

That the Corporation Counsel of the City of Boston be, and he hereby is, authorized and directed to make in the name and on behalf of the City Council of the City of Boston appropriate application to the State Department of Public Utilities under G. L. (Ter. Ed.), c. 159, s. 59, as amended, in connection with such alterations.

Referred to the Executive Committee.

CITY OF BOSTON.

PUBLIC WORKS DEPARTMENT.

PROPOSALS FOR CLEANING THE SURFACE DRAINAGE SYSTEM OF THE SUMNER TUNNEL.

The Commissioner of Public Works of the City of Boston, office 503 City Hall Annex, invites proposals from citizens of the United States and corporations or other legal associations wherein the controlling interest to the extent of at least over one half thereof is owned by a citizen or citizens of the United States, for cleaning the surface drainage system of the Sumner Tunnel. A bond will be required for doing the work of a surety company approved by the Commissioner in the sum of 100 per cent of the amount of the contract, to secure the due performance of the contract and the full protection of the city. Forms of proposals may be obtained at Room 503, City Hall Annex. Each proposal should be enclosed in an envelope, sealed, marked "Proposal for Cleaning the Drainage System of the Sumner Tunnel," and left at Room 503, fifth floor, City Hall Annex, before 12 M. of WEDNESDAY, AUGUST 9, 1950, with a certified check for TWO HUNDRED (200) DOLLARS, payable to and to become the property of the city if the proposal after acceptance is not carried out. The proposals will then be publicly opened and read in the hearing room of the Street Commissioners, Room 401, City Hall Annex.

Proposals must be made in duplicate, the sealed duplicate, without check, to be deposited by the bidder with the City Auditor previous to the time named for opening the bids. All proposals must be from bidders of record on file at Room 503, City Hall Annex. There will be a charge of two dollars (\$2) for each set of plans and specifications taken out. If the price of any item appears to the Commissioner to be abnormally high or low, or the bidder neglects to bid on each and every item, it may lead to the rejection of the proposal containing such price. Before commencing performance of this contract, the Contractor shall provide by insurance for the payment of compensation and the furnishing of other benefits under chapter 152 of the General Laws (the Workmen's Compensation Law so called) to all persons to be employed under this contract, and shall continue such insurance in full force and effect during the term of this contract. The undersigned reserves the right to reject any or all proposals or to award the contract as he deems best.

GEORGE G. HYLAND,

(July 29.) Commissioner of Public Works.

Examples of Duties: Assisting in the planning of menus for patients or inmates, employees, special diet cases, and other groups or individuals; assisting in the supervision of kitchen and dining room employees, or of patient or inmate help; requisitioning food supplies and checking receipts.

Entrance Requirements: Applicants must have at least one year of full-time paid experience as a dietitian or assistant dietitian. Substitution: Graduation from a recognized four-year home economics college course may be substituted for the required experience.

Subjects and Weights: Training and experience, 2; practical questions, 3; total, 5.

Passing Requirements: Applicants must obtain at least 70 per cent in each subject in order to become eligible.

Physical fitness to be determined by physical examination.

OVERSEERS OF THE PUBLIC WELFARE.

PROPOSALS FOR THE INSTALLATION OF AN INSTANTANEOUS WATER HEATER AT THE WAYFARERS' LODGE AND CITY WOODYARD, 30 HAWKINS STREET, BOSTON.

The Overseers of the Public Welfare in the City of Boston, referred to as the Awarding Authority, invite proposals for the installation of an instantaneous water heater at the Wayfarers' Lodge and City Woodyard, 30 Hawkins street, Boston, Mass., according to the specifications which may be obtained at the office of the Board, first floor, 43 Hawkins street, Boston, Mass. Bidders must use the form of proposal to be obtained at this office. There will be a charge of twenty-five cents (\$0.25) for each blank proposal taken out. Bids, with a certified check in the sum of one hundred dollars (\$100), payable to and to become the property of the City of Boston, if the proposal is not carried out, must be left at the office of the Board, first floor, 43 Hawkins street, Boston, Mass., before noon, August 2, 1950, at which time and place they will be publicly opened and read. The certified check shall be in a separate envelope, properly marked. A duplicate proposal, without check, must be left with the City Auditor, prior to the time named for opening of the bids. The rate per hour of the wages to be paid to mechanics, teamsters, chauffeurs and laborers in the work to be performed shall not be less than the rate of wages determined for this work by the Commissioner of Labor and Industries of the Commonwealth of Massachusetts under the provisions of General Laws (Ter. Ed.), chapter 149, section 26. The successful bidder will be required to provide by insurance for the payment of compensation and the furnishing of other benefits under the Workmen's Compensation Law (Ter. Ed.), chapter 152, to all persons to be employed under the contract and sufficient proof of compliance with the foregoing will be required prior to the award of a contract. The successful contractor must furnish a bond for the full amount of the total estimated amount of the contract with a surety company authorized to do business in Massachusetts as surety for the faithful performance of the contract. The Awarding Authority reserves the right to accept or reject any or all bids. All contracts made subject to appropriations being available to meet the payments thereunder.

The Superintendent of Construction of the Department of School Buildings, Boston, Mass., hereinafter referred to as the Awarding Authority, invites sealed proposals for making alterations in various schools, Group H-3.

Proposals will be received until 12 o'clock noon, Thursday, August 17, 1950, at the office of the Awarding Authority, fourth floor, 26 Norman street, Boston, Mass., at which time and place they will be publicly opened and read aloud.

Proposals shall be submitted in duplicate on forms obtained from the Awarding Authority. Each copy of the proposal shall be properly filled out, signed and inclosed in a sealed envelope, plainly marked with the name of the bidder and the description of the work bid upon. One copy shall be filed at the office of the Awarding Authority, designated above, and the other copy shall be filed at the office of the City Auditor, City Hall, Boston, Mass. Both copies shall be filed before the time stated above for the opening of proposals.

A bid deposit in the form of cash or a certified check on, or a certificate of deposit issued by, a responsible bank or trust company, payable to the City of Boston, in the sum of \$3,500, shall be submitted with the copy of the proposal filed with the Awarding Authority. The bid deposit shall be in a separate envelope, properly marked. Bid bonds will not be accepted.

No bidder may withdraw his bid within thirty days after the actual date of the opening thereof.

The rate per hour of the wages to be paid to mechanics, teamsters, chauffeurs and laborers in the work to be performed shall not be less than the rate of wages determined for this work by the Commissioner of Labor and Industries of the Commonwealth of Massachusetts under the provisions of General Laws (Ter. Ed.), chapter 149, section 26, a schedule of which appears in the specifications.

The successful bidder will be required to provide by insurance for the payment of compensation and the furnishing of other benefits under the Workmen's Compensation Law, General Laws (Ter. Ed.), chapter 152, to all persons to be employed under the contract, and sufficient proof of compliance with the foregoing stipulation will be required before commencing performance of this contract.

Plans and specifications may be obtained at the office of the Awarding Authority.

Subbidders bidding on the work of subcontractors shall use the proposal form prepared by and obtainable from the Awarding Authority.

All subbidders' proposals must be in the possession of the Awarding Authority and delivered or mailed to the general bidder no later than 12 o'clock noon, Monday, August 14, 1950.

A bid deposit in the form of cash or a certificate of deposit issued by a responsible bank or trust company, payable to the City of Boston, in a sum not less than 5 per cent of the amount of his bid, shall be submitted by each subbidder with the copy of his proposal filed with the Awarding Authority. The bid deposit shall be in a separate envelope, properly marked. Bid bonds will not be accepted.

A deposit of a certified check in the sum of \$50, payable to the City of Boston, will be required in order to procure a complete set of plans and specifications. This deposit shall be returned, providing that all plans and specifications are returned in satisfactory condition within ten days after opening of bids.

A performance bond, issued by a surety company satisfactory to the Awarding Authority, in the full amount of the contract will be required of the successful general contractor.

Information relating to the performance bonds of subcontractors is set forth in the notice to subbidders.

The Awarding Authority reserves the right to waive any informalities and to reject any and all bids. The Awarding Authority also reserves the right to reject all subbids or any item or items in accordance with the provisions of chapter 480 of the Acts of 1939.

RECREATION EXPENDITURES GROW.

Expenditures for community recreation facilities and service in 1,917 communities in 1948 totaled \$93,800,000, double the amount reported in any previous year, according to the National Recreation Association. Nearly one-third of this amount was for land, buildings, and improvements, indicating that many cities are carrying out war-delayed plans to provide needed recreation areas and facilities. More than 84 per cent of the expenditures were met by local, county, or state sources in the forms of appropriations, tax levies, or bond issues. Only 4 per cent of the funds came from community funds or other private sources. The remaining 12 per cent was derived from fees and charges.

Article V, Section 1 (One-Way Streets), is amended by adding the following:

West Brookline Street, Boston Proper.
From Tremont street to Washington street.

Voted, That as urgently required by considerations of public safety and convenience, for a trial period of sixty (60) days, the Traffic Rules and Regulations of the City of Boston are amended as follows, effective July 17, 1950:

CITY OF BOSTON.**BOARD OF REAL ESTATE COMMISSIONERS.**

INVITATION FOR PROPOSALS FOR LEASING OF PUBLIC PARKING STRUCTURE ON NORTHERLY SIDE OF ESSEX STREET, BETWEEN COLUMBIA AND LINCOLN STREETS.

The Board of Real Estate Commissioners of the City of Boston, hereinafter called the Board, invites from individual citizens of the United States and corporations or other legal associations wherein the controlling interest to the extent of at least over one half thereof is owned by a citizen or citizens of the United States, proposals for leasing for the term of thirty-six (36) months beginning September 1, 1950, and ending August 31, 1953, the public parking structure, Unit Number One, situated in Boston on the northerly side of Essex street, between Columbia and Lincoln streets, upon the covenants, agreements, and conditions contained in the form of lease which, with the form of proposal, may be obtained daily (except Saturdays, Sundays, and holidays), between 9 A.M. and 5 P.M., at the office of the Board, Room 809, City Hall Annex, Court street, Boston.

Proposals shall be submitted in duplicate on forms obtained as aforesaid. Each copy of the proposal shall be properly filled out, signed, enclosed in an envelope, sealed, and marked "Proposal for Leasing of Public Parking Structure, Unit Number One." One copy of the proposal, accompanied by a bid deposit of \$2,000, made under the terms stated in the form of proposal, in the form of cash or a certified check on, or a certificate of deposit issued by, a responsible bank or trust company, payable to the City of Boston, shall be filed with the Board at its said office on or before 3 P.M. on August 10, 1950, at which time and place all proposals will be publicly opened and read. The other copy of the proposal shall be filed by the bidder before said day and hour at the office of the City Auditor, City Hall, School street, Boston.

No proposal shall be withdrawn after the day and hour hereinbefore set for the opening of proposals.

The Board reserves the right to reject any and all proposals.

HERMAN CARP,
WILLIAM F. KEESLER,
PHILIP E. BENNETT,
THOMAS F. X. WHITE,
THOMAS F. McDONOUGH,

Board of Real Estate Commissioners of the City of Boston.

CITY OF BOSTON.**DEPARTMENT OF SCHOOL BUILDINGS.****TO GENERAL CONTRACTORS.**

INVITATION FOR PROPOSALS FOR MAKING ALTERATIONS IN VARIOUS SCHOOLS, GROUP H-4.

The Superintendent of Construction of the Department of School Buildings, Boston, Mass., hereinafter referred to as the Awarding Authority, invites sealed proposals for making alterations in various schools, Group H-4.

Proposals will be received until 12 o'clock noon, Thursday, August 17, 1950, at the office of the Awarding Authority, fourth floor, 26 Norman street, Boston, Mass., at which time and place they will be publicly opened and read aloud.

Proposals shall be submitted in duplicate on forms obtained from the Awarding Authority. Each copy of the proposal shall be properly filled out, signed and inclosed in a sealed envelope, plainly marked with the name of the bidder and the description of the work bid upon. One copy shall be filed at the office of the Awarding Authority, designated above, and the other copy shall be filed at the office of the City Auditor, City Hall, Boston, Mass. Both copies shall be filed before the time stated above for the opening of proposals.

A bid deposit in the form of cash or a certified check on, or a certificate of deposit issued by, a responsible bank or trust company, payable to the City of Boston, in the sum of \$3,500, shall be submitted with the copy of the proposal filed with the Awarding Authority. The bid deposit shall be in a separate envelope, properly marked. Bid bonds will not be accepted.

No bidder may withdraw his bid within thirty days after the actual date of the opening thereof.

The rate per hour of the wages to be paid to mechanics, teamsters, chauffeurs and laborers in the work to be performed shall not be less than the rate of wages determined for this work by the Commissioner of Labor and Industries of the Commonwealth of Massachusetts under the provisions of General Laws (Ter. Ed.), chapter 149, section 26, a schedule of which appears in the specifications.

The successful bidder will be required to provide by insurance for the payment of compensation and the furnishing of other benefits under the Workmen's Compensation Law, General Laws (Ter. Ed.), chapter 152, to all persons to be employed under the contract, and sufficient proof of compliance with the foregoing stipulation will be required before commencing performance of this contract.

Plans and specifications may be obtained at the office of the Awarding Authority.

Subbidders bidding on the work of subcontractors shall use the proposal form prepared by and obtainable from the Awarding Authority.

All subbidders' proposals must be in the possession of the Awarding Authority and delivered or mailed to the general bidder no later than 12 o'clock noon, Monday, August 14, 1950.

A bid deposit in the form of cash or a certificate of deposit issued by a responsible bank or trust company, payable to the City of Boston, in a sum not less than 5 per cent of the amount of his bid, shall be submitted by each subbidder with the copy of his proposal filed with the Awarding Authority. The bid deposit shall be in a separate envelope, properly marked. Bid bonds will not be accepted.

A deposit of a certified check in the sum of \$50, payable to the City of Boston, will be required in order to procure a complete set of plans and specifications. This deposit shall be returned, providing that all plans and specifications are returned in satisfactory condition within ten days after opening of bids.

A performance bond, issued by a surety company satisfactory to the Awarding Authority, in the full amount of the contract will be required of the successful general contractor.

Information relating to the performance bonds of subcontractors is set forth in the notice to subbidders.

The Awarding Authority reserves the right to waive any informalities and to reject any and all bids. The Awarding Authority also reserves the right to reject all subbids or any item or items in accordance with the provisions of chapter 480 of the Acts of 1939.

JAMES H. MOONEY,
Superintendent of Construction.

THE SCHOOL COMMITTEE OF THE CITY OF BOSTON.

ADMINISTRATION BUILDING, 15 BEACON STREET, OFFICE OF THE BUSINESS MANAGER.

PROPOSALS FOR FURNISHING SCISSORS AND SHEARS FOR THE BOSTON PUBLIC SCHOOLS.

The School Committee of the City of Boston invites bids for furnishing scissors and shears for the Boston public schools. Proposal forms are obtainable at the office of the Business Manager of the School Committee, 15 Beacon street, tenth floor. Envelopes containing proposals must be sealed and plainly marked "Proposal for Furnishing Scissors and Shears for the Boston Public Schools." The bid must be in duplicate. One copy signed by the bidder and accompanied by a certified check payable to the City of Boston in the amount of one hundred dollars (\$100) must be left at the office of the Business Manager on or before 12 o'clock noon on Tuesday, August 8, 1950. Copies filed with the Business Manager will be publicly opened and read at 12 o'clock noon of the day stated. The other copy, also signed by the bidder, must be filed with the City Auditor, City Hall, Boston, Mass., previous to the time named for the opening of bids. The School Committee reserves the right to reject any or all bids, and to accept such bid or part of bid as may be deemed best for the interests of the city. The successful bidders will be required to furnish a suitable bond or deposit of money or other security in the amount of not less than 50 per cent of the amount of the contract.

HENRY J. SMITH,
Business Manager of the School Committee.

CITY OF BOSTON.**PUBLIC WORKS DEPARTMENT.**

PROPOSALS FOR FURNISHING LABOR TO ASSEMBLE ABOUT 50 8-INCH GATE VALVES, 50 6-INCH GATE VALVES, AND 50 B. & F. POST HYDRANTS.

The Commissioner of Public Works of the City of Boston, office 508 City Hall Annex, invites proposals from citizens of the United States and corporations or other legal associations wherein the controlling interest to the extent of at least over one half thereof is owned by a citizen or citizens of the United States, for furnishing labor to assemble about 50 8-inch gate valves, 50 6-inch gate valves, and 50 B. & F. post hydrants. A bond will be required for doing the work of a surety company approved by the Commissioner in the sum of 100 per cent of the amount of the contract, to secure the due performance of the contract and the full protection of the city. Forms of proposals may be obtained at Room 508, City Hall Annex. Each proposal should be enclosed in an envelope, sealed, marked "Proposal for Furnishing Labor to Assemble About 50 8-Inch Gate Valves, 50 6-Inch Gate Valves, and 50 B. & F. Post Hydrants," and left at Room 508, fifth floor, City Hall Annex, before 12 M. of WEDNESDAY, AUGUST 9, 1950, with a certified check for FIVE HUNDRED (500) DOLLARS, payable to and to become the property of the city if the proposal after acceptance is not carried out. The proposals will then be publicly opened and read in the hearing room of the Street Commissioners, Room 401, City Hall Annex.

Proposals must be made in duplicate, the sealed duplicate, without check, to be deposited by the bidder with the City Auditor previous to the time named for opening the bids. All proposals must be from bidders of record on file at Room 508, City Hall Annex. There will be a charge of two dollars (\$2) for each set of plans and specifications taken out. If the price of any item appears to the Commissioner to be abnormally high or low, or the bidder neglects to bid on each and every item, it may lead to the rejection of the proposal containing such price. Before commencing performance of this contract, the Contractor shall provide by insurance for the payment of compensation and the furnishing of other benefits under chapter 152 of the General Laws (the Workmen's Compensation Law so called) to all persons to be employed under this contract, and shall continue such insurance in full force and effect during the term of this contract. The undersigned reserves the right to reject any or all proposals or to award the contract as he deems best.

GEORGE G. HYLAND,
Commissioner of Public Works.

REPORT OF COMMITTEE APPOINTED BY MAYOR HYNES TO STUDY RECOMMENDATIONS OF FINANCE COMMISSION ON REORGANIZATION OF STREET LAYING-OUT DEPARTMENT COMPLETED AND PRESENTED TO HIS HONOR—MANY SUGGESTIONS FOUND ALREADY IN OPERATION—OTHERS NEED LEGISLATIVE ACTION.

The committee appointed by Mayor John B. Hynes to review and analyze recommendations of Finance Commission reports has submitted to the Mayor the following communication:

HON. JOHN B. HYNES,
Mayor of Boston.

DEAR SIR:

The committee appointed by you to review and analyze the recommendations contained in the survey reports of the Boston Finance Commission submits for your consideration the following comments on the report bearing the title "Street Laying-Out Department":

This report covers 50 pages, and the findings of the surveyor are summarized under 29 specific recommendations.

VAULT TO BE BUILT AT CITY HOSPITAL FOR NEW AIR CONDITIONING AND EXPLOSION-PROOF ELECTRICAL WORK FOR DOWLING BUILDING—CONTRACT LET AT COST OF \$24,587.20—MAYOR APPROVES ACTION OF TRUSTEES AND THEIR DECISION ON CONTRACTOR FOR WORK.

The Mayor has approved the following request of the Trustees of the Boston City Hospital:

BOSTON, June 14, 1950.

HON. JOHN B. HYNES,
Mayor of Boston.

DEAR MR. MAYOR:

During the past year, alterations have been in progress in the Dowling Building to provide air conditioning and extra safety devices in the electric system to reduce hazards of explosions in the operating rooms. This work is being done as recommended by the United States Department of Public Health through a contract with Rich Brothers Construction Company of Boston.

Among the provisions that are being made is a change of electric current from

VETERANS' SERVICES EXPENDITURES FOR THE MONTH OF JUNE SHOW INCREASE OVER THOSE OF 1949, ACCORDING TO THE MONTHLY REPORT OF COMMISSIONER FRANCIS X. COTTER TO MAYOR JOHN B. HYNES—229 MORE CASES AIDED AND THE PAYMENT OF CITY HOSPITAL BILLS ACCOUNT FOR JUMP IN EXPENDITURES—TOTAL OF 1,523 CASES INVOLVING 3,189 INDIVIDUALS SHOWN TO HAVE BEEN CARED FOR.

Veterans' Services expenditures for the month of June of this year appear to still be increasing over the corresponding month of the previous year, according to the report of the Commissioner, Francis X. Cotter, to Mayor John B. Hynes. This fact, according to the report, is attributable to the fact that there were 229 more cases aided this year than in June, 1949. Another factor is the payment of City Hospital bills, a factor not entering into the case in 1949. There were 1,523 cases aided, taking in 3,189 individuals. The full report reads as follows:

BOSTON, July 26, 1950.

HON. JOHN B. HYNES,
Mayor of Boston.

SIR:

I have the honor to submit the report of the Department of Veterans' Services for the month of June, 1950.

Very truly yours,
FRANCIS X. COTTER, Commissioner.

"O Boston, fair City enthroned like a radiant queen,
From thy hills looking down on the ship-teeming plain of the ocean,
May thy future be bright, thy skies beam with light all serene,
Ensured by thy sons' and thy daughters' unselfish devotion!"

From Boston Centennial Poem by
NATHAN HASKELL DOLE

DEPARTMENT OF VETERANS' SERVICES IN MONTHLY REPORT TO MAYOR HYNES AGAIN SHOWS INCREASE OVER PREVIOUS YEAR.

(Continued from page 793.)

Expenditures for veterans' benefits for June, 1950, show an increase of \$42,158.50 in comparison with expenditures for the corresponding period of 1949. This increase is attributable to the fact that the department aided 229 more cases than in June, 1949. Another factor involved in causing a greater expenditure in June, 1950, over June, 1949, is the payment of Boston City Hospital bills, a factor which did not exist at that time one year ago.

The 1,523 cases aided during the month of June, 1950, represent a total of 3,189 individuals benefited through the financial facilities of the Department of Veterans' Services.

There were 418 cases closed during the month of June, 1950, because of obtaining employment, having been awarded unemployment compensation, and becoming ineligible to receive financial assistance for miscellaneous reasons.

ADDITIONAL WORK ON DOWLING BUILDING TO COST \$24,587.20.

(Continued from page 793.)

direct current as manufactured by the hospital to alternating current, in order to provide suitable grounding. It was the intent, when the contract was signed, to take the power for the alternating current from an existing Edison service in Ward Building 1, 2, 3. As there have been other contracts in progress throughout the hospital under the direction of architects and engineers other than the firm employed on the Dowling Building, the capacity of the alternating current has been used up for other purposes in

other buildings. It is therefore necessary, in order to complete the Dowling Building, to provide a source of other power for the Dowling Building alterations.

A study of the requirements has been made by James H. Ritchie and Associates and has been checked by the firm of Jackson and Moreland, and it is recommended that a transformer vault be provided in the ambulance yard of the Dowling Building which will be of sufficient size to provide for all future needs of alternating current in that end of the hospital, and to consolidate the service in Ward 1, 2, 3 Building and the Pathological Building, so that there will be one point of Edison power entry instead of three separate points.

It is necessary to build this vault before the new air conditioning and explosion-proof electrical work is completed in the Dowling Building. Rich Brothers Construction Company, contractors on the alterations to the Dowling Building, have submitted a price of \$24,587.20 for this work, which includes the construction of a one-story building, proper switchboard for distribution, and new electric connections to Dowling, Wards 1, 2, 3. Pathological Building, and laundry, approximately half of the cost of the project being for electric work.

In order to complete the air conditioning and explosion proofing in the Dowling Building without delay, the Board of Trustees respectfully requests your approval to dispense with advertising and to award a contract to Rich Brothers Construction Company, 410 Park Square Building, Boston, in the sum of \$24,587.20, for furnishing all labor, material, and equipment necessary for the installation of a transformer vault in ambulance yard of the Dowling Building, Boston City Hospital, it being the opinion of the Board of Trustees that advertising for bids will not result in any lower price being obtained for this work.

Respectfully yours,

MARTIN J. ENGLISH, M.D.,
President, Board of Trustees.

REPORT OF MAYOR HYNES' COMMITTEE TO STUDY FINANCE COMMISSION RECOMMENDATIONS.

(Continued from page 793.)

The attached schedule indicates a classification of these recommendations prepared by department officials.

Speaking generally, the Street Laying-Out Department consists of three major units:

The Board of Street Commissioners — the over-all administrative unit, exercising quasi-judicial duties relating to taking property for public use and authorizing special assessment construction.

The Permit Division — which conducts investigations, grants authorization, and issues permits for use of public ways as well as licenses for same.

The Engineering Division — which is concerned largely with establishing street lines for purposes of taking property for public use and for pavement and sewer construction.

Pointing out that the work of the Permit and Engineering Divisions overlap and conflict with that of other city agencies, the surveyor recommends that the two divisions be abolished and their duties transferred to other departments having a closer relationship to the activity involved, thus leaving the Board of Commissioners and a small staff agency to perform such duties as the determination of betterment assessments, the award of damages resulting from the taking of property for public use, and other remaining quasi-judicial matters.

This general reorganization proposal conflicts with existing statutory provisions and therefore would require legislative sanction before adoption. It has been the policy of this committee to concern itself primarily with survey proposals that may be adopted by executive or administrative direction or by ordinance changes. It has felt it desirable to defer action on proposals in-

volving statutory changes until all departmental studies have been completed, at which time a general legislative program would be developed. In view of this policy, no comment is offered at this time on the general reorganization proposed by the surveyor in the department under consideration.

With regard to recommendations which relate to the present organization of the department, it is evident from the attached classification schedule that the bulk of the same have been either adopted or are being considered for adoption. The only recommendations in this group open to question are those which relate to the establishment of a bench-mark system showing the elevations of various key spots throughout the city as well as the setting of stone bounds or monuments at intersections of public ways. Unquestionably, the absence of monuments and bench marks throughout the city complicates the engineering work of the department. The existence of such markers would not only reduce the time of the average engineering survey but would also eliminate many of the requests made on the department by private engineers for survey data. As admitted by the surveyor, the great obstacle to the establishment of such a system of markings is the initial cost. In the opinion of engineering officials of the department, an accurate survey of Boston for this purpose would cost at least \$3,000,000. They also point out that no permanency is attached to monuments or markers when once set out. If set on street lines, they may be destroyed by improvements made by abutters; and if set on offset lines, they may be destroyed by the installation of drains and utilities. If Boston was a relatively young city and had not reached its peak of possible expansion, the system proposed would be a logical and desirable investment. Under existing circumstances, however, the cost involved appears prohibitive.

Respectfully,

CHARLES J. FOX,
JOHN A. SULLIVAN,
JOHN DE MEULENAER.

* Contract awarded.

An analysis of information, provided by Mr. Patrick J. Brophy in reply to a letter of inquiry concerning his organization, now on file in this department, proves to me conclusively that he has not had sufficient experience in doing the type of work required to expect that he could comply with the provisions of the specifications, nor has he sufficient financial stability or organization to warrant the award of such contract to him.

Consequently I am, subject to your Honor's approval, awarding contracts to the next lowest responsible bidders by districts as follows:

To Martin J. Kelly Company, Inc., 75 Stedman street, Jamaica Plain, District 1, for the sum of \$10,363.

To J. F. Stack & Co., 25 Huntington avenue, Boston, District 2, for the sum of \$10,967.

To M. Solimando, 51 Ceylon street, Dorchester, District 3, for the sum of \$3,450.

To Donato Antonellis, 15 Sparhawk street, Brighton, District 4, for the sum of \$12,972.

Respectfully yours,

JAMES H. MOONEY,

Superintendent of Construction.

WITHOUT ADVERTISING.

Upon varying dates as indicated the Mayor approved contracts with firms, contractors, and commercial houses for furnishing labor, supplies, etc. Communications from the heads of the departments interested were as follows:

CITY MESSENGER.

BOSTON, July 24, 1950.

HON. JOHN B. HYNES,

Mayor of Boston.

DEAR MR. MAYOR:

During the course of the year it is the duty of the City Messenger, in compliance with Council orders, to engage the services of a contractor for the purpose of roping off various streets in the City of Boston which are to be used for parades, races, etc. Although the total of these services amounts to over one thousand dollars (\$1,000) it has been my practice to give this work to the same man because of the emergency nature of the work and the efficiency with which he performs it. Many times it is necessary to award this contract with only two or three days' notice and therefore, for the reasons mentioned, I respectfully request permission to award these contracts, as in previous years, without public advertising.

Respectfully,

WILLIAM J. O'DONNELL,
City Messenger.

DEPARTMENT OF SCHOOL BUILDINGS.

BOSTON, July 7, 1950.

HON. JOHN B. HYNES,

Mayor of Boston.

DEAR MAYOR HYNES:

I respectfully request your Honor's approval of my selection of Coletti Brothers, 687 Boylston street, Boston, Mass., as architects for the work of altering twenty school buildings identified in a contract for architects' services as Group G and subdivided into subgroups G1, G2, G3, and G4.

The estimated cost of the construction and alteration work in the twenty buildings of Group G is two hundred twenty-six thousand and five hundred dollars (\$226,500) and the architects' fee is to be paid on the basis of 10 per cent of the cost of the completed construction and alteration work.

Based on the information above recorded, I respectfully request your Honor's approval to negotiate a contract for architects' services with Coletti Brothers, architects.

Respectfully yours,

JAMES H. MOONEY,
Superintendent of Construction.

PARK DEPARTMENT.

BOSTON, July 10, 1950.

HON. JOHN B. HYNES,

Mayor of Boston.

DEAR SIR:

The Board of Park Commissioners respectfully requests your permission to enter into a contract, without advertising for bids, with Drummey-Duffill, Inc., 80 Boylston street, Boston, architects-engineers, for architectural services for the

preparation of plans and specifications for the proposed shelter, sanitary, and tool house at the Cummings Estate, Woburn, Mass.

It is estimated that the erection of this proposed shelter will cost approximately \$22,000. The architects' fee is to be 6 per cent of the amount of the construction contract, or \$1,320. Drummey-Duffill, Inc., is a well-known firm of architects with considerable experience in preparing plans for buildings and structures of all character. We believe that nothing would be gained by advertising, as architects' fees are established at a standard rate.

The necessity for the erection of this building is that for several years we have been operating a very successful children's garden program on the Cummings Estate, supervised by the garden division of the Boston School Department. Children are taken daily from all sections of the city, by bus and train, and are instructed in the proper cultivation of gardens. This has been an unusually successful program, one in which both the School Department and the Park Department take great pride.

However, through all the years that this program has been in effect, the children have not been provided with proper facilities for their comfort. They have had to work in the hot sun all day, eat their lunches out in the open, and they have had little or no sanitary conveniences. Accordingly, it is only right that we should provide the proper facilities for them in connection with this program from which they get so much benefit.

The cost of the work will be charged to the Mary P. C. Cummings Trust Fund Income.

Respectfully yours,

FRANK R. KELLEY, *Chairman.*

PRINTING DEPARTMENT.

BOSTON, July 19, 1950.

HON. JOHN B. HYNES,

Mayor of Boston.

DEAR MR. MAYOR:

Your Honor's permission is respectfully requested to permit the Printing Department to award a contract, without advertising, to the Union Bookbinding Company, Inc., 156 Pearl street, Boston, Mass., in a sum not to exceed \$3,500.

This request is made in regard to the work of binding the Rules and Regulations of the Police Department after they are printed, namely, furnishing 4,000 "Numer Ring" binders, folding, gathering, trimming, inserting and punching with 12 holes the printed sheets to fit these binders.

The above-named company is an authorized agent for these binders, and to the best of my knowledge is the only firm in Boston that has a set of dies for punching 12 holes in these sheets to insure correct fit when they are inserted in the binders.

In view of these facts, and in consideration of the cost which I think is a fair price, I am of the opinion no advantage could be gained by advertising for bids.

Respectfully submitted,

JOHN J. TWOMEY,
Superintendent.

SUPPLY DEPARTMENT.

BOSTON, July 13, 1950.

HON. JOHN B. HYNES,

Mayor of Boston.

DEAR MR. MAYOR:

On April 14, 1950, bids on proposals for furnishing two (2) street flushers to the

Public Works Department were publicly opened and read in this office.

It is respectfully requested that I be granted authority to award a contract to White Motor Company, the lowest acceptable bidder, at the price as checked on the attached tabulation.

Total amount of contract for the two flushers will be \$17,297.48.

Respectfully yours,

JOHN V. MORAN,
Superintendent of Supplies.

BOSTON, July 17, 1950.

HON. JOHN B. HYNES,
Mayor of Boston.

DEAR MR. MAYOR:

This department is in receipt of a requisition from the Fire Department for the following:

Twenty Gamewell No. 7100 three-fold fire alarm boxes with Gamewell Herculite outside shells, quick action doors, and B.F.D. lock, etc.

These fire alarm boxes are manufactured by the Gamewell Company, and inasmuch as this concern is the only source of supply in this area, it is respectfully requested to award a contract, without public advertisement, to the Gamewell Company.

Total amount of contract will be \$3,200.

Respectfully yours,

JOHN V. MORAN,
Superintendent of Supplies.

BOSTON, July 17, 1950.

HON. JOHN B. HYNES,
Mayor of Boston.

DEAR MR. MAYOR:

This department is in receipt of requisitions from the Boston City Hospital for hypodermic syringes in various sizes.

Inasmuch as the hospital is in dire need of these syringes, it is respectfully requested that authority be granted me to award a contract, without public advertisement, to T. J. Noonan Company for immediate delivery of these syringes.

Total amount of contract is not to exceed \$1,127.52.

Respectfully yours,

JOHN V. MORAN,
Superintendent of Supplies.

BOSTON, July 20, 1950.

HON. JOHN B. HYNES,
Mayor of Boston.

DEAR MR. MAYOR:

This department is in receipt of a requisition from the Water Division of the Public Works Department for the following:

Three hundred only, $\frac{3}{4}$ -inch curb cocks "Minneapolis Pattern" with ends fitted with $\frac{1}{4}$ -inch copper pipe couplings.

Three hundred only, $\frac{3}{4}$ -inch Boston style, long inlet high head corporation cocks for copper pipe.

It is respectfully requested to award a contract, without public advertisement, to Hays Manufacturing Company, the lowest bidder on informal quotations sent to several companies.

Total amount of contract will be \$1,083.

Respectfully yours,

JOHN V. MORAN,
Superintendent of Supplies.

BOSTON, July 20, 1950.

HON. JOHN B. HYNES,
Mayor of Boston.

DEAR MR. MAYOR:

This department is in receipt of a requisition from Long Island Hospital for the following:

One Frigidaire, or equal, Model 1MK500X Ice Maker.

Informal quotations for prices were solicited among several companies but Commercial Refrigeration Company was the only concern that responded.

Inasmuch as Commercial Refrigeration Company was the only bidder and also the only Frigidaire dealer that can render twenty-four-hour service, no advantage could be gained by publicly advertising for bids. It is therefore requested that I be granted authority to award a contract, without public advertisement, to Commercial Refrigeration Company at a total amount of \$1,454.50.

Respectfully yours,

JOHN V. MORAN,
Superintendent of Supplies.

BOSTON, July 20, 1950.

HON. JOHN B. HYNES,
Mayor of Boston.

DEAR MR. MAYOR:

Your approval is respectfully requested to award a contract, without public advertisement, to the Boston China Company for furnishing the following to the Boston City Hospital:

Five hundred and seventy-six aluminum pitchers, 2-quart, with cover, stencilled "B.C.H.," at \$3.25 each.

Boston China Company was the lowest bidder for the same type pitcher on a publicly opened bid of May 11, 1950. Inasmuch as Boston China Company are willing to furnish these additional pitchers at \$3.25 each, which is the same price as their public bid, no advantage will be gained by publicly advertising for bids at this time.

Total amount of contract will be \$1,872.

Respectfully yours,

JOHN V. MORAN,
Superintendent of Supplies.

BOSTON, July 21, 1950.

HON. JOHN B. HYNES,
Mayor of Boston.

DEAR MR. MAYOR:

This department is in receipt of a requisition from the Boston City Hospital for the following:

One new 1950 Plymouth Special Deluxe sedan with equipment as specified.

It is respectfully requested to award a contract, without public advertisement, to Milton Motor Mart, Inc. This company is in a position to make delivery of this car immediately and inasmuch as the City Hospital urgently needs the automobile it is my opinion that public advertisement for bids should be dispensed with at this time.

Total amount of contract will be as follows:

List price with equipment as specified, \$1,825; less taxes, \$89; less trade-in allowance on 1942 Chevrolet, \$200; net total, \$1,536.

Respectfully yours,

JOHN V. MORAN,
Superintendent of Supplies.

ADDITIONS TO CONTRACTS.

FIRE DEPARTMENT.

Approval has been given for the following addition and deduction in the contract of M. S. Kelliher Company dated December 30, 1949, for the erection of the new headquarters building and garage on Southampton street:

Addition No. 2.

Furnish labor and material for blocking up one door and relocation of same and the addition of glazed partition in lieu of solid partitions on the first floor of building to be occupied by the Electrical Inspection Division, \$487.

Deduction No. 2.

An allowance of \$1,000 was carried in the contract for the purchase of a control cabinet and timer for the fire station. The control cabinet will cost \$995 allowing a deduction of \$5.

Original contract, \$1,684,932; additions, Nos. 1 and 2, \$6,089.63; total contract with additions, \$1,691,021.63; deductions, Nos. 1 and 2, \$505; total contract with additions and deductions, \$1,690,516.63.

The foregoing addition is requested on the recommendation of the Superintendent of the Electrical Inspection Division in order to better utilize the floor space in the first floor section of the building which this division will occupy.

Although the foregoing work in the Electrical Inspection Division is in addition to the work contemplated in the original contract, it is incidental thereto.

Approval has been given for the following addition to the contract of J. A. Singarella Company dated December 7, 1949, for the erection of a new fire station, Engine 56, East Boston:

Addition No. 3.

Furnish labor and material to install a metal louver in the exterior wall of the stairhall; install a metal lath and cement plaster ceiling on the stair soffit and the ceilings of the toilet room and utility closet under the stairhall and make necessary changes in stair stringers to accommodate this work, \$325.

Original contract, \$126,790; addition, No. 1, dated April 24, 1950, \$327.80; addition, No. 2, dated July 7, 1950, \$287.32; total contract with additions, \$127,730.12; deduction, No. 1, dated July 10, 1950, \$265; total contract with additions, Nos. 1, 2 and 3, and deduction No. 1, \$127,465.12.

The foregoing changes have been ordered by the Building Department.

This work was not included in the original contract, but it is incidental thereto.

Approval has been given for the following deduction in the contract of J. A. Singarella Company dated December 7, 1949, for the erection of a new fire station, Engine 56, East Boston:

Deduction No. 1.

An allowance of \$500 was made in contract for furnishing and installation of

bronze letters over front entrance of fire station. However, a price of \$235 for this work has been received from the C. I. Brink Company leaving a balance to be deducted from the contract of \$265.

HOSPITAL DEPARTMENT.

Rich Brothers Construction Company, contractor for explosion proofing and acoustical treatment, Dowling Building, Boston City Hospital, has been instructed to add to the contract dated October 28, 1949, the sum of \$20,631 for restoring cooling equipment, consisting essentially of two 25-horsepower compressors with their accessories, including refrigerant and insulated refrigerant piping and fittings; two 25-ton compressors and two water chillers, at a cost of \$10,631; also restoring operating room lighting fixture allowance to the contract in the amount of \$11,000 and deducting \$1,000 previously added for plating operating room fixtures, making a net addition of \$10,000 to restore the allowance. See letter from Rich Brothers Construction Company, dated September 26, 1949, bound with the contract documents. Original contract, \$170,915; now added, \$20,631; corrected contract, \$191,546; total added, \$20,631.

EXTENSION OF CONTRACTS.

PARK DEPARTMENT.

Carriere Construction Company has been granted an extension of time until August 17, 1950, for completion of the contract for filling and grading proposed playground, Washington street, Dorchester.

PUBLIC WORKS DEPARTMENT.

Approval has been given for the extension of the time of completion of the contract with A. Singarella & Son, 22A Tremont street, Dorchester, for sheet asphalt pavement in Acacia road, Ansonia road, Freeman avenue, and Worley street, from July 31, 1950, to August 31, 1950. This extension was requested for the reason that the contractor has been delayed by failure of the company furnishing granite edgestone to make prompt deliveries.

CONTRACTS AMENDED.

C. C. Temple, 729 Boylston street, Boston, has been allowed to amend the contract to furnish all labor and materials required for alterations to the former Cataloguing and Classification Department, Central Library Building, Copley square, by striking out the words "on or before June 1, 1950" as they appear in Article II on page 10 of said contract, and substituting therefor the words "on or before August 1, 1950." This agreement is made subject to the provisions of the contract hereinbefore referred to.

Carriere Construction Company, 21 Glendower road, Roslindale, has been allowed to amend the contract for filling and grading of proposed playground, Washington street, Dorchester, at an estimated cost of \$41,896.

Certain additional work not originally contemplated by the parties, but incidental to the work included in the contract, has become necessary.

The aforesaid additional work is to be performed at the northwesterly corner (bottom of slope) of the proposed playground where underground water conditions are indicated.

Contract has been amended to include the following:

(a) Removal of all mucky, saturated, and unstable soil down to 1 foot below the invert grade of the adjacent catch basin in a triangular area, where directed, from the catch basin to and including approximately 80 feet of the base of the slope and deposit of this mound on other parts of the proposed playground where directed and where the deep fills are indicated.

(b) Backfilling of this excavated area, with bank run gravel to within 6 inches of the proposed finished grades.

(c) Furnish and lay along the bottom of the slope to the grades given a perforated and coated 10-inch metal culvert drain pipe to intercept the ground water, and from each end of this interceptor line connect and lay runoff lines of the same type and size drain pipe, connecting same with catch basin.

(d) Laying pipes upon a 6-inch bed of cracked stone, and trenches to be back-filled with same up to within 12 inches of the proposed finished grade.

The additional work, based upon the cost of labor plus 25 per cent, plus the cost of Workmen's Compensation and Public Liability Insurance and Social Security Tax, plus the cost of materials used and the rental cost of equipment, is estimated to cost \$2,600, making a new contract total cost of \$44,496.

AMENDED DAMAGES.

POPULATION DISTRIBUTION.

Another important population change has been the geographic redistribution of the American people. According to Census Bureau estimates for July 1, 1948, seven states had lost population since 1940, and 41 states and the District of Columbia had gained population. The most impressive population gains were in the West; the losses were concentrated in a few states in the upper Missouri River Basin and in the South.

You are hereby notified that the members of the committee representing the city, on the Labor Management Committee appointed by Mayor Curley and consisting of City Auditor Charles J. Fox, Budget Commissioner John A. Sullivan, and John J. Connelly, Executive Secretary of the Public Works Department, have resigned, and I have appointed City Clerk Walter J. Malloy, Principal Assessor John J. Chapman, and Arthur J. O'Keefe, Secretary of the Park Department, to their places on that committee.

Respectfully,
J. B. HYNES, Mayor.

Placed on file.

HONORING THE MEMORY OF JOHN J. DEFERRARI.

The following was received:

City of Boston,
Office of the Mayor, July 24, 1950.
To the City Council.
Gentlemen:

I transmit herewith communication from the secretary of the Boston School Committee relative to your order of June 5, 1950, concerning the setting aside a day in the coming year to give public recognition to the significance of the gift given by the late John J. DeFerrari.

Respectfully,
J. B. HYNES, Mayor.

City of Boston,
School Committee, July 20, 1950.
Hon. John B. Hynes,
Mayor of Boston.

Dear Sir:

At the conference of the School Committee held on July 10, 1950, the order of the City Council requesting the School Committee to set aside a day in the coming year to give public recognition to the significance of the gift of the late John J. DeFerrari to the Boston Public Library, was presented and ordered placed on file.

Very truly yours,
LOUISE KANE, Secretary.

NAMING OF INTERSECTIONS IN HONOR OF ROBERT E. LYNCH AND JOHN A. CRIPPS.

The following was received:

City of Boston,
Office of the Mayor, July 24, 1950.
To the City Council.
Gentlemen:

I transmit herewith communication from the secretary of the Committee to Memorialize Veterans relative to your orders of July 17, 1950, concerning the naming of intersections in Ward 22 in honor of Robert E. Lynch and John A. Cripps, deceased veterans of World War II.

Respectfully,
J. B. HYNES, Mayor.

City of Boston,
Street Laying-Out Department,
July 21, 1950.

Thomas G. J. Shannon,
Chief Clerk, Mayor's Office.

Dear Sir:

I have been directed by the chairman of the Committee to Memorialize Veterans to acknowledge receipt of two Council orders introduced by Councilor Shanley, requesting that the intersection of Adamson and Everett streets, Ward 22, be named in honor of Robert E. Lynch; also the intersection of Appian Way and Franklin street, Allston, be named in honor of John A. Cripps.

I beg to advise that the next meeting of the committee is scheduled to be held during October, at which time these requests will be given every consideration.

Very truly yours,
L. W. COSTELLO, Secretary.

LICENSING TOURIST GUIDES.

The following was received:

City of Boston,
Office of the Mayor, July 24, 1950.
To the City Council.
Gentlemen:

I transmit herewith communication from the Police Commissioner relative to your order of July 17, 1950, concerning the licensing of tourist guides in Boston.

Respectfully,
J. B. HYNES, Mayor.

City of Boston,
Police Department, July 21, 1950.
Hon. John B. Hynes,
Mayor of Boston.

Dear Sir:

I am in receipt of your letter dated July 19, 1950, enclosing City Council order of July 17, 1950, relating to the licensing of tourist guides in Boston.

For many years tourist guides have been operating in this city and occasionally complaints have been received from owners of licensed sightseeing companies regarding their activities. However, since this type of business is not controlled by the requirement of a license, the police are not in a position to regulate the persons soliciting business.

There is no authority in the Police Department at the present time to require tourist guides to be licensed, but it seems to me that they should be controlled by a license. Therefore it is respectfully suggested authority be granted to the Licensing Division of the Mayor's Office to properly license tourist guides.

Very truly yours,
T. F. SULLIVAN, Police Commissioner.

INVESTIGATION OF LITERATURE OF AMERICAN FASCIST UNION.

The following was received:

City of Boston,
Office of the Mayor, July 24, 1950.
To the City Council.
Gentlemen:

I transmit herewith, communication from the postmaster of the United States Postal Department relative to your order of July 17, 1950, concerning the investigation immediately of the literature of the American Fascist Union.

Respectfully,
J. B. HYNES, Mayor.

United States Post Office,
Boston, Mass., July 21, 1950.
Thomas G. J. Shannon,
Chief Clerk, Mayor's Office.

My dear Mr. Shannon:

This office acknowledges receipt of the order passed by the City Council on July 17, 1950, requesting investigation immediately of the literature of the American Fascist Union, with a view to preventing such literature from going through the mails and that the Federal Bureau of Investigation be requested to investigate the matter, advising that the American Fascist Union has a Box No. 46 address.

The Post Office Inspection Service has jurisdiction in matters of this type and therefore the order referred to has been sent to that service for attention.

Very truly yours,
F. H. CROWLEY, Postmaster.

FILL IN CITY PROPERTY ON WENONAH STREET, WARD 12.

The following was received:

City of Boston,
Office of the Mayor, July 24, 1950.
To the City Council.
Gentlemen:

I transmit herewith communication from the Health Commissioner relative to your order of July 10, 1950, concerning the filling in and making sanitary the city property on Wenonah street, in Ward 12.

Respectfully,
J. B. HYNES, Mayor.

City of Boston,
Health Department, July 20, 1950.
Hon. J. B. Hynes,
Mayor of Boston.

Dear Sir:

The City Council order of July 10, 1950, requesting to fill in and make sanitary the city property on Wenonah street, Ward 12, has received the attention of our Housing and Sanitation Division.

Our investigation shows that this parcel is owned by the City of Boston under the control of the Real Estate Commission. There has been indiscriminate dumping into this excavation. We have notified the Real Estate Commission under date of June 27 of the insanitary condition of this

lot and recommending that the remaining walls be razed and the excavation be properly filled and leveled.

Respectfully,
JOHN H. CAULEY, M.D., M.P.H.,
Health Commissioner.

Boston Traffic Commission,
July 21, 1950.

Hon. John B. Hynes,
Mayor of Boston.
Re: Council Order Dated June 26, 1950, Requesting That Wayne Street, in Ward 12, Be Made One Way, from Maple Street to Blue Hill Avenue.

Dear Sir:

In further reply to above Council order please be advised that at a meeting of the Boston Traffic Commission held on July 20, 1950, it was voted to approve the request contained therein.

The necessary signs designating this one way will be erected in the very near future.

Respectfully submitted,
WM. ARTHUR REILLY, Commissioner.

ARC LIGHTS ON FATHER BUCKLEY PLAYGROUND.

The following was received:

City of Boston,
Office of the Mayor, July 24, 1950.
To the City Council.
Gentlemen:

I transmit herewith communication from the Commissioner of Public Works relative to your order of June 26, 1950, concerning the installation of two arc lights on the Father Buckley Playground in Ward 6.

Respectfully,
J. B. HYNES, Mayor.

City of Boston,
Public Works Department,
July 13, 1950.

Mr. Thomas G. J. Shannon,
Chief Clerk, Mayor's Office.

Dear Sir:

I return herewith order in City Council that the Commissioner of Public Works install two arc lights on the Father Buckley Playground, in Ward 6, and this will advise you that a survey will be made of this area by the Lighting Service of the Public Works Department with a view to installing the requested lights, if necessary.

Very truly yours,
GEORGE G. HYLAND,
Commissioner of Public Works.

ARC LIGHT IN WALSH PLACE, WARD 3.

The following was received:

City of Boston,
Office of the Mayor, July 24, 1950.
To the City Council.
Gentlemen:

I transmit herewith communication from the Public Works Commissioner relative to your order of June 26, 1950, concerning the installation of an arc light in Walsh place, in the North End section of Ward 3.

Respectfully,
J. B. HYNES, Mayor.

City of Boston,
Public Works Department,
July 13, 1950.

Mr. Thomas G. J. Shannon,
Chief Clerk, Mayor's Office.

Dear Sir:

I return herewith order in City Council that the Commissioner of Public Works install an arc light in Walsh place, in the North End section of Ward 3, and this will advise you that Walsh place is located in the rear of No. 19 Clark street, City Proper.

To reach it you go through a passageway in building and at the present, there is an electric light attached to one of the houses. It really is a backyard and I do not think we should install a street lamp therein.

Very truly yours,
GEORGE G. HYLAND,
Commissioner of Public Works.

Note: All debate of City Council eliminated from proceedings in accordance with Chapter 447, Acts of 1947.

(Stenographic copy of such debate on file in office of City Clerk.)

CONGRESS VOTES COMPREHENSIVE HOUSING PROGRAM.

Under the new federal housing law signed by the President on July 15 federal funds for slum clearance and public housing are now available to cities that demonstrate a need for low-rent housing. Cities generally must supply proof of blight, a master redevelopment plan for the blighted area, and temporary housing for displaced slum dwellers. The new law provides advance money to help cities map plans. Many cities, especially those that have housing authorities, already have the necessary information and are among the first to qualify for federal aid. Among the cities that are making studies to determine their housing needs are Chicago, Louisville, Miami, Milwaukee, Philadelphia, and Boston. Legislatures of 42 states have authorized local governments to establish low-rent housing authorities, and at least 25 states have laws authorizing local participation in federally supported slum clearance projects. Iowa, Kansas, Oklahoma, South Dakota, Utah, and Wyoming do not as yet have housing-enabling laws that will qualify their cities for federal funds for public low-rent housing.

PROPOSALS FOR BITUMINOUS CONCRETE PAVEMENT IN MATTAKESSET STREET, WARD 18, FROM RIVER STREET TO EDGEWATER DRIVE, AND RIVER STREET, WARD 18, FROM HYDE PARK AVENUE TO 150 FEET NORTH OF CENTRAL AVENUE, AND INSTALLING NEW EDGESTONE IN BLUE HILL AVENUE, WARD 18, FROM NEW YORK, NEW HAVEN & HARTFORD RAILROAD BRIDGE TO BABSON STREET.

The Commissioner of Public Works of the City of Boston, office 508 City Hall Annex, invites proposals from citizens of the United States and corporations or other legal associations wherein the controlling interest to the extent of at least over one half thereof is owned by a citizen or citizens of the United States, for bituminous concrete pavement in Mattakeset street, etc. A bond will be required for doing the work of a surety company approved by the Commissioner in the sum of 100 per cent of the amount of the contract, to secure the due performance of the contract and the full protection of the city. Forms of proposals may be obtained at Room 508, City Hall Annex. Each proposal should be enclosed in an envelope, sealed, marked "Proposal for Bituminous Concrete Pavement in Mattakeset Street, etc.," and left at Room 508, fifth floor, City Hall Annex, before 12 m. of WEDNESDAY, AUGUST 16, 1950, with a certified check for NINE HUNDRED (900) DOLLARS, payable to and to become the property of the city if the proposal after acceptance is not carried out. The proposals will then be publicly opened and read in the hearing room of the Street Commissioners, Room 401, City Hall Annex.

Proposals must be made in duplicate, the sealed duplicate, without check, to be deposited by the bidder with the City Auditor previous to the time named for opening the bids. All proposals must be from bidders of record on file at Room 508, City Hall Annex. There will be a charge of two dollars (\$2) for each set of plans and specifications taken out. If the price of any item appears to the Commissioner to be abnormally high or low, or the bidder neglects to bid on each and every item, it may lead to the rejection of the proposal containing such price. The rate per hour of the wages to be paid to mechanics, teamsters, chauffeurs and laborers in the work to be performed under the contract shall not be less than the rate of wages in the schedule determined by the Commissioner of Labor and Industries of the Commonwealth, a copy of which schedule is annexed to the form of contract referred to herein. Copies of said schedule may be obtained, without cost, upon application therefor at the office of the Commissioner of Public Works. Before commencing performance of this contract, the Contractor shall provide by insurance for the payment of compensation and the furnishing of other benefits under chapter 152 of the General Laws (the Workmen's Compensation Law so called) to all persons to be employed under this contract and shall continue such insurance in full force and effect during the term of this contract. The undersigned reserves the right to reject any or all proposals or to award the contract as he deems best.

INVITATION FOR PROPOSALS FOR ELECTRICAL WORK AT BRANDEIS VOCATIONAL HIGH SCHOOL, 25 WARRENTON STREET, BOSTON, MASS.

The Superintendent of Construction of the Department of School Buildings, Boston, Mass., hereinafter referred to as the Awarding Authority, invites sealed proposals for electrical work at Brandeis Vocational High School, 25 Warrenton street, Boston, Mass.

Proposals will be received until 12 o'clock noon, Monday, August 14, 1950, at the office of the Awarding Authority, fourth floor, 26 Norman street, Boston, Mass., at which time and place they will be publicly opened and read aloud.

Proposals shall be submitted in duplicate on forms obtained from the Awarding Authority. Each copy of the proposal shall be properly filled out, signed and inclosed in a sealed envelope, plainly marked with the name of the bidder and the description of the work bid upon. One copy shall be filed at the office of the Awarding Authority, designated above, and the other copy shall be filed at the office of the City Auditor, City Hall, Boston, Mass. Both copies shall be filed before the time stated above for the opening of proposals.

A bid deposit in the form of cash or a certified check on, or a certificate of deposit issued by, a responsible bank or trust company, payable to the City of Boston, in the sum of \$250, shall be submitted with the copy of the proposal filed with the Awarding Authority. The bid deposit shall be in a separate envelope, properly marked. Bid bonds will not be accepted.

No bidder may withdraw his bid within thirty days after the actual date of the opening thereof.

The rate per hour of the wages to be paid to mechanics, teamsters, chauffeurs, and laborers in the work to be performed shall not be less than the rate of wages determined for this work by the Commissioner of Labor and Industries of the Commonwealth of Massachusetts under the provisions of General Laws (Ter. Ed.), chapter 149, section 26, a schedule of which appears in the specifications.

The successful bidder will be required to provide by insurance for the payment of compensation and the furnishing of other benefits under the Workmen's Compensation Law, General Laws (Ter. Ed.), chapter 152, to all persons to be employed under the contract, and sufficient proof of compliance with the foregoing stipulation will be required before commencing performance of this contract.

Specifications may be obtained at the office of the Awarding Authority on or after August 7, 1950.

A performance bond, issued by a surety company satisfactory to the Awarding Authority, in the full amount of the contract will be required of the successful general contractor.

The Awarding Authority reserves the right to waive any informalities and to reject any and all bids.

STUDY OF COST OF SANITARY AND ECONOMICAL DISPOSAL OF GARBAGE AND REFUSE APPROVED BY MAYOR AT REQUEST OF PUBLIC WORKS COMMISSIONER—SOLUTION OF PROBLEM URGENT TO SAFEGUARD CITY'S HEALTH AND SANITATION FOR NEXT 30 YEARS.

The following communication was received at the Mayor's office from the Commissioner of Public Works:

July 25, 1950.

HON. JOHN B. HYNES,

Mayor of Boston.

DEAR MR. MAYOR:

The most important problem confronting the department is the one involving the sanitary and economical disposal of garbage and refuse. The existing mainland dumps are fast approaching capacity and the system of dumping of refuse material at Spectacle Island will probably undergo a major and expensive change in the near future, due to the probability that the existing receiving stations at Fort Hill and Albany street will be

BOSTON MAKING PLANS TO INSTALL 3,000 MANUALLY-OPERATED MARK TIME HURRICANE PARKING METERS — MAYOR APPROVES REQUEST OF TRAFFIC COMMISSIONER — CONTRACT AWARDED AT \$52 PER METER.

Installation by the Traffic Commission will soon begin for 3,000 manually-operated Mark Time Hurricane parking meters. Mayor Hynes has signed the request of the Commission to purchase this type of meter from N. H. Rhodes, Incorporated, at the price of \$52 per meter. A letter of request from Commissioner William Arthur Reilly for permission to purchase, without the formality of public advertising, has been approved. The letter reads as follows:

BOSTON TRAFFIC COMMISSION,

BOSTON, July 28, 1950.

HON. JOHN B. HYNES,

Mayor of Boston.

DEAR MR. MAYOR:

Your permission is respectfully requested to dispense with public advertising and to award a contract to N. H. Rhodes, Incorporated, 30 Bartholomew avenue, Hartford, Conn., for 3,000 manually-operated Mark Time Hurricane parking meters at a cost of \$52 per

BUILDING OPERATIONS IN CITY OF BOSTON FOR FIRST SIX MONTHS PRESENT OPTIMISTIC PICTURE OF YEAR'S CONSTRUCTION WORK—VALUE OF WORK TOTALS \$6,000,000 MORE THAN FOR SAME PERIOD IN 1949, BUILDING COMMISSIONER HAS REPORTED TO MAYOR JOHN B. HYNES—GRAND TOTAL FOR PERIOD FIGURED AT \$26,891,882—REVENUE TO CITY AMOUNTS TO \$45,101.75, AS AGAINST \$33,789.50 FOR FIRST SIX MONTHS OF 1949.

Building operations for the first six months of 1950 are more than \$6,000,000 in value over the first six months of 1949, according to figures compiled by the Building Department and submitted to Mayor John B. Hynes.

Total new construction for the first six months amounted in value to \$16,011,235. Added to this sum were alterations and repairs, to the sum of \$5,923,592, making a total of \$21,934,827. Added to this were inside work, such as plumbing, gas fitting, elevators, and other work, amounting to \$4,057,005, making a grand total for the period of \$26,891,882. In 1949 the total new construction costs, according to permits issued, amounted to \$12,672,605; alterations and repairs came to \$4,216,062, for a total of \$16,888,667. These figures, added to the interior work, which amounted to \$3,836,534, brought the grand total up to \$20,725,251. The revenue accruing to the city from these operations for the first six months of this year has been figured at \$45,101.75, while last year the revenue amounted to \$33,789.50.

Full Year Promises Well.

While this indication of improvement in business construction is shown, 1950 was not the banner year for such work. The compilation shows that 1948 was the top year in the last five-year period, with a total of \$32,665,958, and a revenue return of \$45,182.50. The next greatest year in the past five for the first six-month period was in 1946, when the grand total of construction costs for which permits were issued amounted to \$30,884,105, from which the revenue derived amounted to \$42,023.50.

With the indications for the final six months of the year pointing to a slight lessening of building activity, it is still predicted that 1950, under the administration of Mayor Hynes, will prove to be one of the best years the city has experienced in some time.

Dwellings Largest Item.

There have been applications filed for 132 small or one-family dwellings, 20 two-family dwellings, and 47 large or four-or-more-family structures. Altogether there were 341 new dwellings contracted for, and 2,712 applications for alterations and repairs. There were applications for 58 garages and repair shops, 29 mercantile buildings, stores, restaurants, etc., and 16 storage buildings. The costs of some of the larger structures are as follows: a 120-family apartment house building, 330 Jamaicaaway, \$950,000; a 72-family apartment building, 21 Pond street, Jamaica Plain, \$750,000; manufacturing and storage building, Cummings street, Roxbury, \$200,000; public garage, 820 Cummins Highway, Mattapan, \$100,000; alterations, First National Bank, Milk street, \$150,000; service station, 1191 Boylston street, \$90,000; Y.M.C.A. building, 775 Washington street, Dorchester, \$70,000.

Figures compiled read as follows: See TABLES on pages 833 to 837.

"O Boston, fair City enthroned like a radiant queen,
From thy hills looking down on the ship-teeming plain of the ocean,
May thy future be bright, thy skies beam with light all serene,
Ensured by thy sons' and thy daughters' unselfish devotion!"

MAYOR APPROVES COST OF STUDY OF GARBAGE AND REFUSE DISPOSAL.

(Continued from page 817.)

abolished if the plan for constructing part of the Central Artery in Fort Point Channel and South Bay is adopted.

We have made a study as to the steps that we should take to provide for a continuity of sanitary garbage and refuse disposal in the event that Fort Point Channel is filled and utilized as a site for the new highway, and we have also studied the garbage and refuse disposal problem as it affects the entire city.

The problem is so important, however, that it is my unqualified opinion that an independent study of it should be made by a firm of qualified and reputable consulting engineers. I have, therefore, held conferences with two of the most reputable firms of consulting engineers in this city and have reviewed and discussed the entire matter with them, so that they would be thoroughly familiar with all aspects of the proposed study and investigation. I impressed on both of them that time was of the essence, because it is important for us to determine, at an early date, the system of garbage and refuse disposal that Boston should adopt in order to insure a sanitary and economical disposal method for the next 20 or 30 years.

As the result of my negotiations with these consultants, I have selected the firm of Thomas Worcester, Inc., to conduct the investigation and study. While cost is a factor in a contract of this kind, it is a minor one and is greatly outweighed by the thoroughness of the study, the amount of research undertaken, the analyses of the data obtained, and the soundness of the conclusions and recommendations. For these reasons, I informed the representatives of the latter-referenced firm that I would prefer to have them conduct the study on a cost plus basis, with the establishment of a maximum fee to be paid by the city. It is difficult to determine, within a reasonable degree of accuracy, the cost of a study of this kind, and, in my opinion, the establishment of a fixed fee might tend to affect the thoroughness of such an important study. A contract awarded on a cost plus basis will permit the department greater freedom, in the event that we should want the consultant to make further and more detailed studies of various items or aspects of the investigation than thought necessary by said consultant. The direction of the entire study will be more effectively under my control on a cost plus contract than if the contractor were engaged on a fixed fee basis, which would require the inclusion in the contract specifications of all specific matters or items that the consultant was required to study and report upon.

This study is so important that I do not feel that we should permit anything to interfere with our obtaining a report that will include definite and positive recommendations — with substantiating reasons — as to the system of garbage and refuse disposal that the city should adopt to insure a satisfactory solution to this problem for the next 20 or 30 years. To insure a thorough and complete study, therefore, I established a maximum fee that was considerably higher than the cost as estimated by the representatives of the above-referenced firm. I have complete confidence in the integrity of that firm and I know that the final cost

to the city will be reasonable and proper, and will represent value received for service rendered.

A contract of this kind should be awarded on the basis of faith, and if I did not have absolute confidence in the firm of Thomas Worcester, Inc., I would not have negotiated with its representatives in the first instance. Incidentally, this is the type of contract that should not, in my opinion, be awarded as the result of publicly advertising for proposals.

I respectfully request, therefore, that you approve the awarding of a contract, without publicly advertising for bids, to the consulting engineering firm of Thomas Worcester, Inc., of 84 State street, Boston, on a cost plus basis, for conducting an investigation and study, and for the furnishing of a report with recommendations covering the disposal of garbage and refuse for the entire City of Boston, with the express understanding that the city's obligation will be limited to \$9,500. Of the latter-referenced amount, \$4,000 will be charged to the Central Office budget and the remainder of \$5,500 to the budget of the Sanitary Division.

Respectfully yours,

GEORGE G. HYLAND,
Commissioner of Public Works.

MAYOR APPROVES PURCHASE OF 3,000 PARKING METERS.

(Continued from page 817.)

meter completely installed. Payment is to be made within ten days after date of acceptance of installation, and the company warrants each and every meter against defective workmanship and material for a period of five (5) years.

The Boston Traffic Commission invited all meter companies in the United States to quote prices and to demonstrate their meters before the Commission. After a careful and complete study and investigation of all meters, both automatic and manually-operated types, the Commission voted for the manual type for the following reasons:

(1.) The 5,000 meters now in operation in Boston are of the manual type and, as Boston's motorists are educated to their use, it is considered to be in the public interest to retain uniformity of procedure in operation.

(2.) Manual-type mechanisms are substantially more simple than those of the automatic type and are therefore easier to maintain.

(3.) Installation of automatic meters would require additional man-hours for the winding of clock mechanisms in such meters.

The final selection of the Mark Time Hurricane parking meters was determined by the following considerations:

(1.) The Commission's parking meter repair experts advised the members that the Mark Time Hurricane meter is mechanically the easiest and least costly to maintain.

(2.) The manual meters submitted by various manufacturers were not identical due to differences in exclusive patents and individual characteristics of appearance and design. N. H. Rhodes, Incorporated, is the only manufacturer of the Mark Time Hurricane parking meter and the only company submitting a bid to supply this instrument.

(3.) N. H. Rhodes, Incorporated, is the only bidder whose manufacturing

plant is in New England and, therefore, will be enabled to provide quick delivery of parts.

(4.) The price of the Mark Time Hurricane parking meter is only 27 cents higher than the lowest priced manual meter and this price differential is offset by the fact that the Mark Time Hurricane parking meter is guaranteed for five (5) years against defective workmanship and materials whereas the lower priced meter offered only a one (1) year guarantee.

In view of the foregoing, therefore, no advantage would be derived from publicly advertising for bids.

Respectfully submitted,

WM. ARTHUR REILLY,
Commissioner.

MAYOR HYNES ACCEPTS "RAINY DAY" CHALLENGE OF MAYOR OF ST. PETERSBURG, FLORIDA.

Mayor Hynes on August 4 sent the following letter to the Honorable Stanley C. Minshall, Mayor of St. Petersburg, Florida:

I have your challenging letter of recent date, in which you are willing to wager a straw hat, size 7, that your fair city of St. Petersburg will not be visited by rain on September 1 of this year.

Your challenge is hereby accepted, and if rain does not fall on September 1, I will send you a lightweight raincoat made here in Boston, for, if it does not rain on that date, I suspect you will have need of a raincoat on some other day. The Bible tells us that the rain falls on the just and the unjust alike, and it is difficult for me to believe that everybody in St. Petersburg is in the first category, so, therefore, my offer to wager a raincoat against a straw hat is one that should be accepted by you with quick decision.

With best wishes to you, but with a sneaking suspicion that the "Sunshine City" on September 1 will be a recipient of the bounty of Jupe Pluvius, I am

Respectfully,

JOHN B. HYNES,
Mayor of Boston.

MAYOR NAMES BOARD OF TRUSTEES TO HAVE CHARGE OF AND TO DISPENSE FUNDS DERIVED FROM CHARITY FIELD DAY.

On August 4 the following statement was issued by the office of the Mayor: In order that the receipts of the Mayor's Charity Field Day may be expended with some system and order, and in order that a complete record of these expenditures may be kept, the Mayor on August 4 stated that a board of three trustees would be set up to care for the fund. The three trustees are: the Mayor, the City Treasurer, who will also act as treasurer of the fund, and Mr. Michael J. Costello, a teller in the Collecting Department.

It is the purpose of the trustees to have the fund audited on June 1 of next year so that a full accounting may be made public of the disposition of all monies received on the Mayor's Charity Field Day.

* Contract awarded.

WITHOUT ADVERTISING.

Upon varying dates as indicated the Mayor approved contracts with commercial houses, contractors, etc., for furnishing labor, supplies and materials. Communications from the heads of the various departments interested were as follows:

FIRE DEPARTMENT.

BOSTON, August 3, 1950.

HON. JOHN B. HYNES,

Mayor of Boston.

DEAR SIR:

Your Honor's permission is requested to award, without public advertising, a contract for making certain repairs to fireboat "Matthew J. Boyle," Engine Company 44, to the Bethlehem Steel Company, 256 Marginal street, East Boston, Mass., at an approximate cost of \$3,484 as follows:

I. Drydock and Underwater Repairs.

I-a. Drydock vessel, clean all surfaces under waterline, remove all scale around waterline and under ship's counter.

I-b. Paint bottom two coats anti-fouling paint; also paint in all draft marks.

I-c. Paint vessel two coats black from waterline to and including boat rails, also paint stack.

I-d. All defective rivets reset or replaced (if any) as directed by U. S. Steamboat Inspectors. Quote price per rivet.

I-e. Zinc plates renewed where needed. Quote price per pound.

I-f. All suction strainers (7) removed, suction cleaned in walls, and strainers replaced, including new bronze fastenings where necessary.

I-g. Propeller shaft checked for clearance; all nuts, etc., on rudder given attention.

I-h. Supply packing and repack the stern tube bearing on main engine shaft.

Total, \$652.

II. Work on 16 Valves and Asbestos Covering.

2-a. Open up, grind in four 10-inch fire pump suction valves, repack, and close up.

2-b. Open up, grind in two 14-inch condenser suction valves, repack, and close up.

2-c. Two toilet valves.

2-d. Two bilge syphon valves.

2-e. Three skin blow-off valves.

2-f. One bilge pump suction valve.

2-g. Two bottom blow-off valves forward and after boilers.

2-h. Repair all asbestos covering where broken on steam drums, etc.

Total, \$351.

III. Engine Room, Boiler Room, and Dock Work.

3-a. Take up slack in steering chains.

3-b. Repair speaking tubes in engine room.

3-c. Remove loose patch in side wall of forward boiler, replace with new patch.

3-d. Renew gasket, main stop-valve bonnet, forward boiler.

3-e. Renew gasket, stop-valve bonnet in toilet room.

3-f. Renew gasket, auxiliary stop-valve bonnet, forward boiler.

3-g. Calk air spaces between headers of forward and after boilers.

3-h. Reducing valve to main steam engine removed to shop, repair and make in good working order.

3-i. Remove reducing valve on auxiliary line in engine room and replace with new valve of similar requirements.

3-j. Starboard and port blowers removed to shop, renew bearings, balance up, and replace in good working order.

3-k. Renew piston rings on steam end of air pump and also renew metallic packing on rods.

3-l. Renew metallic packings (Tripp) on high and low pressure piston rods on main propulsion engine.

3-m. Repair and make in good running order two fuel pumps in boiler room.

3-n. Back pressure valve on feed water heater to be repaired and made in good running order.

3-o. Clean food water tanks and paint with "Apexia."

3-p. Remove, repair, and supply new parts where needed on two Hancock inspirators; replace in good working order.

3-q. Repitch the deck where needed.

3-r. Provide nonskids on plating on stand to food pumps and strainers, in boiler room.

Total, \$2,401.

Total bid \$3,485

All above work which requires the certification of the U. S. Steamboat Inspectors must meet with their requirements.

There will be an additional unit price of \$1.75 each for renewing shell rivets as required, exclusive of any removals in any way, and a unit price of \$1 per pound for renewing hull zinc plates.

One other joint bid was received in connection with this work as follows: J. S. Munro, Chelsea, Mass., and General Ship and Engine Works, 336 Border street, East Boston, for the above work, \$4,621.

The foregoing concerns are the only ones in Boston equipped to do the work who submitted bids on the entire repair work on the fireboat.

As this is an emergency repair job, and because of the fact that there are only two concerns equipped to do the work, no advantage would be gained by the city through publicly advertising for bids inasmuch as the repair work would be delayed, and it is an absolute necessity to have the fireboat back in service as quickly as possible for proper protection of the waterfront.

The Bethlehem Steel Company has performed various types of repair work on our fireboats during the past years, and their work has been first class and performed with a minimum of delay.

Respectfully yours,

M. T. KELLEHER,
Fire Commissioner.

HOSPITAL DEPARTMENT.

BOSTON, July 24, 1950.

HON. JOHN B. HYNES,
Mayor of Boston.

DEAR MR. MAYOR:

We respectfully request your permission to purchase from the William Barnstead Engineering Corporation, 39 Sudbury street, Boston, one sterilizer, autoclave, steam operated, dressing-type double wall, Pathological Building, Boston City Hospital, at a cost of \$1,495.

The above quoted price includes the furnishing of all labor and materials necessary for a complete installation together with an equipment guarantee for one year.

Informal bids were solicited and the William Barnstead Engineering Corporation submitted the lowest bid for this work.

Respectfully yours,

MARTIN J. ENGLISH, M.D.,
President, Board of Trustees.

PARK DEPARTMENT.

BOSTON, July 26, 1950.

HON. JOHN B. HYNES,
Mayor of Boston.

DEAR SIR:

On June 30, 1950, this department notified you that advertised proposals were publicly opened and read at this office on Tuesday, June 27, 1950, for furnishing and erecting wire fences at James F. Healey Playground, Roslindale, as follows:

Wickwire Spencer Steel Division, 80 Federal street, Boston, \$2,460; Boston Chain Link Fence Company, 350 Adams street, Dorchester, \$2,902.60; P. J. Dinn & Co., 278 Dover street, Boston, \$3,003.

By vote of the Board of Park Commissioners the contract was awarded to the low bidder, Wickwire Spencer Steel Division, for the approximate sum of \$2,460. The award received your approval under date of July 6, 1950.

The contract was then sent to the Wickwire Spencer Steel Division for signature but was returned to us signed by the Colorado Fuel and Iron Corporation, Denver, Colorado. It now appears that Wickwire Spencer Steel Division is a division of the Colorado Fuel and Iron Corporation with offices at 80 Federal street, Boston.

In order to take advantage of the lowest bid received for the work specified in the advertised proposals, I request permission to award the contract to the Colorado Fuel and Iron Corporation, Denver, Colorado, without again advertising for bids, for the sum of \$2,460, which is the price submitted by this corporation's Boston division. The cost is to be charged to the special appropriation, "Park and Playground Improvements, etc., Revenue."

Respectfully yours,

FRANK R. KELLEY,
Chairman.

SUPPLY DEPARTMENT.

BOSTON, July 31, 1950.

HON. JOHN B. HYNES,
Mayor of Boston.

DEAR MR. MAYOR:

This department is in receipt of a requisition from the Fire Department for Motorola radio equipment.

The Fire Department has tested and used radio equipment of several different manufacturers over a period of time, but the Motorola equipment has been found to be not only equal but superior to other

equipment and also best suited for use by the Fire Department.

It is therefore requested to award a contract, without public advertisement, to Motorola, Inc., Chicago, Illinois. Inasmuch as the equipment is manufactured by this company, no advantage could be gained by publicly advertising for bids.

Total amount of contract will be \$8,080, f.o.b. Chicago.

Respectfully yours,

JOHN V. MORAN,
Superintendent of Supplies.

AMENDED DAMAGES.

The Mayor has approved the following votes of the Board of Street Commissioners:

Voted, That the order of the Street Commissioners and Mayor of May 11, 1948, as amended, determining damages caused by the making of the public improvement consisting of the laying out of Brayton road, be, and the same hereby is, amended, by adding to said order the amount \$121.25, as an award to Richard A. Hanrahan and Margaret Hanrahan, husband and wife, as tenants by the entirety; that the amount \$121.25 be, and the same hereby is, awarded to Richard A. Hanrahan and Margaret Hanrahan, husband and wife, as tenants by the entirety, for the damages so sustained.

Voted, That the order of the Street Commissioners and Mayor of September 2, 1949, as amended, determining damages caused by the making of the public improvement consisting of the laying out of Lombard street, be, and the same hereby is, amended, by adding to said order the amount \$312, as an award to the Trustees of Donations to the Protestant Episcopal Church; that the amount \$312, be, and the same hereby is, awarded to the Trustees of Donations to the Protestant Episcopal Church for the damages so sustained.

Voted, That the order of the Street Commissioners and Mayor of September 30, 1948, determining that no person sustains damages by the making of the public improvement consisting of the laying out of Acadia road (formerly Acadia road), be, and the same hereby is, amended, by striking out in the first and second lines of said order the words "that no person sustains in his estate," and by striking out in the last line of said order the word "no"; that said order be further amended by adding thereto "Katherine E. Foley, \$347.26"; that the amount \$347.26 be, and the same hereby is, awarded to Katherine E. Foley for the damages sustained by the making of the said improvement.

CONSTRUCTION WORK.

The Mayor has approved the request of the Public Works Department for the following construction work:

A 15-inch pipe surface drain in Nelson street, between Vaughan avenue and Como road in the Hyde Park district at an estimated cost of \$4,000.

A manhole and 10-foot arch on old culvert in Commonwealth avenue (south side), 45 feet east of Amory street, Brookline, in the Brighton district, at an estimated cost of \$1,500.

A 12-inch pipe surface drain and four catch basins and connections in Imbaro road, between Norton street and Neponset River Parkway, in the Hyde Park district, at an estimated cost of \$6,000.

A 12-inch to 15-inch surface drain and 16 catch basins and connections in Como road, between Readville street and Eliot street, in the Hyde Park district, at an estimated cost of \$17,000.

The Acting Superintendent of Police will promulgate this order.

THOMAS F. SULLIVAN,
Police Commissioner.

RECREATION EXPENDITURES GROW.

Expenditures for community recreation facilities and service in 1917 communities in 1948 totaled \$93,800,000, double the amount reported in any previous year, according to the National Recreation Association. Nearly one-third of this amount was for land, buildings, and improvements, indicating that many cities are carrying out war-delayed plans to provide needed recreation areas and facilities. More than 84 per cent of the expenditures were met by local, county, or state sources in the forms of appropriations, tax levies, or bond issues. Only 4 per cent of the funds came from community funds or other private sources. The remaining 12 per cent was derived from fees and charges.

EXTENSION OF CONTRACTS.

DEPARTMENT OF SCHOOL BUILDINGS.

Approval has been given for the extension of the time of completion of the contract, approved December 30, 1949, with Michael Racioppi for alterations at the Wyman School, from July 15, 1950, to August 15, 1950. This extension was requested because of delay in getting material for fire escapes.

PUBLIC WORKS DEPARTMENT.

Approval has been given for the extension of the time of completion of the contract with National Gunite Corporation, 101 West Dedham street, Boston, dated May 17, 1950, for rebuilding brick sewer with gunite at Cathedral Housing Project (formerly East Dedham street), between Harrison avenue and a point 360 feet northerly, from July 17, 1950, to September 15, 1950. This extension was requested for the reason that it has required more time to clean the deposit from the sewer than was anticipated.

Approval has been given for the extension of the time of completion approved July 13, 1950, with Carriere Construction Company for water connections, hydrant changes, and building brick lowry hydrant chambers in City Proper and Dorchester water districts, from August 5, 1950, to September 9, 1950. This extension was requested for

the reason that it has been unusually difficult to shut down the distribution lines so that hospitals and rest houses on South Huntington avenue would be discommoded as little as possible while the work is going on.

CHANGES IN CONTRACTS.

POPULATION DISTRIBUTION.

Another important population change has been the geographic redistribution of the American people. According to Census Bureau estimates for July 1, 1948, seven states had lost population since 1940, and 41 states and the District of Columbia had gained population. The most impressive population gains were in the West; the losses were concentrated in a few states in the upper Missouri River Basin and in the South.

PROPOSALS FOR SHEET ASPHALT PAVEMENT IN ALBANY STREET, WARDS 3 AND 8, FROM BROADWAY TO MASSACHUSETTS AVENUE.

The Commissioner of Public Works of the City of Boston, office 508 City Hall Annex, invites proposals from citizens of the United States and corporations or other legal associations wherein the controlling interest to the extent of at least over one half thereof is owned by a citizen or citizens of the United States, for sheet asphalt pavement in Albany street, Wards 3 and 8, from Broadway to Massachusetts avenue. A bond will be required for doing the work of a surety company approved by the Commissioner in the sum of 100 per cent of the amount of the contract, to secure the due performance of the contract and the full protection of the city. Forms of proposals may be obtained at Room 508, City Hall Annex. Each proposal should be enclosed in an envelope, sealed, marked "Proposal for Sheet Asphalt Pavement in Albany Street, Wards 3 and 8, from Broadway to Massachusetts Avenue," and left at Room 508, fifth floor, City Hall Annex, before 12 M. of WEDNESDAY, AUGUST 23, 1950, with a certified check for FIVE THOUSAND (5,000) DOLLARS, payable to and to become the property of the city if the proposal after acceptance is not carried out. The proposals will then be publicly opened and read in the hearing room of the Street Commissioners, Room 401, City Hall Annex.

Proposals must be made in duplicate, the sealed duplicate, without check, to be deposited by the bidder with the City Auditor previous to the time named for opening the bids. All proposals must be from bidders of record on file at Room 508, City Hall Annex. There will be a charge of two dollars (\$2) for each set of plans and specifications taken out. If the price of any item appears to the Commissioner to be abnormally high or low, or the bidder neglects to bid on each and every item, it may lead to the rejection of the proposal containing such price. The rate per hour of the wages to be paid to mechanics, teamsters, chauffeurs and laborers in the work to be performed under the contract shall not be less than the rate of wages in the schedule determined by the Commissioner of Labor and Industries of the Commonwealth, a copy of which schedule is annexed to the form of contract referred to herein. Copies of said schedule may be obtained, without cost, upon application therefor at the office of the Commissioner of Public Works. Before commencing performance of this contract, the Contractor shall provide by insurance for the payment of compensation and the furnishing of other benefits under chapter 152 of the General Laws (the Workmen's Compensation Law so called) to all persons to be employed under this contract, and shall continue such insurance in full force and effect during the term of this contract. The undersigned reserves the right to reject any or all proposals or to award the contract as he deems best.

MAYOR JOHN B. HYNES TAKES ACTION AGAINST CONTRACTORS WHOSE PAVING WORK FOR CITY THE FINANCE COMMISSION CHARGED WAS NOT UP TO SPECIFICATIONS—FOLLOWING REPORT AND RECOMMENDATIONS OF PUBLIC WORKS COMMISSIONER GEORGE G. HYLAND, TWO CASES ARE REFERRED TO LAW DEPARTMENT FOR CONSIDERATION, AND A THIRD HAS BEEN FREED OF ANY SERIOUS BLAME—COMMISSIONER HYLAND ALSO INTRODUCES PLAN TO ELIMINATE ANY FUTURE COLLUSION IF SUCH IS CONTEMPLATED.

MOVE MADE BY PUBLIC WORKS COMMISSIONER HYLAND TO TAKE CARE OF PATCH-PAVING WORK AND RECONSTRUCTION OF STREETS APPROVED BY MAYOR HYNES BY ISSUANCE OF SERVICE ORDERS TO SPEED OPERATIONS.

At the request of the Public Works Commissioner, George G. Hyland, Mayor John B. Hynes has approved plans outlined for street reconstruction and patch-paving work by issuing of service orders rather than the formality of readvertising. This is to facilitate the patch-paving work and to enable the department to see that streets are kept in the

PLANS MADE TO FACILITATE PATCH-PAVING WORK BY PUBLIC SERVICE CORPORATIONS WHO OPEN UP HIGHWAYS TO REPAIR OR INSTALL SERVICES.

Two contracting firms have been named by the Public Works Commissioner with the approval of the Mayor to do the city's patch-paving work where public service corporations have been forced to open up highways for repairs to their services to the city.

The letter of request for such approval by the Public Works Commissioner reads as follows:

CITY OF BOSTON,
PUBLIC WORKS DEPARTMENT.
July 12, 1950.

HON. JOHN B. HYNES,
Mayor of Boston.

DEAR MR. MAYOR:

At the present time, so-called patch-paving work—involving the restoration of areas opened by public service corporations in roadways surfaced with bituminous concrete and sheet asphalt—is being done in the two largest districts of the city by the John McCourt Company, of 910 Huntington avenue, and

(Continued on page 848.)

The following statement was issued from the office of the Mayor on August 14:

On July 26 the Finance Commission submitted a report on street and sidewalk work performed by the following contractors—James A. Susi, P. V. Barone, and J. P. Condon Corporation. In connection with this report disclosing various irregularities, the Commissioner of Public Works has submitted to me an analysis of the work done by these three contractors and recommendations with reference thereto.

It is the opinion of the Commissioner of Public Works that the work performed by James A. Susi on Emrose and Rangeley streets, Dorchester, was not done in accordance with the specifications of the contract, but substantial work was performed, leaving in doubt the question of whether the contractor is in debt to the city. This is a matter which necessarily requires study by the Law Department of the city, and it will be referred to that department for possible action.

On the section of the Finance Commission report concerning work done by P. V. Barone on Stoughton street, Dorchester, the Commissioner of Public Works finds no basis for legal action in that the Barone Company substantially, in his opinion, met the requirements of the contract.

Legal Action Suggested.

On the section of the report pertaining to J. P. Condon Corporation, for street work on Rockne, Codman, and Myrtlebank streets, Dorchester, the Commissioner of Public Works found that the work was unsatisfactory and that legal action should be taken to determine the city's rights in this instance.

The Public Works Commissioner has decided to penalize the engineer and inspector involved in these apparent derelictions by assigning each of them to other than contract work in the future. He takes this action because of the long service of these men and because he believes that they were not wholly responsible for the conditions that were allowed to exist. I concur with the decision of the Commissioner in this matter. The report of the Public Works Commissioner to me is a lengthy one and is summarized as follows:

The reports that the Finance Commission have submitted this year on street construction and reconstruction work performed under the previous administration have disclosed gross irregularities, many instances of dereliction of duty on the part of the engineers and inspectors of this department, and a total disregard of contract specifications on the part of some of the contractors involved. Deficiencies in thicknesses of pavements and failure to furnish materials provided under the contract, and for which they were paid, were all too common in connection with the street work reported by the Finance Commission. We shall always have the frailties of human nature to deal with in connection with contract work done for any municipality, but in order to close—insofar as it is possible to do so—all existing loopholes in our contract system, I have taken steps to insure proper prosecution of the work on the part of the contractors and to insure proper inspection and engineering work, including the preparation of proper estimates, on the part of employees of this department.

MAYOR HYNES TAKES ACTION AGAINST TWO CONTRACTORS — FINANCE COMMISSION ALLEGES WORK NOT UP TO SPECIFICATIONS.

(Continued from page 845.)

We now have adopted a policy of paying for roadway pavement material on a ton basis, rather than on a square yard basis, as heretofore. This will eliminate the possibility of the city's paying for materials not received, in the event that a contractor installs a pavement that is not up to the depth required under the contract provisions. We shall, of course, require the contractor to comply with the specifications concerning the depth of material, but, if for any reason the contractor does not furnish the full depth required, we will not be in the position of having paid for something not furnished by said contractor.

Inspectors Unaware.

In the course of my conferences with the various inspectors assigned to the street work, they generally stated that they did not know that the work was not being done in accordance with specifications, because they had no copy of the contract, and they claimed that in all instances they were totally unaware of what the contractor was being paid for. In order to prevent any recurrence of these conditions hereafter, instructions have been issued to the division engineer and the chief inspector to see that the inspector on every highway project has a set of specifications with him for ready reference at any time. I am also requiring the inspector on each particular project and the chief inspector to certify on each pay estimate that — to the best of their knowledge and belief — the pay quantities included in the estimate represent the actual work performed by the contractor. The carrying out of this policy should definitely eliminate the possibility of any contractor's getting paid for materials not furnished or for work not done by him.

Explicit directions have also been sent to all concerned that no changes affecting Article 2 of the contract document shall be made without the prior written approval of the undersigned, and I feel, therefore, that the possibility of making changes on the basis of verbal instructions, as brought out in the Finance Commission report, has been entirely eliminated.

In closing, I want to emphasize my belief that the inspectors and engineers assigned to the street projects under question last year were the tools, albeit willing ones, of higher-ups in the department. The contractors, in many cases, had a regular field day and had more to do, in certain instances, with running the jobs than the engineers. Many of the engineers and inspectors were victims of the times, and I am inclined, therefore, to be more lenient with them than I should be.

MAYOR APPROVES PLAN OF PUBLIC WORKS COMMISSIONER FOR RECONSTRUCTION OF STREETS AND PATCH-PAVING WORK.

(Continued from page 845.)

best condition. The letter of request approved by the Mayor from the commissioner reads as follows:

CITY OF BOSTON,
PUBLIC WORKS DEPARTMENT,
August 2, 1950.

HON. JOHN B. HYNES,
Mayor of Boston.

DEAR MR. MAYOR:

Under the provisions of the so-called five-year maintenance guaranty that is included in all of our street construction and reconstruction contracts, the city is obligated to have all pavement restoration work done—during the five-year period—by the original contractor who performed the street construction or reconstruction work covered by the contract. This pavement restoration work is made necessary, in general, by public service corporations and the Sewer and Water Divisions of this department, who

have occasion to open the pavements to maintain or repair underground structures.

The pavement restoration work is done at rates established by the undersigned, and in the case of openings made by the Water and Sewer Divisions, the schedule of rates is the same as the one in effect for all patch-paving work done by public service corporations on so-called nonguaranty streets. The current schedule was established by me on May 12 of this year.

I am writing to you concerning the pavement restoration work in order to clarify the situation insofar as it affects chapter 216 of the Acts of 1950, which requires, in substance, that all contracts shall be in writing when the amount involved is \$1,000 or more, or when said contract comes within the provisions of section 30 of the City Charter, which requires, in general, the obtaining of the approval of the Mayor in connection with any work or related work which it is estimated will amount to or exceed \$1,000. On pavement restoration work we are restricted, under the terms of the original contract, from having anyone do this work except the contractor to whom the original contract was awarded, and it is also generally impossible for us to determine the amount of the pave-

ment restoration work in a particular street during any calendar year. In addition, the patching of streets that are under guaranty can be considered as work that is done as the result of publicly advertising for proposals, because this work is provided for in the original contract.

I feel, however, that we should obtain blanket permission from your Honor to have all pavement restoration work on so-called guaranty streets done by the original contractor without again publicly advertising for bids, and I also feel that we should obtain your authority to issue service orders in amounts less than \$1,000 per service order for pavement restoration work involving each individual opening made under the provisions of a single permit. It is understood that we shall provide written contracts for pavement restoration work for a single opening where the amount involved will total \$1,000 or more; thereby coming within the scope of the provisions of the above-referenced chapter 216.

For reasons outlined hereinbefore, therefore, I respectfully request that you authorize this department, during the current year, to dispense with publicly advertising for bids, and to issue separate service orders in amounts of less than \$1,000 each to the so-called original contractor for pavement restoration work for each opening made under each individual permit in streets that are under guaranty. It is to be understood that the total of these individual service orders in a calendar year might exceed \$1,000, but, as stated, no service order will be issued if the anticipated cost of resurfacing an opening made by the permittee under one permit will be \$1,000 or more. In such cases, a written contract will be entered into.

Respectfully yours,
GEORGE G. HYLAND,
Commissioner of Public Works.

CIRCULAR LETTER NO. 25.

CITY OF BOSTON,
MAYOR'S OFFICE, August 4, 1950.
To All Department Heads.
GENTLEMEN:

In addition to the Civil Defense Act, chapter 639, An Act to Provide for the Safety of the Commonwealth During the Existence of an Emergency Resulting from Disaster or from Hostile Action, the Governor will shortly issue a series of Executive Orders in order that the Commonwealth may be closely coordinated. It is my belief that directives will be issued requiring a complete inventory of all equipment which can be used to meet emergency conditions in each of the vital services essential to Civilian Defense—services such as Police, Fire, Public Works, Health, etc.

I am therefore suggesting that department heads take such preparatory steps at this time as will facilitate the completion of such an inventory. In addition to inventory requirements, additional precautions should be taken by all department heads and by the personnel of the several departments to safeguard vital services.

Respectfully,
J. B. HYNES, Mayor.

MAYOR APPROVES TWO CONTRACTING FIRMS TO DO PATCH-PAVING.

(Continued from page 845.)

Baker & Co., 3475 Washington street, Jamaica Plain. The latter two referenced contractors have been designated by me to do this work for the corporations; the cost of the work being paid by said corporations.

In connection with the type of pavement restoration work that involves so-called "corporation cuts," it is most essential—for obvious reasons—also to restore, concurrently, the sheet asphalt and bituminous concrete areas removed by the Water Division of this department, in connection with the repair and maintenance of its underground structures. It would not be good policy, nor in the best interests of the motoring public, for the department to adopt a program for the restoration of pavements by one contractor on roadway areas opened by public service corporations and by another contractor for openings made by the Water Division.

I have therefore negotiated with the above-referenced contractors and they have agreed to restore pavements in roadway areas opened by the Water Division at a price approximately 27 per cent less than that established for pavement restoration work in areas opened by public service corporations. We are able to obtain this substantial reduction in price because these two contractors have their organization and equipment in operation, performing the pavement restoration work for the public service corporations and the additional expense involved in permanently resurfacing the so-called "water cuts" is far less than it would be if a contractor were engaged in resurfacing the latter-referenced cuts only. The above-referenced two contractors are among the best qualified in this city to do this type of work and the price for which they have agreed to do the work, in my opinion, is fair and reasonable, and no advantage will accrue to the city by publicly advertising for bids.

I respectfully request, therefore, that you authorize the awarding of a contract, without publicly advertising for bids, to John McCourt Company, 910 Huntington avenue, and to Baker & Co., Inc., 3475 Washington street, Jamaica Plain, for pavement restoration work in roadways where so-called "water cuts" have been made and which are surfaced with sheet asphalt or bituminous concrete; the work to be restricted to the sections of the city in which the contractors have been designated to do similar work for public service corporations. The contract awarded to the McCourt Company will not exceed \$20,000, and the contract to the Baker Company likewise will not exceed \$20,000. There are available appropriations in the budget to the Water Division to pay all contract costs.

Respectfully yours,

GEORGE G. HYLAND,
Commissioner of Public Works.

TO REMOVE DIVISIONAL ISLAND.

The Mayor has approved the following vote of the Board of Street Commissioners:

Voted, That this Board, having passed the order of notice relating to the public improvement, hereinafter described, and having caused a copy of said order to be published July 14, 15, 17, and 18, 1950,

in the *Boston Globe* and *Boston Herald*, two daily newspapers published in the City of Boston, and having given the public hearing, notice of which was given in said order, and being of the opinion that public necessity and convenience require, does hereby order that specific repairs be made in Columbus avenue, Boston Proper district, consisting of the removal of portion of existing divisional island between Clarendon street and Dartmouth street, as shown on a plan on file in the office of this department.

DEPARTMENT CHANGES.

The following changes in the number, rating and compensation of city employees have been made:

PUBLIC BUILDINGS DEPARTMENT.

Upon July 31 the Mayor approved a contract with the Industrial Welding Company as requested in the following letter:

BOSTON, July 31, 1950.

HON. JOHN B. HYNES,
Mayor of Boston.

DEAR MR. MAYOR:

On Monday, July 17, this department publicly opened and read bids for the removal of 180 defective tubes and replacing same with new electrunit steel tubes, or equal, in boiler No. 1 at the Archbishop J. J. Williams Municipal Building at the corner of Shawmut avenue and East Brookline street, with the following results:

Daniel Russell Boiler Works, Inc., \$2,079; Industrial Welding Company, \$2,272; The Hodge Boiler Works, \$2,275; C-W Boiler Manufacturing Company, \$2,293; Connecticut Boiler Repair & Manufacturing Company, \$2,319.97; Harding Welding Company, Inc., \$2,484.

The low bidder was the Daniel Russell Boiler Works, Inc., of 83-105 Boston

street, Boston. On that same day, I wrote you asking your permission to award this contract to the Russell Company.

On last Wednesday, July 26, Mr. H. Russell, in my office prior to signing contract informed me that he did not figure on tubes as specified and was planning to use a substitute. Mr. Russell did not comply with specifications in method of substitution, and further informs us in writing that the tube called for in contract cannot be furnished until December.

The Industrial Welding Company, who was the second lowest bidder, informs me in writing that they can furnish the tubes called for immediately.

In view of the above, I respectfully ask your permission to invalidate previous request to award this work to the Daniel Russell Boiler Works, and now award same to the Industrial Welding Company, in the sum of \$2,272.

The Industrial Welding Company can furnish tube specified immediately and time is an important factor in this contract. In my opinion, the best interests of the City of Boston will be protected in this manner.

Respectfully,

GEORGE P. DONOVAN,
Superintendent of Public Buildings.

Upon varying dates as indicated the Mayor approved contracts with commercial houses, contractors, etc., for furnishing labor, supplies, etc. Communications from the heads of the various departments interested were as follows:

INSTITUTIONS DEPARTMENT.

BOSTON, July 27, 1950.

HON. JOHN B. HYNES,

Mayor of Boston.

DEAR MR. MAYOR:

I have received notification from the architect that certain tile work on the

alterations being made on Ward 3. Long Island Hospital, was not included in the contract approved May 29, 1950.

This work was found to be necessary after the contract was awarded and work had begun. The amount of the work figured in the original estimate was not sufficient to meet the standards of a Class A hospital.

The subcontractor, Freeport Marble & Tile Company, are now performing their work at the hospital and have all the necessary equipment on hand. Because of the expense involved in transporting equipment from the mainland, the City of Boston would be best served by not advertising for new bids.

I respectfully request your permission to amend the contract of M. Solimando, 384 Columbia road, Dorchester, for alterations to Ward 3. Long Island Hospital, by the addition of tile work in the amount of \$1,485.

Respectfully yours,

JOHN R. MCGILLIVRAY,
Commissioner.

BOSTON, August 2, 1950.

HON. JOHN B. HYNES,
Mayor of Boston.

DEAR MR. MAYOR:

I respectfully request your Honor's permission to award a contract, without publicly advertising for bids, to John M. Gray for architectural services in connection with proposed general alterations in and upon the Administration Building at Long Island Hospital, Long Island, Boston Harbor, Boston, Mass.

The estimated cost of the proposed alteration work is \$90,000, and the architect will be paid a fee equal to 10 per cent of the actual total cost of these alterations.

In view of the professional nature of the services involved, it is felt that nothing would be gained by publicly advertising for bids.

Yours very truly,

JOHN R. MCGILLIVRAY,
Commissioner.

PUBLIC BUILDINGS DEPARTMENT.

BOSTON, August 2, 1950.

HON. JOHN B. HYNES,
Mayor of Boston.

DEAR MR. MAYOR:

Referring to my letter of June 6, 1950, asking your permission to contract with the Martin J. Kelley Company, Inc., 95 Prince street, Jamaica Plain, to do certain work to eliminate a water condition at the South Boston gymnasium in a sum not to exceed \$5,000.

At that time all that was possible to know was the fact that water was coming into the handball courts and conditions under the handball court floor and concrete was completely unknown. I emphasized the fact that this work was of an exploratory nature to determine the source of the trouble, its nature and its magnitude.

The work was started on June 26, 1950, and now it has progressed to the point where it is evident that the work cannot be completed within the specified amount of money.

When the work was authorized we were of the opinion that the source of this water was springs. During the course of the work as we dug down to bare the face of the front wall of the handball court we found that this water was coming down over the top of a hidden

ledge and was building up against this wall and seeking outlets under the steps and walls.

Upon determining that this was the source of the water coming into the floors or the handball courts rather than springs, we decided that the best way to handle it was to construct drainage trenches around the entire perimeter of these handball courts leading same out to the transverse trench which in turn leads into the sump pit.

By the above method of handling this water condition it will be no longer necessary to install a membrane as originally contemplated.

Many unforeseen difficulties have been encountered, for example, the material in deep trench was found to be clay containing great quantities of water. There have been cave-ins during progress of the work. Most of this excavated material had to be handled in buckets to remove it from trench and again loaded into truck. Concrete footings not shown on plans have been found extending into area of handball courts where it is necessary to construct drainage trenches to carry water.

The expenditure for three weeks, ending July 14, is approximately \$3,700. There remains yet to be done the construction of cement flooring for sealing of water in the two handball courts, the construction of a concrete pit to house sump pump, etc., laying the necessary pipes and backfilling with crushed stone, bank gravel, and a limited amount of excavated material. The replacing of the concrete slab flooring outside the handball courts, the installation of the necessary cover and frame for access to pump. The installation of Johns-Manville asphalt mastic flooring on the surface of the two handball courts, and the removal of all surplus excavated material and cleaning up of the premises.

I anticipate that this work will require approximately 4 (four) weeks more and cost an additional \$4,000 over and above the original \$5,000, making the total cost of this work \$9,000.

In view of the above, I respectfully request your permission to dispense with public advertising and to enter into a new contract with the Martin J. Kelley Company, Inc., to complete this work on a time and material basis in the sum of \$4,000. As explained above this work is open, excavated down to below grade of handball courts and in my opinion, it is extremely urgent that work be completed without any delay.

Respectfully yours,

GEORGE P. DONOVAN,
Superintendent of Public Buildings.

PUBLIC WORKS DEPARTMENT.

BOSTON, August 4, 1950.

HON. JOHN B. HYNES,
Mayor of Boston.

DEAR MR. MAYOR:

Your permission is respectfully requested to award contracts, without publicly advertising for bids, for refilling motor sweeper brooms to the following:

(a) New England Broom & Supply Company, 191 Forest Hills street, Jamaica Plain, in an amount not to exceed \$2,000.
(b) Everett Broom & Service Company, 296 Binney street, Cambridge, in an amount not to exceed \$2,000.

This permission is requested for the reason that these two concerns are the only ones in this area known by this department, from past experience, to furnish material and workmanship of the

highest quality in the work of refilling motor sweeper brooms.

The unit prices charged by both of these companies for refilling the motor sweeper brooms for the various types of sweepers are identical, and as follows:

Elgin, \$29; Austin-Western, \$24; Wayne, \$23.

It is necessary to have two concerns do this work in order to insure an adequate supply of brooms, so that the sweepers may be kept in operation at all times. Deliveries are to be completed not later than October 16, 1950, and will meet the city's needs for approximately two and one-half months.

It is not possible to state definitely at this time the city's total requirements in respect to the refilling of motor sweeper brooms for the remainder of the year; and, furthermore, I consider it doubtful whether these concerns are in a position to undertake larger contracts at this time in view of their outside concurrent commitments for this sort of work.

Respectfully yours,

GEORGE G. HYLAND,
Commissioner of Public Works.

SUPPLY DEPARTMENT.

BOSTON, August 2, 1950.

HON. JOHN B. HYNES,
Mayor of Boston.

DEAR MR. MAYOR:

This department is in receipt of a requisition from the Boston Traffic Commission for one (1) F-1 Ford half-ton panel truck with equipment as specified.

The Traffic Commission has requested delivery of the above as soon as possible. Owing to the unsettled condition of the automobile market at this time, it is requested that I be authorized to dispense with public advertisement and award a contract to Bowers Motor Sales, Inc., because they have this type of truck in stock and can make immediate delivery.

Total amount of contract will be \$1,046, less a 2 per cent cash discount for payment within ten days.

Respectfully yours,

JOHN V. MORAN,
Superintendent of Supplies.

BOSTON, August 9, 1950.

HON. JOHN B. HYNES,
Mayor of Boston.

DEAR MR. MAYOR:

This department is in receipt of a requisition from the George Robert White Fund for the purchase of nine (9) Royal typewriters to be used in the new Health Unit Building at the corner of Blue Hill avenue and Harvard street, Dorchester.

The prices on typewriters are standard and the Royal Typewriter Company is the only manufacturer of this make of machine. Your approval is requested to award a contract and orders, without public advertisement, to the Royal Typewriter Company for \$1,321.76.

Respectfully yours,

JOHN V. MORAN,
Superintendent of Supplies.

BOSTON, August 9, 1950.

HON. JOHN B. HYNES,
Mayor of Boston.

DEAR MR. MAYOR:

This department is in receipt of requisitions from the Penal Institutions Department, House of Correction, for miscellaneous machinery for use in the cutting room and shoe shops at Deer Island, needed to replace machinery destroyed by fire at that institution last

October. An appropriation has been approved for the purchase of this equipment under budget item "F-13."

Because of the urgent need for this material at Deer Island and also, because of the unsettled condition of prices and availability of this type of equipment at the present time, it is requested that I be authorized to dispense with public advertisement and award contracts and orders to the A. J. Mitchell Company, 67 Kingston street, Boston, and to the Singer Sewing Machine Company, Inc., 240 Congress street, Boston. These companies are sole agents for the equipment needed and could make delivery without delay.

Total amount of contracts: A. J. Mitchell Company, \$3,411.50 (covering delivery and installation); Singer Sewing Machine Company, \$5,852.75 (includes deduction of \$100. for trade-in on old machines).

Respectfully yours,

JOHN V. MORAN,
Superintendent of Supplies.

BOSTON, August 10, 1950.

HON. JOHN B. HYNES,
Mayor of Boston.

DEAR MR. MAYOR:

On July 3, 1950, your Honor approved a letter to award a contract, without further public advertisement, to the Milton Motor Mart, Inc., for furnishing one (1) Deluxe DeSoto, four-door sedan, to the Fire Department, in the amount of \$2,269.90.

The Milton Motor Mart, Inc., is unable to make immediate delivery on a Deluxe model but can furnish immediately a Custom DeSoto at an additional cost of \$62.10, or a total of \$2,332.90. The Fire Department urgently needs the vehicle and will accept the Custom model.

In my opinion no advantage would be gained by publicly advertising anew, as the original award was based on an informal proposal there having been no acceptable bids received on the Deluxe model when publicly advertised and the automobile market today is more unsettled than at the time of the original bid.

It is therefore requested that permission be granted to cancel the award of \$2,269.90 to the Milton Motor Mart, Inc., on July 3, 1950, and to award a contract, without public advertisement, to the Milton Motor Mart, Inc., for one Custom DeSoto, four-door sedan, at a total price of \$2,332, less 2 per cent cash discount for payment in ten days. This price includes the trade-in allowance of \$100 on Fire Department car No. 034.

Respectfully yours,

JOHN V. MORAN,
Superintendent of Supplies.

BOSTON, August 10, 1950.

HON. JOHN B. HYNES,
Mayor of Boston.

DEAR MR. MAYOR:

This department is in receipt of a requisition from the Boston Traffic Commission for two Eagle Signal Corporation traffic signal controllers for use at the intersections of Massachusetts avenue and Albany streets and at the Ambulance Station exit on Albany street, Boston.

It is respectfully requested that I be granted authority to issue an order, without public advertisement, to R. W. LeBaron, Inc., 9 Swan place, Arlington, direct agents for Eagle Signal Corporation, Moline, Illinois. No advantage would be

gained from a public advertisement for bids as Eagle Signal Corporation is sole manufacturer of this equipment.

Total amount of order will be \$1,101.

Respectfully yours,

JOHN V. MORAN,
Superintendent of Supplies.

DEDUCTION FROM CONTRACT.

DEPARTMENT OF SCHOOL BUILDINGS.

John J. Hourihan has been ordered to make the following deduction from the contract for the Savin Hill School:

Omit snowrail and dogs on lower roof, \$75, and the amount of \$75 will be deducted therefor, making the account as follows: Contract price, \$1,937; total deductions, \$75; amount of contract, \$1,862.

AMENDED DAMAGES.

The Mayor has approved the following votes of the Board of Street Commissioners:

Voted, That the order of the Street Commissioners and Mayor of September 16, 1948, as amended, determining damages caused by the making of the public improvement consisting of the laying out of Glenellen road, be, and the same, hereby is, amended, by adding to said order the amount \$100 as an award to John J. McCaffrey, Mary A. McCaffrey, and Joseph A. McCaffrey, as joint tenants; that the amount \$100 be, and the same hereby is, awarded to John J. McCaffrey, Mary A. McCaffrey, and Joseph A. McCaffrey, as joint tenants, for the damages so sustained.

Voted, That the order of the Street Commissioners and Mayor of June 16, 1949, as amended, determining damages caused by the making of the public improvement consisting of the laying out of Beechcroft street, be, and the same hereby is, amended, by adding to said order the amount \$947 as an award to Frank E. Hawkes and Edith Hawkes, husband and wife as tenants by the entirety; that the amount \$947 be, and the same hereby is, awarded to Frank E. Hawkes and Edith Hawkes, husband and wife as tenants by the entirety, for the damages so sustained.

EXTRA WORK UNDER CONTRACTS.

PUBLIC WORKS DEPARTMENT.

S. J. Tomasello Corporation has been directed to perform the following extra work under the contract for laying bituminous concrete pavement in Denby road, Eisen street, Gloria road, and Starr Lane, dated June 29, 1950. Items ordered: On Eisen street remove the existing granite slab steps and areaways; trim and remove old existing foundation in areaways and rebrick to proper subgrade to hold the proposed reinforced concrete slab sidewalk; replace old sidewalk over areaway with a reinforced concrete slab, for the sum of \$247.27. Estimated cost of extra work, \$247.27.

Andrew P. Keegan has been directed to perform the following extra work under the contract for sewerage works in New Haven street, Salman street, Vogel street, Riverview street, Stimson street, outlet in private land, and Belle avenue, West Roxbury, dated September 19, 1949. Items ordered: Remove and relay in new location about 573 linear

feet of 2-inch water pipe in Salman street, between Stimson street and 573 feet northerly, making connections and all incidental work, and including furnishing all materials, at an agreed price of \$1 per linear foot. Estimated cost of extra work, \$573.

TRAFFIC COMMISSION RULINGS.

Voted, That as urgently required by considerations of public safety and convenience, during the period of roadway reconstruction, estimated to be thirty (30) days, vehicles are excluded from the following street, block by block, when and where signs are in place, effective August 14, 1950:

Day Street, Roxbury.

From Centre street to Heath street.

Voted, That as urgently required by considerations of public safety and convenience, during the period of roadway resurfacing, estimated to be thirty (30) days, parking of vehicles is prohibited in the following street, when and where signs are in place, effective August 15, 1950:

Washington Street, Dorchester.

From Codman square to Columbia road.

POPULATION DISTRIBUTION.

Another important population change has been the geographic redistribution of the American people. According to Census Bureau estimates for July 1, 1948, seven states had lost population since 1940, and 41 states and the District of Columbia had gained population. The most impressive population gains were in the West; the losses were concentrated in a few states in the upper Missouri River Basin and in the South.

The proposals will then be publicly opened and read in the hearing room of the Street Commissioners, Room 401, City Hall Annex.

Proposals must be made in duplicate, the sealed duplicate, without check, to be deposited by the bidder with the City Auditor previous to the time named for opening the bids. All proposals must be from bidders of record on file at Room 503, City Hall Annex. There will be a charge of two dollars (\$2) for each set of plans and specifications taken out. If the price of any item appears to the Commissioner to be abnormally high or low, or the bidder neglects to bid on each and every item, it may lead to the rejection of the proposal containing such price. The rate per hour of the wages to be paid to mechanics, teamsters, chauffeurs and laborers in the work to be performed under the contract shall not be less than the rate of wages in the schedule determined by the Commissioner of Labor and Industries of the Commonwealth, a copy of which schedule is annexed to the form of contract referred to herein. Copies of said schedule may be obtained, without cost, upon application therefor at the office of the Commissioner of Public Works. Before commencing performance of this contract, the Contractor shall provide by insurance for the payment of compensation and the furnishing of other benefits under chapter 152 of the General Laws (the Workmen's Compensation Law so called) to all persons to be employed under this contract, and shall continue such insurance in full force and effect during the term of this contract. The undersigned reserves the right to reject any or all proposals or to award the contract as he deems best.

PROPOSALS FOR ARTIFICIAL STONE SIDEWALKS IN EAST FIFTH STREET, WARD 6, FROM G STREET TO I STREET (BOTH SIDES); EAST SECOND STREET, WARD 6, FROM N STREET TO P STREET (BOTH SIDES), AND EAST SIXTH STREET, WARD 6, FROM L STREET TO P STREET (BOTH SIDES), AND FROM P STREET TO FARRAGUT ROAD (NORTH SIDE).

The Commissioner of Public Works of the City of Boston, office 503 City Hall Annex, invites proposals from citizens of the United States and corporations or other legal associations wherein the controlling interest to the extent of at least over one half thereof is owned by a citizen or citizens of the United States, for artificial stone sidewalks in East Fifth street, Ward 6, etc. A bond will be required for doing the work of a surety company approved by the Commissioner in the sum of 100 per cent of the amount of the contract, to secure the due performance of the contract and the full protection of the city. Forms of proposals may be obtained at Room 503, City Hall Annex. Each proposal should be enclosed in an envelope, sealed, marked "Proposal for Artificial Stone Sidewalks in East Fifth Street, Ward 6, etc." and left at Room 503, fifth floor, City Hall Annex, before 12 M. of WEDNESDAY, AUGUST 30, 1950, with a certified check for ONE THOUSAND (1,000) DOLLARS, payable to and to become the property of the city if the proposal after acceptance is not carried out. The proposals will then be publicly opened and read in the hearing room of the Street Commissioners, Room 401, City Hall Annex.

Proposals must be made in duplicate, the sealed duplicate, without check, to be deposited by the bidder with the City Auditor previous to the time named for opening the bids. All proposals must be from bidders of record on file at Room 503, City Hall Annex. There will be a charge of two dollars (\$2) for each set of plans and specifications taken out. If the price of any item appears to the Commissioner to be abnormally high or low, or the bidder neglects to bid on each and every item, it may lead to the rejection of the proposal containing such price. The rate per hour of the wages to be paid to mechanics, teamsters, chauffeurs and laborers in the work to be performed under the contract shall not be less than the rate of wages in the schedule determined by the Commissioner of Labor and Industries of the Commonwealth, a copy of which schedule is annexed to the form of contract referred to herein. Copies of said schedule may be obtained, without cost, upon application therefor at the office of the Commissioner of Public Works. MAYOR HYNES MAKING NEW PLANS FOR STREET CONSTRUCTION TO BE INAUGURATED IN SPRING OF NEXT YEAR—AIM IS TO ELIMINATE PERFORMING STREET WORK WHEN SNOW BEGINS TO FALL—LONG-RANGE STUDIES BY PLANNING BOARD TO FACILITATE OPERATIONS.

Mayor John B. Hynes has announced that a five-year street construction program, the first segment of a master highway plan for Boston, will be put into effect next year.

The Mayor also explained that he plans to expand the City Planning Board so that it can carry out long-range studies. Present plans call for retaining an outside firm of consultant engineers to conduct the initial five-year street program.

This firm will work in conjunction with a committee composed of Public Works Commissioner George G. Hyland, Street Commissioner Gerald F. Scally, Park Commissioner Frank R. Kelley, and Thomas F. McDonough, chairman of the City Planning Board.

The city has 707 miles of streets, the Mayor stated, and must have a program to determine which require repair and where new ones are needed.

"As soon as the frost leaves the ground in early Spring, we can immediately put this program into effect and get our street construction under way," said his Honor. "This will eliminate doing street work in late November when the snow begins to fall."

PRAISE FOR NAVY YARD OFFICIALS AND CIVILIAN EMPLOYEES BESTOWED BY MAYOR HYNES—FOR 150TH ANNIVERSARY OF CHARLESTOWN NAVY YARD—JOINS IN MAKING AFFAIR HUGE SUCCESS BY FIREWORKS DISPLAY AND OTHER ENTERTAINMENT—FAMOUS NAVY BAND ON HAND TO SHARE IN ENTERTAINMENT.

Mayor John B. Hynes on August 19 issued a statement lauding the local Navy officials and civilian employees on the arrangements they are making to observe the 150th anniversary of the Charlestown Navy Yard during the coming week. A committee of leading naval officers and civilian employees has been developing an elaborate program of events in observance of the occasion for more than two months.

BOSTON, UNDER THE GUIDANCE OF MAYOR JOHN B. HYNES AND PARK COMMISSION CHAIRMAN FRANK R. KELLEY, MAKING 1950 BANNER YEAR IN PROVIDING RECREATION FACILITIES FOR CITIZENS—INTERESTING PROGRAMS, SCHEDULES, AND FACILITIES PROVIDED TO INTEREST ALL, WHETHER IN CHILDHOOD OR ADULT YEARS—ALL OPERATING ON PLAN MAKING FOR GREATEST ECONOMY, YET SATISFYING ALL DEMANDS—SURPASSES PROVISIONS OF MOST OTHER LARGE CITIES.

Under the direction of Mayor John B. Hynes and supervised by Frank R. Kelley, chairman of the Park Commission, and his associates, the year of 1950 will go down in the history of Boston recreation offerings to the citizens as the banner year.

Public facilities for recreation, operated and staffed jointly by the Park Department and School Department, showed greater usage in 1950 than in any previous year. In order to understand fully the recreation organization of Boston, the traditional alignment of responsibilities must be pointed out, and the effective results achieved.

Although the Park Department has under its control the playgrounds of the city and is responsible for their year-round maintenance, the School Department is charged with the responsibility for staffing these play areas, and for providing programs for the younger children under twelve years old. This system has been in effect since 1912, with the exception of the years of 1947 and 1948, when the Park Department directed the operation of the complete program. In the summer of 1949 the School Department reassumed direction of the play program.

The principal function of the Recreation Division of the Park Department has been the operation of mass recreation activities, highly organized, requiring fewer directing personnel, and operated on a city-wide scale. In the summer phase, the basis of participation in the park program is the organizing and supervising of baseball and softball leagues for adolescent boys and girls and adult men and women, the development of swimming competition at the municipal beaches and pools, outdoor boxing shows, fishing contests, baseball schools, and similar events, in which large numbers participate.

Special Mass Activities.

On the district level, in which the city is divided by the Park Recreation Division, there are special mass activities directed in which a district shows particular interest. For example, tennis tournaments are directed in areas where there is a demand for this sport, and contrasting sports programs are operated in other districts where there is local interest in a particular type of recreation.

In the operation of mass "basic" sports activities such as baseball, football, softball, and basketball, Boston is unique among major United States cities. Most large American cities maintain play areas as does the Park Department in Boston, but very few cities oversee the direction of mass competitive sports and organize them into leagues leading to city-wide championships as does Boston. Under the Park Department, any group may join the competitive sports program and be classified in a league of equal ability, be assigned to playing fields on a schedule, and have furnished competent officials. This idea is considered to be a real deterrent to juvenile delinquency, since any boy can release excess energy in a Park Department sport.

1950 BANNER YEAR IN PROVIDING RECREATIONAL PROGRAM FOR YOUNG AND OLD.

(Continued from page 869.)

Under the combined schools-park operation, Boston playgrounds and smaller play areas receive maximum usage, because in the mornings and afternoons the city's smaller children under School Department supervisors use the facilities, and during twilight and night hours the playgrounds are used by adolescent and adult competitive sports groups.

In the baseball operation, 24 leagues, embracing 196 teams, played 1,156 games, involving 3,100 players. One hundred and forty-four softball teams in 18 leagues played 686 games, involving 2,200 players. The foregoing figures do not include the hundreds of informal softball and baseball games for which permits are issued during the summer to groups which do not care to belong to a league and to play a scheduled series of games. Plans are made also on a like scale for winter recreation.

MAYOR HYNES SPEAKS AT 150TH ANNIVERSARY OF CHARLESTOWN NAVY YARD.

(Continued from page 869.)

Cooperating with the Navy in the promotion of the event is a committee of 100 prominent citizens, headed by Harry J. Blake, president of the Boston Chamber of Commerce. Mayor Hynes is honorary chairman of the committee.

The Mayor, in an effort to enhance the sesquicentennial program, has arranged a spectacular display of fireworks at the Charles River Basin for next Friday evening, when a public celebration of the event will be held. The Mayor has also arranged, through Congressman John W. McCormack, to have the famous Navy Band, stationed at Washington, present at the Shell for the occasion.

"The Charlestown Navy Yard, now officially known as the Boston Naval Shipyard," said Mayor Hynes, "was established by the Navy Department on August 26, 1800, for the purpose of providing service to the United States Fleet deemed vital to the security of the then young republic.

"Since then, the Yard has grown from a small band of shipbuilders and seven acres of land to a \$107,000,000 industrial establishment covering more than 130 acres of land, and currently employing more than 8,000 men and women.

"The shipyard has brought high honor to the City of Boston through the distinguished service it has given the community and the nation in both peace and war. It was the shipbuilders at the Charlestown Navy Yard who made victory possible in many important naval engagements. It is therefore most fitting and proper that the naval and civilian personnel engaged at the shipyard devote a week to paying tribute to the Yard and all it stands for on the occasion of its 150th birthday. I congratulate both the naval officials and the civilian personnel on their initiative, effort, and patriotism in paying honor to the parent of American Navy Yards.

"The week beginning August twentieth and continuing through the twenty-sixth will be known among the 'Navy Hands' as Boston Naval Shipyard Sesquicentennial Week, and I urge the citizens of Boston to participate in the public celebrations that are being arranged. When we pay honor to the Yard, we pay honor to the many thousands of our citizens who have served there, and who now comprise its corps of skilled and loyal servants working in our national defense."

MAYOR MAKING PLANS TO ENTERTAIN THOSE IN ARMED SERVICES THAT THEY MAY FIND CONGENIAL ATMOSPHERE AND ENTERTAINMENT.

Because of the increase in the armed forces of our country, which is a continuing process, there appears to be some need in the city for a central meeting place where the men in the armed services may meet and be entertained. In some cities in the country these centers have already been activated. To determine whether such a need exists in Boston at the present time, I am appointing the following gentlemen as a committee to survey the situation:

George Swartz, Chairman, formerly identified with the Jimmy Fund and the March of Dimes annual dinners.

Frank R. Kelley, Park Commissioner.
Frank X. Cotter, Veterans Services Commissioner.

Michael Kelleher, Fire Commissioner.
Chandler Bigelow, Bank Executive.

EAST BOSTON PLANNING TO EXCEL SELF IN PROVIDING SPECTACULAR COLUMBUS DAY ENTERTAINMENT AND PARADE.

This year East Boston promises to produce the largest, most complete, the most colorful and spectacular, and by far the best attended Columbus Day parade in the history of Boston. Frank Slimone, Chief Marshal, and his staff are leaving nothing undone that will contribute to the success of the day's observance.

The committee is receiving wholehearted cooperation from all organizations, big and small, and the Mayor's office stands ready to lend all the assistance possible.

Quite a number of people in the North End are helping out also to the end that this year the day will be one long to be remembered.

Next year East Boston will give all the aid that it can so that the North End celebration will also be a huge success.

The spirit of cooperation demonstrated from all sections has fired the enthusiasm of the committee and under such circumstances there can be no question of the outcome. Already groups from Re-

vere, Winthrop, Beachmont, Lynn, and several sections south of Boston have indicated their interest in the day and their intention to be in East Boston on the day, and beyond any question the parade will be viewed by the biggest crowd ever assembled to participate in the exercises.

BOSTON, August 15, 1950.

HON. JOHN B. HYNES,
Mayor of Boston.

DEAR MR. MAYOR:

In response to an advertisement in the *City Record* of July 22, 1950, the attached list of bids was received and publicly opened and read aloud on July 31, 1950, for cafeteria equipment for various schools:

After receiving bids I was informed that Items 2 to 16, inclusive, will be purchased through the Business Manager's office of the School Committee, leaving Item 1, 8 Kewanee dishwashing machines, to be purchased by this department.

I have rejected all bids on Items 2 to 16, inclusive, and, subject to your Honor's approval, I am awarding a contract to H. A. Johnson Company, 221 State street, Boston, Mass., the lowest responsible bidder, for 8 Kewanee dishwashing machines in the amount of \$4,760.

Respectfully yours,

JAMES H. MOONEY,
Superintendent of Construction.

Bids were as follows:

Mayor of Boston.

DEAR MR. MAYOR:

Your permission is respectfully requested to permit the Institutions Department to amend the contract of Construction Units, Inc., 294 Washington street, Boston, Mass., now existing, for the building of a laundry at the Long Island Hospital, Boston Harbor, Mass. The cost of the additional work will be \$6,717.80. The original contract is dated December 23, 1949.

I have been notified by the architects, John M. Gray Company, that the original contract did not call for a concrete floor in the basement of the building. The earth floor would not be suitable for any purpose. The concrete floor will be used for much-needed storage space. The cost of this item will be \$6,075.

A compressor for the laundry was originally placed in an unfavorable location. The cost of moving this will be \$350, as estimated by the P. J. Riley Company, subcontractor. The cost of the extra electrical equipment by the M. B. Foster Company, electrical subcontractor, will be \$448.

A 10 per cent profit figured on both items will be \$44.80.

The general contractor's work will be \$150.

Total additions to the contract will be \$6,717.80.

The John M. Gray Company, architects, approved this work for suitability, and the price is fair. The City Auditor, Charles J. Fox, has approved this work as to the availability of the appropriation. The Construction Units, Inc., is erecting this laundry and has available equipment at Long Island to complete the contract. Therefore, no advantage could be gained by publicly advertising this amendment to the original contract.

Respectfully yours,

JOHN R. MCGILLIVRAY,
Commissioner.

PUBLIC CELEBRATIONS.

Boston, August 15, 1950.

HON. JOHN B. HYNES,

Mayor of Boston.

DEAR MR. MAYOR:

Authority is hereby requested to award a contract, without advertising to Rockland Fireworks Company of Rockland, Mass., with a Boston office at 7 Water street, for furnishing a fireworks display in conjunction with the celebration of the One Hundred Fiftieth Birthday of the Boston Navy Yard.

The contract price for the display is \$1,500.

The display is to be made in the Charles River Basin on the evening of

August 25, 1950, or if inclement weather prevents the display on that evening, then on the evening of August 27, 1950.

Inasmuch as the personal expert services and high quality of materials necessary for a proper and safe fireworks display are not such as can be secured through public bidding, no advantage will be gained by advertising.

Very truly yours,

JOHN D. BROWN,

Director of Public Celebrations.

SUPPLY DEPARTMENT.

Boston, August 11, 1950.

HON. JOHN B. HYNES,

Mayor of Boston.

DEAR MR. MAYOR:

This department is in receipt of a requisition from the Boston Fire Department (Fire Alarm Division) for fire alarm equipment in the amount of \$1,277.50.

Permission is respectfully requested to award a contract and orders to the Gamewell Company, 1238 Chestnut street, Newton, Mass., without public advertisement, inasmuch as this company is the sole manufacturer of this type of equipment and no advantage would be gained through public advertisement.

Total amount of contract, \$1,277.50.

Respectfully yours,

JOHN V. MORAN,

Superintendent of Supplies.

Boston, August 14, 1950.

HON. JOHN B. HYNES,

Mayor of Boston.

DEAR MR. MAYOR:

This department is in receipt of a requisition from the Boston City Hospital for the following:

150 bolts gauze (soft-compress), 44 x 36 mesh, 36 inches wide, flat fanfold (10 bolts to carton).

Authority is respectfully requested to award a contract to Surgeons & Physicians Supply Company, one of the distributors for Bauer & Black gauze. Inasmuch as all distributors would quote the same price on the above, no advantage could be gained by publicly advertising for bids.

Total amount of contract will be \$2,981.25, less 2 per cent cash discount for payment within ten days.

Respectfully yours,

JOHN V. MORAN,

Superintendent of Supplies.

CHANGES IN CONTRACT.

INSTITUTIONS DEPARTMENT.

Construction Units, Inc., has been ordered to make the following changes in the contract for the Laundry Building, Long Island Hospital, dated December 23, 1949:

Furnish and install sterilizer, including car and transfer carriage, delivery to building, labor and material for installing necessary plumbing and heating, connection of special valves, etc., in accordance with quotation of P. J. Riley Company, dated July 12, \$4,670; general contractor's profit, 10 per cent, \$467; total, \$5,137.

Furnish and install Fairbanks platform scale No. 12143P2, \$625; complete installation of scale in accordance with

quotation of Construction Units, Inc., July 18, \$350; total, \$975.

Furnish and install Watthour meter in accordance with proposed quotation of Construction Units, Inc., dated June 23, 1950, M. B. Foster Electric Company, \$204; general contractor's profit, 10 per cent, \$20.40; total, \$224.40.

Furnish and install 3-inch water meter, including necessary valves and fittings for connecting and by-passing meter and main inlet water line, P. J. Riley Company, \$865; general contractor's profit, 10 per cent, \$86.50; total, \$951.50.

Total additions to contract, \$7,287.90.

Summary of Contract: Original contract, \$199,900; change order No. 1, add, \$7,287.90; total amount of contract to date, \$207,187.90.

EXTRA WORK UNDER CONTRACTS.

PUBLIC WORKS DEPARTMENT.

John McCourt Company has been directed to perform the following extra work under the contract for laying sheet asphalt pavement in Call street, Chelsea street, and Joiner street, dated April 25, 1950. Items ordered: Excavate by hand 80 cubic yards of earth from the high areas of the existing granite block pavement in Chelsea street. Price to be paid, the sum of \$3.50 per cubic yard. Estimated cost of extra work, \$301.

James A. Susi has been directed to perform the following extra work under the contract for laying sheet asphalt pavement in Hyde Park avenue and Walk Hill street, dated November 9, 1949. Items ordered: Remove one tree stump in Hyde Park avenue. Price to be paid, the lump sum of \$30. Estimated cost of extra work, \$30.

EXTENSION OF CONTRACTS.

INSTITUTIONS DEPARTMENT.

Construction Units, Inc., has been ordered to make the following change in the date of the contract for the incinerator at the Long Island Hospital, dated October 4, 1949. The date for completion of the contract is hereby extended to September 7, 1950.

There will be no change in the contract price. All other provisions of the contract not inconsistent herewith shall remain in full force and effect.

PUBLIC WORKS DEPARTMENT.

Approval has been given for the extension of the time of completion of the contract with McCulloch Manufacturing Company for furnishing labor to assemble gate valves and post hydrants, to September 1, 1950. This extension was requested for the reason that the delay in completing the contract was occasioned by the failure on the part of the city to furnish the necessary rough castings.

Approval has been given for the extension of the time of completion of the contract with Marinucci Brothers & Co., Inc., for deepening Fens Pond at Gate Houses, Roxbury, from July 15, 1950, to September 15, 1950. This extension was requested for the reason that the contractor was delayed in receiving parts to repair crane.

TRANSFERS OF APPROPRIATIONS.

The Mayor has approved the following request for transfers of appropriations:

PENAL INSTITUTIONS DEPARTMENT.

House of Correction.

From B-39, General Repairs, \$125, to C-17, Miscellaneous Equipment, \$125.

From B-42, Miscellaneous Services, \$900, to B-13, Chemicals and Disinfectants, \$900.

CLAIMS ALLOWED.

Upon recommendation of the Corporation Counsel, the Mayor has approved the following claims:

David I. Finnegan, 163 Train street, Dorchester, in the sum of \$300, as compensation for personal injuries caused by hole in sidewalk in front of 160 Westglow street, Dorchester, September 26, 1948.

Blue Hill Fruit Company, 1134A Blue Hill avenue, Mattapan, in the sum of \$475, as compensation for damage to property stored in basement of above premises caused by water from defective hydrant, May 7, 1948.

Dora C. Yeames, 66 Revere street, Boston, to be reimbursed in the sum of \$23.11, for expense incurred in repairing water pipes after new meter was installed by employees of the Water Division, April 14, 1950.

LAND-TAKING IN WEST ROXBURY.

The Mayor has approved the order of
the Board of Street Commissioners for
the taking of land for a public improve-
ment consisting of the laying out and
construction of Havey street, West Rox-
bury district, as a highway, from Dur-
nell avenue to Alder street, bounded and
described as follows:

A highway named Havey street is
hereby laid out, from Durnell avenue to
Alder street, and ordered constructed.

For the making of the aforesaid im-
provement, a taking is made in a parcel
of land supposed to belong to John
Blakemore, Lawrence Kelley, T. T., and
City of Boston, T. D.

Said parcel is bounded and described
as follows:

Northwesterly by the northwesterly
line of Havey street, as hereby laid out,
and by other land of said Blakemore
et al; thirty-seven and 56-100 feet;
northeasterly by Havey street, as hereby
laid out, thirty-three and 1-100 feet;
southeasterly by the southeasterly line
of Havey street, as hereby laid out, and

by other land of said Blakemore *et al*;
thirty-nine and 57-100 feet, and south-
westerly by Alder street, thirty-three
and 2-100 feet; containing one thousand
two hundred and seventy-three square
feet, more or less.

Said highway and the land, exclusive
of trees or structures standing upon or
affixed thereto, in which an easement
for street purposes is hereby taken, is
bounded and described as follows:

Northwesterly by the northwesterly
line of said highway, two hundred
seventy-six and 46-100 feet; south-
westerly by Alder street, thirty-three
and 2-100 feet; southeasterly by the
southeasterly line of Havey street, as
hereby laid out, two hundred forty-nine
and 55-100 feet; easterly by Durnell
avenue, forty-three and 34-100 feet.

Betterments are to be assessed for the
making of the aforesaid improvement.

Ordered, That this Board estimates
that the abutting lots of land situated
on both sides of Havey street, as laid
out under this order, will receive benefit
or advantage, beyond the general ad-
vantage to all real estate in said city,
from the improvement herein ordered,
each of said lots in the amount herein-
after respectively set against it; said
lots and the supposed owners thereof
being shown on the plan hereinbefore
referred to, and on file in the office of
this department.

PROCEEDINGS OF CITY COUNCIL.

Monday, July 31, 1950.

Regular meeting of the City Council held in the Council Chamber, City Hall, at 2 P.M., President HURLEY in the chair. Absent, Councilors Cantwell and Yerra.
The meeting was opened with the salute to the Flag.

REPAIRS TO DRINKING FOUNTAIN, ARMY BASE.

The following was received:

City of Boston,
Office of the Mayor, July 31, 1950.
To the City Council.
Gentlemen:

I transmit herewith communication from the Public Works Commissioner relative to your order of June 26, 1950, concerning the making of immediate repairs to the drinking fountain at the Army Base on Summer street.

Respectfully,
J. B. HYNES, Mayor.

City of Boston,
Public Works Department,
July 25, 1950.

Mr. Thomas G. J. Shannon,
Chief Clerk, Mayor's Office.

Dear Sir:

At its meeting on June 26, 1950, the City Council passed an order "That the Park Commission he requested, through his Honor the Mayor, to make immediate repairs to the drinking fountain at the Army Base on Summer street." Since the Park Department had no jurisdiction over this fountain, the chairman referred the order to this office.

The repairs that were necessary have been made and the fountain is now functioning properly.

Very truly yours,
GEORGE G. HYLAND,
Commissioner of Public Works.

Placed on file.

FILL IN CITY PROPERTY ON WENONAH STREET, WARD 12.

The following was received:

City of Boston,
Office of the Mayor, July 31, 1950.
To the City Council.
Gentlemen:

I transmit herewith communication from the Public Works Commissioner relative to your order of July 10, 1950, concerning the filling in and making sanitary the city property on Wenonah street in Ward 12.

Respectfully,
J. B. HYNES, Mayor.

City of Boston,
Public Works Department,
July 28, 1950.

Mr. Thomas G. J. Shannon,
Chief Clerk, Mayor's Office.

Dear Mr. Shannon:

This is in reference to the following order that was passed in the City Council under date of July 10:

"Ordered, That the Health Commissioner and the Public Works Commissioner he requested, through his Honor the Mayor, to fill in and make sanitary the city property on Wenonah street in Ward 12."

The above-referenced property is under the jurisdiction of the Board of Real Estate Commissioners and it is my understanding that it was formerly the site of the synagogue, which was razed. The Sanitary Division filled the old cellar hole with street sweepings with the result that the surface of the fill is in an unsatisfactory condition.

In view of this, it is my intention to have some clean surfacing material deposited over the area by the local district paving foreman.

Very truly yours,
GEORGE G. HYLAND,
Commissioner of Public Works.

Placed on file.

SEWAGE TREATMENT PLANT BEYOND MAINLAND OF CITY.

The following was received:

City of Boston,
Office of the Mayor, July 31, 1950.
To the City Council.
Gentlemen:

I transmit herewith communication from the Public Works Commissioner relative to

your order of July 17, 1950, concerning the erection of the new sewage treatment plant at a location beyond the mainland of the City of Boston in one of the islands of Boston Harbor.

Respectfully,
J. B. HYNES, Mayor.

City of Boston,
Public Works Department,
July 27, 1950.

Mr. Thomas G. J. Shannon,
Chief Clerk, Mayor's Office.

Dear Mr. Shannon:

This is in reference to the following order that was passed in the City Council under date of July 17:

"Ordered, That his Honor the Mayor direct the Commissioner of Public Works to negotiate with the Metropolitan District Commission for the erection of the new sewage treatment plant at a location beyond the mainland of the City of Boston in one of the islands of Boston Harbor."

It is my intention to comply, in substance, with the provisions of the above-referenced order, and I have already had a preliminary discussion concerning it with the chairman of the Metropolitan District Commission, William T. Morrissey.

The original plan provided for the locating of the settling tanks of the proposed sewage treatment plant in Moon Island but this plan was changed in favor of Calf Pasture by the previous administration.

Very truly yours,
GEORGE G. HYLAND,
Commissioner of Public Works.

Placed on file.

REMOVAL OF DRINKING FOUNTAIN FOR HORSES, FLOOD SQUARE.

The following was received:

City of Boston,
Office of the Mayor, July 31, 1950.
To the City Council.
Gentlemen:

I transmit herewith communication from the Public Works Commissioner relative to your order of July 17, 1950, concerning the removing of the drinking fountain for horses in Flood square, South Boston.

Respectfully,
J. B. HYNES, Mayor.

City of Boston,
Public Works Department,
July 26, 1950.

Mr. Thomas G. J. Shannon,
Chief Clerk, Mayor's Office.

Dear Sir:

This is in reference to the following order that was passed in the City Council under date of July 17:

"Ordered, That the Commissioner of Public Works be requested, through his Honor the Mayor, to remove the drinking fountain for horses in Flood square, South Boston, which has not been in use for upwards of thirty-five years, constitutes a traffic nuisance and causes injuries to children who climb on it and fall."

I am in complete agreement with the provisions of the above-referenced order and it is my intention to proceed with the removal of the fountain, if we can legally do so.

This fountain was a gift of one Warren F. Hall in 1912, and is made of cast stone. It is located partly in the roadway area, and is a definite hazard to motorists and children.

It is my intention, therefore, to request an opinion from the Corporation Counsel as to whether this department has the authority to remove it. If the opinion is in the affirmative, you may be assured that we will take immediate steps to provide for said removal.

Very truly yours,
GEORGE G. HYLAND,
Commissioner of Public Works.

Placed on file.

ACCEPT AND LAY OUT SUNNYSIDE AVENUE, WARD 18.

The following was received:

City of Boston,
Office of the Mayor, July 31, 1950.
To the City Council.
Gentlemen:

I transmit herewith communication from the chairman of the Board of Street Commissioners relative to your order of June 26, 1950, concerning the accepting and laying out of Sunnyside avenue, Ward 18.

Respectfully,
J. B. HYNES, Mayor.

City of Boston,
Street Laying-Out Department,
July 21, 1950.

Thomas G. J. Shannon,
Chief Clerk, Mayor's Office.

Dear Sir:

Reference is made to the following Council order.

"Ordered, That the Board of Street Commissioners he requested, through his Honor the Mayor, to accept and lay out Sunnyside avenue, Ward 18, as a public highway."

Sunnyside avenue, Hyde Park, a private way extends 560 feet northerly from River street to the Boston-Dedham boundary line. There are nine single and multiple family dwellings abutting this street. Most of these buildings were constructed 40 to 50 years ago.

It is estimated that the construction comprising bituminous concrete roadway and sidewalks with hip gutters would cost approximately \$8,000.

As our engineering division is now carrying a backlog of at least four months' work, a survey and plan of Sunnyside avenue could not be started before the winter season. We will, however, include this street in our program for 1951.

Very truly yours,
GERALD F. SCALLY, Chairman.

Placed on file.

ACCEPT AND LAY OUT HARVARD PARK, WARD 17.

The following was received:

City of Boston,
Office of the Mayor, July 31, 1950.
To the City Council.
Gentlemen:

I transmit herewith communication from the chairman of the Board of Street Commissioners relative to your order of July 17, 1950, concerning the accepting and laying out of Harvard park, Ward 17, as a public way.

Respectfully,
J. B. HYNES, Mayor.

City of Boston,
Street Laying-Out Department,
July 25, 1950.

Thomas G. J. Shannon,
Chief Clerk, Mayor's Office.

Dear Sir:

Reference is made to the following Council order dated July 17, 1950.

"Ordered, That the Board of Street Commissioners be requested, through his Honor the Mayor, to accept and lay out Harvard park, Ward 17, as a public way."

As soon as the necessary survey and plans can be completed, a public hearing will be advertised for the laying out and construction of this street.

Very truly yours,
GERALD F. SCALLY, Chairman.

CHANGE OF NAME OF HAYMARKET SQUARE TO CHRISTOPHER COLUMBUS CIRCLE.

The following was received:

City of Boston,
Office of the Mayor, July 31, 1950.
To the City Council.
Gentlemen:

I transmit herewith communication from the secretary of the Board of Street Commissioners relative to your order of July 24, 1950, concerning the changing of Haymarket square to Christopher Columbus Circle.

Respectfully,
J. B. HYNES, Mayor.

City of Boston,
Street Laying-Out Department,
July 31, 1950.

Thomas G. J. Shannon,
Chief Clerk, Mayor's Office.

Dear Sir:

I acknowledge for the Board receipt of your communication of July 27, enclosing Council order introduced by Councilor Lanigan requesting that the name of Haymarket square be changed to Christopher Columbus Circle.

Ordinarily, this would not be a function of this Board to either name or change the name of a square; however, in view of the fact that Haymarket square was laid out as a public way, this Board has jurisdiction in the matter.

Under chapter 67, section 2, Acts of 1880, and amendments thereto, changes of names of public ways shall take effect on the first

day of March of a given year, after a public hearing is held in the matter.

It has been the practice of this Board to hold advertised public hearings in February for changes in names of public ways to become effective on March 1st. Under the circumstances, this Board will be glad to give consideration to your request when the list of street name changes will be advertised for public hearings in February of 1951.

Very truly yours,

L. W. COSTELLO, Secretary.

STANDARDIZATION OF PARKING FEES.

The following was received:

City of Boston,

Office of the Mayor, July 31, 1950.

To the City Council.

Gentlemen:

I transmit herewith communication from the Corporation Counsel relative to your order of July 17, 1950, concerning the Law Department drawing up a legally effective ordinance for adoption by the City Council which would seek to standardize at a moderate charge the parking fees now charged by certain operators of open-air parking lots in the City of Boston.

Respectfully,

J. B. HYNES, Mayor.

City of Boston,

Law Department, July 24, 1950.

Hon. John B. Hynes,

Mayor of Boston.

Dear Mr. Mayor:

Your Honor has transmitted to me the following order passed by the City Council on July 17, 1950:

"Ordered, That his Honor the Mayor be requested to instruct the Law Department for the City of Boston to draw up a legally effective ordinance for adoption by the City Council which would seek to standardize at a moderate charge the parking fees now charged by certain operators of open-air parking lots in the City of Boston."

This is to advise you that the request contained in the above-quoted order is impossible of fulfillment because, so far as I have been able to ascertain, there is no statute enabling the passage of a legally effective ordinance which would regulate parking fees charged by persons conducting open-air parking spaces. In the absence of statute, a city or town has no power to fix prices. *Greene v. Mayor of Pittsburgh*, 219 Mass. 121, 126-127.

The result I have reached accords with opinions rendered by former Corporation Counsel Henry Parkman, Jr., on February 8, 1939, and by former Corporation Counsel Joseph A. Scolponeti on December 17, 1948. No useful purpose would appear to be served by restating at length here what was said in those opinions, the full text of which appear respectively in the Minutes of the City Council's meetings of February 14, 1939, and December 17, 1948.

Respectfully,

WILLIAM L. BAXTER,
Corporation Counsel.

EXTENSION OF BUS LINE TO FARRAGUT ROAD.

The following was received:

City of Boston,

Office of the Mayor, July 31, 1950.

To the City Council.

Gentlemen:

I transmit herewith communication from the General Manager of the Metropolitan Transit Authority relative to your order of July 10, 1950, concerning the extension of the bus line to Farragut road.

Respectfully,

J. B. HYNES, Mayor.

Metropolitan Transit Authority,

July 26, 1950.

Mr. Thomas G. J. Shannon,

Chief Clerk, Mayor's Office.

Dear Sir:

Consideration has been given by our Board of Trustees to the request contained in order of the City Council requesting that the Kneeland street-Bay View bus service be extended to Farragut road, City Point.

We now operate service to Farragut road, City Point, from Dudley street, from North Station via subway and Broadway Station, and from South Station via Summer Street Extension.

Extension of the bus service would involve an increase in operating expense which the trustees do not feel can be justified.

Very truly yours,

EDWARD DANA,
General Manager.

IMPROVEMENTS TO MARINE PARK.

The following was received:

City of Boston,

Office of the Mayor, July 31, 1950.

To the City Council.

Gentlemen:

I transmit herewith communication from the Metropolitan District Commissioner relative to your order of July 17, 1950, concerning the installation of amplifiers on the bandstand at Marine Park, and to open up the convenience station for men which has been closed all summer.

Respectfully,

J. B. HYNES, Mayor.

Commonwealth of Massachusetts,
Metropolitan District Commission,

July 27, 1950.

Mr. Thomas G. J. Shannon,

Chief Clerk, Mayor's Office.

Dear Mr. Shannon:

Receipt is acknowledged of your memorandum of July 19, with the accompanying copy of an order of your Honorable Council, introduced by Councilor Wenzler, suggesting that a public address system be installed at the Marine Park bandstand, and that the men's sanitary be opened at the same place.

I cannot quite understand the idea of a public address installation at the bandstand as the occasions when such a system would be needed there, would seem to be few indeed. In any event we have no funds available for such purposes. Our maintenance forces are now working on the sanitariums, trying to overcome the deplorable conditions in which they were turned over to us, and repairs are progressing satisfactorily. A part of the facilities on the women's side are now open, but it may be a while before the men's facilities are in order.

Very truly yours,

WILLIAM T. MORRISSEY, Commissioner.

READING MATERIAL FOR PATIENTS AT CITY HOSPITAL AND SANATORIUM.

Coun. BEADES, F. P. TRACEY, and SHANLEY offered the following:

Ordered, That the Board of Trustees of the Boston City Hospital be requested, through his Honor the Mayor, to designate one person at the City Hospital and also at the Sanatorium to receive reading materials donated by the public for the use of the tubercular patients, and that the public be informed where they may send these books in order to avoid confusion.

Passed under suspension of the rule.

PROCLAMATION OF BOSTON NAVAL SHIPYARD BIRTHDAY WEEK.

Coun. F. P. TRACEY and KINSELLA offered the following:

Resolved, That his Honor the Mayor proclaim the week of August 20, 1950, as "Boston Naval Shipyard Birthday Week," as a fitting tribute to those who now, as in the past have made possible the security and freedom of our nation and in honor of the 150th anniversary of the founding of the Boston Naval Shipyard.

In observation of the 150th birthday of the Boston Naval Shipyard the Naval authorities of the Boston Area have designated the week beginning August 20, 1950, as a period of ceremony and celebration to bring to public attention the glorious history of patriotic service and material endeavor performed in the interest of our nation's safety and welfare.

Especially, in these times of severe national crisis when our country's progress is imperiled, we must exert every effort to encourage and enthuse those elements engaged in this vital phase of our national security.

A program of interesting events and ceremonies has been planned by the Birthday Committee of the Boston Naval Shipyard, a program which will be long remembered by the grateful citizens of our community.

The resolution was adopted under suspension of the rule.

DEATH OF THOMAS J. KENNEY.

Coun. CANTWELL and BRYAN offered the following:

Whereas, The faithful service rendered to the members of the Boston City Council by Patrolman Thomas J. Kenney during the four-year period of his assignment to duty in the City Council Chambers, endeared him to all members of the Council; and

Whereas, His ready willingness to serve at all times, even beyond the call of his assigned duty, and his cheerful execution of every assignment given him, was accepted most cheerfully by all with whom he came in contact; therefore be it

Resolved, That the members of the Boston City Council, in meeting assembled, desire to extend to the widow of Patrolman Thomas J. Kenney, the heartfelt expression of their sympathy in this hour of her great loss, caused by the sudden death of her husband, Patrolman Thomas J. Kenney.

The resolution was adopted by a unanimous rising vote.

SMOKE AND SOOT NUISANCE, DORCHESTER LOWER MILLS.

Coun. FARIN offered the following:

Ordered, That his Honor the Mayor be requested to contact the Smoke Inspection Division of the Department of Public Utilities with a view to abating the smoke and soot nuisance caused by the smokestack of the Walter Baker Mills in Milton, which now enters the homes of people living in the Dorchester Lower Mills section of Boston.

Ordered, That the Health Commissioner of the City of Boston be requested, through his Honor the Mayor, to take immediate steps to abate the smoke and soot nuisance caused by the smokestack of the Boston Sanatorium on River street, Mattapan, which now enters the homes of people living in the neighborhood.

Severally passed under suspension of the rule.

REPAIR AND RESURFACE SIDEWALKS AND STREET, HEWES STREET, WARD 12.

Passed under suspension of the rule.

LINCOLN SCHOOL AS RECREATIONAL CENTER.

Coun. WENZLER offered the following:

Ordered, That the Boston School Committee be requested, through his Honor the Mayor, to consider the advisability of using the Lincoln School, on East Broadway, between I and K streets, Ward 6, as a recreational center. This building was taken over by the Troy Post, but they have not used it for some time.

Passed under suspension of the rule.

REMOVAL OF BRANCH OF TREE, FARRAGUT ROAD.

Coun. WENZLER offered the following: Ordered, That the Park Commission be requested, through his Honor the Mayor, to remove the branch of the tree that extends over the sidewalk at the corner of Farragut road, Sixth street, and Columbia road, Ward 6, before it causes injuries to pedestrians passing that location.

Passed under suspension of the rule.

AMPLIFIERS ON BANDSTAND, CITY POINT.

Coun. WENZLER offered the following: Ordered, That the Metropolitan District Commission be requested, through his Honor the Mayor, to install amplifiers on the bandstand at City Point so that the people who attend these weekly band concerts may be better able to fully enjoy them.

Passed under suspension of the rule.

PROHIBIT BUSES ON CHARTER STREET, NORTH END.

Coun. LANIGAN offered the following: Ordered, That the Boston Traffic Commission be requested, through his Honor the Mayor, to prohibit buses from traveling on Charter street, in the North End, as this is a narrow street and the operation of buses thereon jeopardizes the lives and safety of children.

Passed under suspension of the rule.

PROPOSALS FOR REPAIRING SIDEWALK ON WEST NEWTON STREET BRIDGE.

The Commissioner of Public Works of the City of Boston, office 508 City Hall Annex, invites proposals from citizens of the United States and corporations or other legal associations wherein the controlling interest to the extent of at least over one half thereof is owned by a citizen or citizens of the United States, for repairing sidewalk on West Newton Street Bridge. A bond will be required for doing the work of a surety company approved by the Commissioner in the sum of 100 per cent of the amount of the contract, to secure the due performance of the contract and the full protection of the city. Forms of proposals may be obtained at Room 508, City Hall Annex. Each proposal should be enclosed in an envelope, sealed, marked "Proposal for Repairing Sidewalk on West Newton Street Bridge," and left at Room 508, fifth floor, City Hall Annex, before 12 M. of WEDNESDAY, SEPTEMBER 6, 1950, with a certified check for TWO HUNDRED (200) DOLLARS, payable to and to become the property of the city if the proposal after acceptance is not carried out. The proposals will then be publicly opened and read in the hearing room of the Street Commissioners, Room 401, City Hall Annex.

Proposals must be made in duplicate, the sealed duplicate, without check, to be deposited by the bidder with the City Auditor previous to the time named for opening the bids. All proposals must be from bidders of record on file at Room 508, City Hall Annex. There will be a charge of two dollars (\$2) for each set of plans and specifications taken out. If the price of any item appears to the Commissioner to be abnormally high or low, or the bidder neglects to bid on each and every item, it may lead to the rejection of the proposal containing such price. The rate per hour of the wages to be paid to mechanics, teamsters, chauffeurs and laborers in the work to be performed under the contract shall not be less than the rate of wages in the schedule determined by the Commissioner of Labor and Industries of the Commonwealth, a copy of which schedule is annexed to the form of contract referred to herein. Copies of said schedule may be obtained, without cost, upon application therefor at the office of the Commissioner of Public Works. Before commencing performance of this contract, the Contractor shall provide by insurance for the payment of compensation and the furnishing of other benefits under chapter 152 of the General Laws (the Workmen's Compensation Law so called) to all persons to be employed under this contract, and shall continue such insurance in full force and effect during the term of this contract. The undersigned reserves the right to reject any or all proposals or to award the contract as he deems best.

The proposals will then be publicly opened and read in the hearing room of the Street Commissioners, Room 401, City Hall Annex.

Proposals must be made in duplicate, the sealed duplicate, without check, to be deposited by the bidder with the City Auditor previous to the time named for opening the bids. All proposals must be from bidders of record on file at Room 508, City Hall Annex. There will be a charge of two dollars (\$2) for each set of plans and specifications taken out. If the price of any item appears to the Commissioner to be abnormally high or low, or the bidder neglects to bid on each and every item, it may lead to the rejection of the proposal containing such price. The rate per hour of the wages to be paid to mechanics, teamsters, chauffeurs and laborers in the work to be performed under the contract shall not be less than the rate of wages in the schedule determined by the Commissioner of Labor and Industries of the Commonwealth, a copy of which schedule is annexed to the form of contract referred to herein. Copies of said schedule may be obtained, without cost, upon application therefor at the office of the Commissioner of Public Works. Before commencing performance of this contract, the Contractor shall provide by insurance for the payment of compensation and the furnishing of other benefits under chapter 152 of the General Laws (the Workmen's Compensation Law so called) to all persons to be employed under this contract and shall continue such insurance in full force and effect during the term of this contract. The undersigned reserves the right to reject any or all proposals or to award the contract as he deems best.

SATURDAY, SEPTEMBER 2, 1950.

No. 35

BOSTON IS PROUD OF ITS NAVAL SHIPYARD, FOR ITS GLORIOUS PAST AND ITS VIGOROUS PRESENT — MAYOR HYNES TELLS PATRIOTIC AUDIENCE GATHERED AT HATCH SHELL TO COMMEMORATE THE 150 YEARS OF SERVICE CONTRIBUTED THROUGH IT BY LOYAL OFFICERS AND WORKERS WHOSE SPIRIT, DEVOTION, AND PATRIOTISM HAVE GIVEN INSPIRATION TO ALL AMERICA.

Before a distinguished group of citizens and officials gathered at the Hatch Shell on Friday evening, August 25, to observe the 150th anniversary of Boston Naval Shipyard, Mayor Hynes spoke as follows:

This has been a notable, eventful day in the life of our city.

As we observe the 150th anniversary of the establishment of the Boston Naval Shipyard, we are enthralled and inspired as we recall to mind the stirring chapters of accomplishments of this ancient landmark in our ancient city.

No recounting of the history of Boston for the past century and a half would be complete unless that story was punctuated with the achievements and the growth of the Boston Naval Shipyard.

As Boston has grown and expanded in the past 150 years, so has the Naval Shipyard. As Boston has weathered the

NEW PAVING ORDERED FOR SIDEWALKS IN FRONT OF ST. THERESA'S PAROCHIAL SCHOOL TO PREVENT ACCIDENTS.

The Mayor has approved the following request of the Public Works Commissioner:

August 21, 1950.

HON. JOHN B. HYNES,
Mayor of Boston.

DEAR MR. MAYOR:

At the present time, St. Theresa's Parochial School, West Roxbury, is nearing completion, and it is expected that it will be ready for the opening of school sometime shortly after Labor Day.

It has been called to my attention that the existing bituminous and granolithic sidewalks in front of the school on both St. Theresa avenue and Pine Lodge road are in a particularly defective condition and should be entirely replaced with new granolithic.

It would be impossible for the department to advertise a contract for this work and have the work completed before the opening of school, and, in view of this, it is my opinion that the work

AMERICA WILL NEVER DIE WHILE MEN SUCH AS THOSE WHO GAVE BOSTON THE GREAT NAVY YARD LIVE AND OFFER LIFE ITSELF IN THE GREAT CAUSE OF HUMAN RIGHTS, MAYOR JOHN B. HYNES TELLS VAST AUDIENCE GATHERED TO DEDICATE THE WAR MEMORIAL OF THE CHARLESTOWN SHIPYARD — SHAFT COMMEMORATES LIVES, DEEDS, AND PATRIOTISM OF GOOD AMERICANS, ERECTED BY MEN OF YARD TO CELEBRATE 150 YEARS OF SERVICE — BOASTS OF BEING SECOND OLDEST YARD IN COUNTRY AND VITAL CENTER IN NATIONAL DEFENSE AND SECURITY.

In the exercises at the dedication of the War Memorial at the Navy Yard on Friday, August 25, Mayor John B. Hynes delivered the following address:

As Mayor of Boston, I am both happy and honored to participate in the dedication of the War Memorial of this Naval Shipyard.

To the men of this yard who are responsible for the erection of this memorial shaft, commemorating, as it does, the lives, the deeds, and the patriotism of good Americans, I extend my hearty congratulations.

This is an old naval shipyard — I believe the second oldest in our country. For 150 years the hammers have rung, the forges have been lighted, the rivets have been driven, and ships have left this yard, equipped to meet the fury of the seas, ready to meet the enemy in battle wherever he might be found.

For 150 years — throughout the War of 1812, the Civil War, the First World War, and the Second World War, and in lesser periods of emergency — this Boston Naval Shipyard has been a vital center in our scheme of national defense and security, a vital cog in the machinery of our ship of state.

Gift of Men and Material.

From this yard have gone, in generous supply, not only the finished ships of war, but the flesh and blood to man those ships — the courageous men who, on sea or land, were willing to bare their breasts to the onslaught of the enemy. Even as you men here today, they took pride in the strength, the skill, the knowledge they possessed, which shaped out of shapeless, unrelated, inanimate things, a throbbing, living, breathing ship to ride on the bosom of the seas, and protect the heart, the body, and the soul of our land. But on this day we do not merely honor their memories for the part they played in the glorious achievements of this ancient shipyard; we honor them more particularly because they answered to an even higher call of duty — the call to the colors in time of national need.

Their service to our nation was in the spirit of unselfish, undiluted Americanism — the kind of undiluted Americanism so essential in every hour of national peril. How surprised, how passionately angry they would be, were they to return to life and find, as we find so often, that there are so many persons in our land today whose Americanism is mixed with a strange solution, poisonous to the intellect and the will, and gushing in many instances from the intellectual sources from which we have a right to expect nothing should flow but the clear, cool, fragrant waters of pure Americanism.

"O Boston, fair City enthroned like a radiant queen,
From thy hills looking down on the ship-teeming plain of the ocean,
May thy future be bright, thy skies beam with light all serene,
Ensured by thy sons' and thy daughters' unselfish devotion!"

From Boston Centennial Poem by
NATHAN HASKELL DOLE

MAYOR HYNES ADDRESSES HUGE AUDIENCE GATHERED TO DEDICATE WAR MEMORIAL AT NAVY YARD.

Tribute to Brother Artisans.

These men to whom we pay tribute today, your departed brother artisans, were real Americans — real patriots. They did not openly embrace, but secretly scoff at, the blessings of freedom. They did not outwardly accept, but furtively abuse, the principles of liberty. They did not loudly shout for, but insidiously work to destroy, the guarantees of justice. These men, your departed brothers, were not that kind of Americans — they were ardent, true, and undeviating believers in the principles of freedom, liberty, and justice, upon which this nation was founded. They were wholesomely, wholeheartedly, and wholly the kind of Americans to whom you and I, today, as we honor them, can well say — to you men, who we pray are sharing the beauties of God's eternal paradise, and to those like you, we owe a debt of gratitude that can only be repaid by us if we, in our lives, follow your example of unabashed, undiluted Americanism — if we in our lives protect the great heritage which you guarded so zealously, and to preserve which you were willing to suffer and die. May the inspiration of your lives be the beacon light to guide us, the living, as we journey along the thorny pathways of life, and may this memorial shaft remind us that America will never die while men such as these we honor today live and offer life itself in the great cause of human rights.

should be started immediately to insure its completion at least several days before school opens.

I respectfully request, therefore, your authority to dispense with publicly advertising for bids — for reasons as stated above — and to approve the award of a contract to the Walsh Company, Inc., 55 Perham street, West Roxbury, in the total estimated amount of \$1,640.40, for the installation of artificial stone sidewalks in St. Theresa avenue and Pine Lodge road, West Roxbury, in front of the above-referenced parochial school.

The work will be done in accordance with our standard specifications and at unit prices established by the department

Very truly yours,

GEORGE G. HYLAND,
Commissioner of Public Works.

storms of the decades that have passed, so has the Naval Shipyard. As Boston has kept pace with the advances of science and engineering and civilization generally, so has the Naval Shipyard.

It is, and it has been, for generation upon generation, such an important part of the community life of this area that, without it, Boston would be like a giant ship, with a toy engine as its sole means of propulsion.

The Boston Naval Shipyard has become part of the very fabric of our civic garment. Its workers have been, and are today, a healthy part of the core of our community happiness and prosperity, and to them we raise our voices in praise

this night — the men of steel who, over the long years that have gone, and today, are producing the ships of steel which protect us in our national life, and to these men, both living and dead, Boston pays vocal and sincere tribute tonight.

We of Boston are proud of the Naval Shipyard — proud of its glorious past and its vigorous present — proud that it bears the name of our city — proud that today — as every day during the past 150 years, we can look to the Boston Naval Shipyard, its officers, and its loyal workers, not alone for protection, but for the kind of spirit, devotion, and patriotism which is such an inspiring example to all their brother Americans.

May I, in the name of all the citizens of Boston, express the hope that the Boston Naval Shipyard will continue to be, for all the years to come, a main artery through which will flow the life-blood of our city, our state, and our great and glorious nation.

MAYOR NAMES INSTITUTIONS COMMISSIONER JOHN R. MCGILLIVRAY TO REPRESENT CITY OF BOSTON AT MID-CENTURY WHITE HOUSE CONFERENCE IN DECEMBER.

With the approval of Mayor Hynes, Governor Dever has appointed John R. McGillivray, Commissioner of Institutions of the City of Boston, to the Mid-Century White House Conference to be held in December. The committee was originally appointed in 1949. Commissioner McGillivray is the first appointment of an official member of Mayor Hynes' cabinet.

This committee is appointed every ten years by the Governor to meet with the President of the United States to form policies for child care.

As Institutions Commissioner, Mr. McGillivray is the custodian of 1,300 foster children. Many improvements have been made recently in the Child Welfare Division for better living conditions and care of the children.

ADDITIONS TO CONTRACT.

FIRE DEPARTMENT.

Approval has been given for the following addition in the contract of M. S. Kelliher Company for the erection of the new headquarters building and garage on Southampton street:

Addition No. 3.

Furnish labor and material to install an 8-foot-wide all-metal door frame between the Machine Shop and Blacksmith Shop in the south portion of the building in lieu of the present 3-foot 8-inch door, \$181.09.

Original contract, \$1,684,932; additions Nos. 1, 2, and 3, \$6,270.72; total contract with additions, \$1,691,202.72; deductions Nos. 1 and 2, \$505; total contract with additions and deductions, \$1,690,697.72.

The foregoing addition is requested on the recommendation of the Superintendent of the Maintenance Division, as the present 3-foot 8-inch door is not wide enough to pass machinery through it.

Although the foregoing work between the Machine Shop and Blacksmith Shop in the south portion of the building is in addition to the work contemplated in the original contract, it is incidental thereto.

EXTENSION OF CONTRACT.

HOSPITAL DEPARTMENT.

Approval has been given for a further extension of time from July 25, 1950, to September 15, 1950, on contract of John Rugo for additions and alterations to Administration Building, Boston City Hospital. This further extension was requested because of the additions to the original contract.

ADDITIONS TO BUDGET.

FIRE DEPARTMENT.

Approval has been given for the following addition in the 1950 Fire Department budget:

Maintenance Division (Uniform Force).

Twelve engineers, Motor Squad, \$3,000 to \$3,500 a year, should be changed to read fifteen engineers, Motor Squad, \$3,000 to \$3,500 a year.

Three firemen from the Fire Fighting Force have been assigned to the Motor Squad of the department for some time, performing the duties of engineer, Motor Squad. These men are now paid at the rate of \$3,300 a year, while the engineers in the Motor Squad receive \$3,500 a year.

The members of the Motor Squad work a 48-hour week, the same as firemen in the Fire Fighting Force, in a 3-shift day, each shift being of eight hours duration.

These men respond to multiple alarms of fire at any time during the day or night, and do emergency repair work on all types of apparatus and motor vehicles, on the street, at fires, and in the department houses. They also operate the department wrecker, transfer apparatus from one section of the city to another, conduct pumping and other tests on new apparatus, etc.

Due to the shorter working hours of all firemen, under the 48-hour week, and the fact that the emergency services required of the Motor Squad have been increased, the assignment of three additional men on the Motor Squad is necessary.

HEALTH DEPARTMENT.

Approval has been given to make the following changes in the budget, Personal Service:

Twenty-one dentists to read 23 dentists.

Ten hygienists to read 11 hygienists.

Entrance salaries of the above dentists are to be at the rate of \$2,700 a year. Entrance salary of hygienist to be at the rate of \$1,800 a year.

These additional dentists and the hygienist will provide for service at a new dental clinic which is to be set up at Curtis Hall, Jamaica Plain.

TRAFFIC COMMISSION RULINGS.

Voted, That as urgently required by considerations of public safety and convenience, during the period of roadway resurfacing, estimated to be ten (10) days, vehicles are excluded from the following street, effective August 24, 1950:

Haviland Street, Roxbury.

From Massachusetts avenue to Hemenway street.

WITHDRAWING ORDER FOR ACQUISITION OF LAND FOR REFUSE DISPOSAL PURPOSES.

The following was received:

City of Boston,

Office of the Mayor, August 14, 1950.

To the City Council.

Gentlemen:

On March 13, 1950, I forwarded to your Honorable Body an order for the appropriation of \$100,000 from Sales of City Property for the purpose of purchasing of sites for incinerators or dumps in the City of Boston. No action has as yet been taken by your Body on this order.

I hereby withdraw the order and recommendation as submitted to your Honorable Body for the reason that the Public Works Commissioner has delegated to an engineering firm in the City of Boston the task of surveying the needs of the city with respect to dumping facilities. This report will not be ready for six months, more or less. In the meantime, this amount of money can be used to very good purpose for the purchase of very necessary traffic signal lights, and I have this day submitted to your Honorable Body an order to that effect.

Respectfully,

J. B. HYNES, Mayor.

USE OF PARKING METER RECEIPTS.

The following was received:

City of Boston,

Office of the Mayor, August 7, 1950.

To the City Council.

Gentlemen:

I transmit herewith communication from the Corporation Counsel relative to your orders of July 10, 1950, and July 24, 1950, concerning the holding of a conference for the purpose of deciding if money from parking meters can be used for the purpose of purchasing traffic lights; and the drafting of legislation relative to granting authority to spend the monies collected from parking meters for the purpose of purchasing traffic lights and other safety devices in order to expedite and insure the safety of the public of the City of Boston.

Respectfully,

J. B. HYNES, Mayor.

City of Boston,

Law Department, July 31, 1950.

Hon. John B. Hynes,
Mayor of Boston.

Dear Mr. Mayor:

Your Honor has transmitted to me the following orders passed by the City Council on July 10, 1950, and July 17, 1950, respectively:

"Ordered, That his Honor the Mayor request the Corporation Counsel, Traffic Commission, to hold a conference for the purpose of deciding if money from parking meters can be used for the purpose of purchasing traffic lights."

"Ordered, That the Corporation Counsel be requested, through his Honor the Mayor to draft legislation relative to granting authority to spend the monies collected from parking meters for the purpose of purchasing traffic lights and other safety devices in order to expedite and insure the safety of the public of the City of Boston."

As a matter of constitutional law, parking meter fees must be established at such rates that the revenue therefrom shall not exceed in the aggregate the cost of the installation, operation, maintenance, and general supervision of the parking meter system. Opinion of the Justices, 297 Mass. 559, 565. Traffic lights are neither a part of, nor incident to, the parking meter system. Their purpose is to control traffic in motion. Hence, the cost of their installation cannot, as a matter of constitutional law, be included in computing the maximum revenue which parking meter fees may be designed to produce.

I recognize that the above-quoted orders of the City Council concern the use of parking meter revenue rather than the rate of parking meter fees. As a practical matter, however, nothing would be gained by diverting parking meter revenue from the installation, operation, maintenance, and general supervision of the parking meter system to another purpose; for, since the maximum parking meter revenue cannot exceed the cost of the installation, operation, maintenance and general supervision of the parking meter system, all sums diverted would have to be restored from another source in order to meet the expenses of the parking meter system. The appropriation for the other purpose might just as well be from the other source in the first instance.

In the circumstances, I request to be excused from complying with the above-quoted orders of the City Council.

Respectfully,

WILLIAM L. BAXTER,
Corporation Counsel.

Office of the Mayor, August 21, 1950.

To the City Council.
Gentlemen:

I transmit herewith communication from the Public Works Commissioner relative to your order of May 22, 1950, concerning a retaining wall along the new road, namely, Jeremiah Clancy street.

Respectfully,

J. B. HYNES, Mayor.

City of Boston,
Public Works Department,
August 11, 1950.

Mr. Thomas G. J. Shannon,
Chief Clerk, Mayor's Office.

Dear Sir:

I return herewith order in City Council "that the Public Works Commissioner put a retaining wall along the new road, namely, Jeremiah Clancy street (now known as Clancy road). This wall should be put in where the new park is in the process of being built. Stones, soil, and debris are rolling down into the park where the road has been put in."

Upon investigation the assistant division engineer of the Bridge and Highway Division of the Public Works Department reports that a wall at this location is, in his opinion, unnecessary and would entail considerable expense.

He further states that the bank is graded and, when it is finished by the Park Department, it will eliminate any trouble from slides.

FURNISHING CITY COUNCILORS WITH COPIES OF CONTRACTS FOR STREET CONSTRUCTION.

The following was received:

City of Boston,
Office of the Mayor, August 7, 1950.

To the City Council.
Gentlemen:

I transmit herewith communication from the Public Works Commissioner relative to your order of July 24, 1950, concerning the furnishing each City Councilor with copies of contracts calling for street construction in their respective wards.

Respectfully,

J. B. HYNES, Mayor.

City of Boston,
Public Works Department,
August 7, 1950.

Thomas G. J. Shannon,
Chief Clerk, Mayor Office.

Dear Mr. Shannon:

This is in reference to the following order that was passed in the City Council under date of July 24:

"Ordered, That the Commissioner of Public Works be requested, through his Honor, the Mayor to furnish each City Councilor with copies of contracts calling for street construction in their respective wards."

While I am not opposed to complying with the provisions of the above order, I feel that the councilors are more interested in being notified of improvements to be effected in their wards before the work starts than they are in obtaining copies of the contracts. Copies of all contracts executed by this department are on file in the City Clerk's office and in the central office of this department, and they are available for inspection by anyone at any time.

In lieu, therefore, of forwarding contracts to the councilors, I shall have them notified of all contracts to be undertaken by the department at least three or four weeks before work actually starts.

SEEDING GRASS AND PLANTING TREES ON ISLAND ON COLUMBIA ROAD.

To the City Council.
Gentlemen:

I transmit herewith communication from the Public Works Commissioner relative to your order of July 24, 1950, concerning conferring with the State Public Works Department for the purpose of providing a seeded grass lane and the implanting of small trees on the island to be constructed on Columbia Road.

Respectfully,

J. B. HYNES, Mayor.

City of Boston,
Public Works Department,
August 7, 1950.

Thomas G. J. Shannon,
Chief Clerk, Mayor's Office.
Dear Mr. Shannon:

This is in reference to the following order that was passed in the City Council under date of July 24:

"Ordered, That the Commissioner of Public Works be requested, through his Honor the Mayor, to confer with the State Public Works Department for the purpose of providing a seeded grass lane and the implanting of small trees on the island to be constructed on Columbia road, work on which is now in progress."

The current contract provides for a seeded area in the divisional island from Washington street to Blue Hill avenue. We do not feel that it would be advisable to provide for grass in the island in the remaining section of Columbia road, from Washington street to Edward Everett square, due to the difficulty that we will experience in maintaining it in a good condition. It is almost impossible to maintain a grass area properly in a divisional island that, as in this case, is only seven feet wide for almost the entire length of the project. The engineers of the State Department of Public Works have had a great deal of experience with seeding narrow divisional islands and, in general, they are opposed to it. The maintenance costs are high, and the results are unsatisfactory. For that reason they were reluctant to include in the contract provisions for providing a seeded area in the divisional island from Washington street to Blue Hill avenue. However, the residents were very much in favor of providing grass on the island, and we acceded to their requests, although we do not believe that the results will be satisfactory. The general appearance of the island, however, will be much more attractive than the old street reservation.

I shall take up with the Park Commissioner the matter of planting trees in the island. If he approves such a proposal, we will make arrangements to have the tree pits dug and prepared under the current contract, with the understanding that the trees will be planted by employees of the Park Department, and with the further understanding that a type of tree will be provided which will not constitute, in years to come, a hazard to pedestrians and motorists.

Respectfully yours,
GEORGE G. HYLAND,
Commissioner of Public Works.

Office of the Mayor, August 7, 1950.

To the City Council.
Gentlemen:

I transmit herewith communication from the Public Works Commissioner relative to your order of July 31, 1950, concerning the repairing and resurfacing of the sidewalks and street on Hewes street, Ward 12.

Respectfully,
J. B. HYNES, Mayor.

City of Boston,
Public Works Department,
August 7, 1950.

Thomas G. J. Shannon,
Chief Clerk, Mayor's Office.
Dear Mr. Shannon:

This is in reference to the following order that was passed in the City Council under date of July 31:

"Ordered, That the Public Works Commissioner be requested, through his Honor the Mayor, to repair and resurface the sidewalks and street on Hewes street, Ward 12."

The reconstruction of the sidewalk and roadway areas of the above-referenced street will be considered for inclusion in this year's street construction program.

Respectfully yours,
GEORGE G. HYLAND,
Commissioner of Public Works.

Gentlemen:

I transmit herewith communication from the Public Works Commissioner relative to your order of July 31, 1950, concerning the repairing of Washington street, from Eggleston square to Forest Hills.

Respectfully,
J. B. HYNES, Mayor.

City of Boston,
Public Works Department,
August 7, 1950.

Thomas G. J. Shannon,
Chief Clerk, Mayor's Office.

Dear Mr. Shannon:

This is in reference to the following order that was passed in the City Council under date of July 31:

"Ordered, That the Commissioner of Public Works be requested, through his Honor the Mayor, to repair Washington street, from Eggleston square to Forest Hills; and be it further

"Ordered, That the Trustees of the Metropolitan Transit Authority be requested, through his Honor the Mayor, to repair their track area on Washington street, from Eggleston square to Forest Hills, in accordance with the terms of their contract with the City of Boston."

I am very aware of the condition of the above-referenced section of Washington street, and shall take steps to improve it during the current year. It will not be possible to reconstruct it for the entire length referred to in the order, but we shall reconstruct part of it and surface patch the remainder this year.

If the Metropolitan Transit Authority cooperates with us, the reconstruction of the entire section from Eggleston square to Forest Hills will be completed next year.

Respectfully yours,
GEORGE G. HYLAND,
Commissioner of Public Works.

READING MATERIAL FOR TUBERCULAR PATIENTS.

The following was received:

City of Boston,
Office of the Mayor, August 21, 1950.

To the City Council.
Gentlemen:

I transmit herewith communication from the President of the Board of Trustees of the Boston City Hospital relative to your order of July 31, 1950, concerning the receiving of reading materials donated by the public for the use of the tubercular patients, and having the public informed where they may send these books in order to avoid confusion.

Respectfully,
J. B. HYNES, Mayor.

Boston City Hospital,
August 4, 1950.

Hon. John B. Hynes,
Mayor of Boston.

Dear Mr. Mayor:

At a meeting of the Board of Trustees held today, the following order of the City Council was presented:

"Ordered, That the Board of Trustees of the Boston City Hospital be requested, through his Honor the Mayor, to designate one person at the City Hospital and also at the Sanatorium to receive reading materials donated by the public for the use of the tubercular patients, and that the public be informed where they may send these books in order to avoid confusion."

The routine at the Hospital for gifts or presents other than food, which is not allowed, is as follows:

Individual gifts presented at the desk in the Main Building are usually sent to the ward and given to the nurse in charge by a messenger from the center desk. Gifts in bulk, such as books, magazines, and periodicals, are turned over to the Social Service Department for assignment to the different wards. They usually handle the bulk of this type of gift. Some of this material is handled and distributed by a Red Cross representative or other organizations, without the knowledge of the administrative office; consequently, no acknowledgment could be made.

In many hospitals it is done through the administrative office only, but the administrative office of the Hospital has delegated these functions to the groups mentioned above.

Friends and relatives of patients bring in similar gifts and give them direct to the individual patient.

The administrative office feels that Social Service and the center desk have carried out this function quite well but occasionally irregularities happen. Individual gifts to individual patients from relatives or friends naturally have not been acknowledged by the administrative office.

A conference will be held shortly with representatives from each of these groups, and the assembly and distribution of all gifts, other than individual ones from individual persons, will be made from one central office, so that proper acknowledgment and better organization and distribution will be accomplished.

A similar communication has already been sent to Mr. Thomas P. McCusker, executive secretary, office of the Mayor, at his request.

Sincerely yours,
MARTIN J. ENGLISH, M.D.,
President, Board of Trustees.

NOTE: A conference was held on August 7, and representatives from the different groups having to do with books, periodicals, etc., were present. Miss Katherine O'Donnell, hospital employee in charge of volunteer workers, was officially assigned to have complete charge of the acceptance and dis-

tribution of these articles. Mrs. Rapp and Miss Crowley of the Social Service Department were designated as co-workers in case of Miss O'Donnell's absence or illness.

J. B. HYNES, Mayor.

City of Boston,
Overseers of the Public Welfare,
August 14, 1950.

Hon. John B. Hynes,
Mayor of Boston.

Dear Sir:

The Overseers of the Public Welfare in the City of Boston have received notification of the following order of the City Council, which was passed July 10, 1950:

"Ordered, That his Honor be requested to instruct all departments who have use of welfare recipients to use them only as laborers and not as skilled tradesmen such as painter, carpenter, etc."

This department assigns unemployed men to work in several city departments. The work which they are required to perform is controlled by the respective department heads. This department has never attempted to control the type of work performed by unemployed men for other city departments.

Metropolitan Transit Authority,
August 9, 1950.

Thomas G. J. Shannon,
Chief Clerk, Mayor's Office.

Dear Sir:

Consideration has been given to request contained in order of the City Council, received with

your letter of July 27, that a survey be made for the purpose of establishing a bus line from Farragut road to Castle Island, South Boston.

A survey has been made which indicates that such a bus line would not be self-supporting.

We are also of the opinion that difficulty would be experienced in operating bus service to Castle Island due to density of automobile and pedestrian traffic.

For these reasons we do not feel that operation of the service can be justified.

Yours very truly,

NAMING OF INTERSECTIONS IN HONOR OF WORLD WAR II VETERANS.

The following was received:

City of Boston,
Office of the Mayor, August 21, 1950.
To the City Council.
Gentlemen:

I submit herewith seven orders for the naming of various intersections in the city in honor of veterans of World War II who were killed in action.

The Committee to Memorialize Veterans, after due consideration, has recommended the naming of the various sites as set forth in the accompanying orders.

In view of the fact that each site is to be named in memory of a veteran who sacrificed his life on the altar of liberty, I recommend that your Honorable Body give approval to the accompanying orders.

Respectfully,
J. B. HYNES, Mayor.

City of Boston,
Board of Street Commissioners,
August 8, 1950.

Hon. John B. Hynes,
Mayor of Boston.

Dear Mr. Mayor:

At a meeting of the Committee to Memorialize Veterans, it was voted to designate the following intersections in honor of the following-named veterans of World War II:

Franklin street and Appian Way, Brighton district—John A. Cripps Square. (Sergt. John A. Cripps, 740th Bombardment Squad, 455th Bombardment Group, U.S. Air Force, was killed in action over Italy on February 25, 1944.)

Egremont and Cummings roads, Brighton district—Thomas E. Church Square. (Pvt. Thomas E. Church, Company B., 1st Marine Battalion, U.S. Marine Corps, was killed at Guadalcanal on August 10, 1942.)

Union street and Monastery road, Brighton district—Samuel A. Donisi Square. (Sergt. Samuel A. Donisi, Company K, 45th Division, 180th Infantry, U.S. Army, was killed in action at Alsace-Lorraine on January 11, 1945.)

South Margin and Staniford streets, Boston Proper district—Joseph C. Giannino Square. (Pfc. Joseph Giannino, Company G, 350th Infantry, 88th Division, U.S. Army, was killed in action in Pietramala, Italy, on September 28, 1944.)

Adamson and Everett street, Brighton district—Robert E. Lynch Square. (S/1c Robert E. E. Lynch, U.S. Navy, died in combat in the Pacific on May 25, 1945.)

Western avenue and Everett street, Brighton district—James F. Gillis Square. (James F. Gillis, U.S. Army Air Force, was killed in action on July 13, 1942.)

Eutaw and Meridian streets, East Boston district—Francis E. Marchesi Square. (Francis E. Marchesi was killed in action at Luzon in the Philippine Islands on January 24, 1945.)

Notice of the above vote has been forwarded to the City Council for action.

Respectfully submitted,
L. W. COSTELLO, Secretary.

Ordered, That the space at the junction of Franklin street and Appian Way, Ward 22, be named John A. Cripps Square, in honor of John A. Cripps, late veteran of World War II.

Ordered, That the space at the junction of Egremont and Cummings roads, Ward 21, be named Thomas E. Church Square, in honor of Thomas E. Church, late veteran of World War II.

Ordered, That the space at the junction of Union street and Monastery road, Ward 21, be named Samuel A. Donisi Square, in honor of Samuel A. Donisi, late veteran of World War II.

Ordered, That the space at the junction of South Margin and Staniford streets, Ward 3, be named Joseph C. Giannino Square, in honor of Joseph C. Giannino, late veteran of World War II.

Ordered, That the space at the junction of Adamson and Everett streets, Ward 22, be named Robert E. Lynch Square, in honor of Robert E. Lynch, late veteran of World War II.

Ordered, That the space at the junction of Western avenue and Everett street, Ward 22, be named James F. Gillis Square, in honor of James F. Gillis, late veteran of World War II.

Ordered, That the space at the junction of Eutaw and Meridian streets, Ward 1, be named Francis E. Marchesi Square, in honor of Francis E. Marchesi, late veteran of World War II.

REMOVAL OF TRACKS ON WASHINGTON STREET, BETWEEN EGLESTON SQUARE AND FOREST HILLS.

Gentlemen:

I transmit herewith communication from the General Manager of the Metropolitan Transit Authority relative to your order of July 31, 1950, concerning the repair of the tracks in Washington street, between Eggleston square and Forest Hills, in connection with the repair of Washington street by the Department of Public Works.

Respectfully,
J. B. HYNES, Mayor.

Metropolitan Transit Authority,
August 4, 1950.

Mr. Thomas G. J. Shannon,
Chief Clerk, Mayor's Office.

Dear Sir:

Consideration has previously been given by our Board of Trustees to request in order of the City Council received with your letter of August 3 that the tracks in Washington street, between Eggleston square and Forest Hills, be repaired in connection with repair of Washington street by the Department of Public Works.

Consideration has also been given to the possibility of substitution of bus service for car service between Eggleston square and Forest Hills to permit the removal of tracks in connection with the street work. This, however, is not feasible because to provide substitute facilities for the storage and maintenance of cars operated on the Eggleston Square-North Station line, which are now stored and maintained at Arborway (Forest Hills), would involve an annual increase in operating cost of about \$33,000.

It is therefore necessary to retain the tracks in Washington street, between Eggleston square and Forest Hills.

The cost of repairing these tracks is estimated at \$44,000. We have not provided for it in our program for track work this year, which is now well advanced, and in view of our efforts to effect economies, the Trustees do not feel that the work should be undertaken this year.

Very truly yours,

EDWARD DANA, General Manager.

ESTABLISHMENT OF DEPARTMENT OF CIVIL DEFENSE.

The following was received:

City of Boston,
Office of the Mayor, August 21, 1950.
To the City Council.

Gentlemen:

On July 17, 1950, I submitted to your Honorable Body a message and order to enable the prelim-

inary steps to be taken towards organizing the civil defense of the city in advance of any emergency. Since then the Legislature has enacted chapter 639 of the Acts of 1950, which establishes a civil defense agency for the commonwealth and authorizes and directs the establishment of a local organization for civil defense in accordance with the provisions of that chapter.

Accordingly, I submit herewith, and urge the immediate passage of, the accompanying ordinance, which has been prepared by the Law Department and approved by the Director of Civil Defense for the Commonwealth, establishing the Department of Civil Defense for the City of Boston.

Respectfully,
J. B. HYNES, Mayor.

City of Boston.

In the Year Nineteen Hundred and Fifty.

An Ordinance Establishing a Department of Civil Defense.

Be it ordained by the City Council of Boston, as follows:

SECTION 1. DEPARTMENT OF CIVIL DEFENSE. There is hereby established a department of civil defense (hereinafter called the "department"). It shall be the function of the department to have charge of civil defense as defined in section 1, chapter 639, Acts of 1950, and to perform civil defense functions as authorized or directed by said chapter or by any and all executive orders or general regulations promulgated thereunder, and to exercise any authority delegated to it by the governor under said chapter 639.

SECT. 2. DIRECTOR OF CIVIL DEFENSE. The department shall be under the direction of a director of civil defense (hereinafter called the "director") who shall be appointed as prescribed by law. The director shall have direct responsibility for the organization, administration and operation of the department, subject to the direction and control of the appointing authority, and shall receive such salary as may be fixed from time to time by the appointing authority. The director may, within the limits of the amount appropriated therefor, appoint such experts, clerks and other assistants as the work of the department may require and may remove them, and may make such expenditures as may be necessary to execute effectively the purposes of chapter 639, Acts of 1950. The director shall also have authority to appoint district coordinators and may accept and may receive on behalf of the city, services, equipment, supplies, materials or funds by way of gift, grant or loan, for purposes of civil defense, offered by the federal government or any agency or officer thereof or any person, firm or corporation, subject to the terms of the offer and the rules and regulations, if any, of the agency making the offer. The director shall cause appropriate records to be kept of all matters relating to such gifts, grants or loans.

SECT. 3. CIVIL DEFENSE ADVISORY COUNCIL. There is hereby established a civil defense advisory council (hereinafter called the "council"). Said council shall serve without pay and shall consist of the director of civil defense, such other department heads and such other persons as the authority appointing said director may deem necessary. Such member of said council as said appointing authority shall designate shall serve as chairman of said council. Said council shall serve subject to the direction and control of the appointing authority and shall advise said appointing authority and the director on matters pertaining to civil defense.

SECT. 4. POLICE AID TO OTHER CITIES AND TOWNS IN EVENT OF RIOTS OR OTHER VIOLENCE THEREIN. The police department is hereby authorized to go to aid another city or town at the request of said city or town in the suppression of riots or other forms of violence therein.

SECT. 5. TERMINATION OF ORDINANCE. This ordinance shall remain in force during the effective period of chapter 639, Acts of 1950, and any act in amendment or continuation thereof or substitution therefor.

SECT. 6. DEFINITION. All references to chapter 639, Acts of 1950, as now in force, shall be applicable to any act or acts in amendment or continuation of or substitution for said chapter 639.

Referred to the Executive Committee.

SALE OF LAND ON HOMER STREET, EAST BOSTON.

The following was received:

City of Boston,
Office of the Mayor, August 15, 1950.
To the City Council.

Gentlemen:
Chapter 191 of the Acts of 1949 empowered the Transit Department of the City of Boston to remove to other sites, dwellings within the location of the East Boston Rapid Transit Extension now under construction. Upon the abolition of the Transit Department on August 3, 1949, the Metropolitan Transit Authority was authorized and directed to complete the house-moving project as agent of the City of Boston. Statute 1947, chapter 544, section 8A, paragraph (h), as appearing in Statute 1949, chapter 572.

Vincent and Helen M. D'Avella owned a parcel of land on Homer street, East Boston, a part of which was occupied by a house and the rest of which was vacant. On December 16, 1949, the Metropolitan Transit Authority, acting as agent of the city, took most of the vacant land for the purpose of relocating thereon one of the dwellings within the location of the rapid transit extension. The taking left only a 5-foot strip between Mr. and Mrs. D'Avella's house and the new property line, which is insufficient room for an automobile driveway. Two additional feet are needed. Investigation has disclosed that a 2-foot strip may be cut off the land for the relocated house without damage.

Enclosed herewith is a communication from the Metropolitan Transit Authority notifying your Honorable Body of the Authority's determination that the 2-foot strip in question is no longer needed for public purposes. Also transmitted is an order authorizing the reconveyance of the 2-foot strip to Mr. and Mrs. D'Avella for \$40, the price the city paid for the land. I strongly recommend the immediate adoption of this order by your Honorable Body.

Respectfully,
J. B. HYNES, Mayor.

Whereas, The Metropolitan Transit Authority, which, as agent of the City of Boston under Statute 1947, chapter 544, section 8A, paragraph (h), as appearing in St. 1949, chapter 572, section 3, is in charge of the land hereinafter described, which was taken by eminent domain under an order of the Metropolitan Transit Authority dated December 16, 1949, and recorded with Suffolk Deeds, Book 6570, page 409, has notified the City Council that in the opinion of said Authority such land is no longer required for public purposes; now, therefore, it is hereby

Ordered, That his Honor the Mayor be, and he hereby is, authorized in the name and behalf of the City of Boston to convey to Vincent D'Avella and Helen M. D'Avella, husband and wife, as tenants by the entirety, by a deed in form satisfactory to the Corporation Counsel, at a minimum price of forty dollars (\$40), all right, title and interest of the City of Boston in and to the land shown on plan entitled "City of Boston by Metropolitan Transit Authority, Agent, Plan of Land, Homer Street, East Boston, July 14, 1950, R. A. Fisher, Designing Engineer, J. Beerigan, Engineer of Subways," and bounded and described as follows:

Beginning at a point on the southeasterly line of Homer street, three hundred sixty-three and no hundredths (363.00) feet distant northeasterly from the intersection of the northeasterly line of Moore street and the southeasterly line of Homer street; thence running northeasterly along the southeasterly line of Homer street, two and no hundredths (2.00) feet; thence running southeasterly by land of Vincent and Helen M. D'Avella, one hundred and no hundredths (100.00) feet; thence running southwesterly along land now or formerly of Mary A. DeCosta *et al.*, two and no hundredths (2.00) feet; thence running northwesterly through land of the City of Boston, one hundred and no hundredths (100.00) feet to point of beginning, containing two hundred (200) square feet, more or less.

Metropolitan Transit Authority,

August 3, 1950.

To the Honorable City Council.

Gentlemen:
As authorized and directed by vote of the Board of Trustees of the Metropolitan Transit Authority, a certified copy of which vote is annexed hereto and made a part hereof, I hereby notify you on behalf of the said Authority that it is the opinion of the Authority that the 2-foot strip of land described in said vote is no longer required for public purposes and that the said Authority recommends the sale of the said strip of land for the sum of forty dollars (\$40) to Vincent and Helen M. D'Avella, 83 Homer street, East Boston, the owners of the adjoining parcel and the former owners of the strip of land in question from whom said strip was taken by eminent domain.

Very truly yours,
WALTER J. WALDRON,
Chairman of the Board of Trustees.

Metropolitan Transit Authority,

August 3, 1950.

I, Emma E. Mullen, Recording Secretary of the Board of Trustees of the Metropolitan Transit Authority, hereby certify that at a meeting of the Board of Trustees of said Authority, acting under the provisions of chapter 544 of the Acts of 1947, as amended, duly called and held on the twenty-sixth day of July, 1950, at which all the members were present, the following votes were adopted unanimously:

Voted, That it be, and hereby is, determined to be the opinion of the Metropolitan Transit Authority that the land hereinafter described is no longer required for public purposes, to wit: the land shown on plan of City of Boston by Metropolitan Transit Authority, Agent, entitled "Plan of Land, Homer Street, East Boston," dated July 14, 1950, and bounded and described as follows:

Beginning at a point on the southeasterly line of Homer street, three hundred sixty-three and no hundredths (363.00) feet distant northeasterly from the intersection of the northeasterly line of

Moore street and the southeasterly line of Homer street; thence running northeasterly along the southeasterly line of Homer street, two and no hundredths (2.00) feet; thence running southeasterly by land of Vincent and Helen M. D'Avella, one hundred and no hundredths (100.00) feet; thence running southwesterly along land now or formerly of Mary A. DeCosta *et al.*, two and no hundredths (2.00) feet; thence running northwesterly through land of the City of Boston, one hundred and no hundredths (100.00) feet to point of beginning, containing two hundred (200) square feet, more or less, being a portion of parcel No. IV on Plan 18473 of the City of Boston by Metropolitan Transit Authority, Agent, duly recorded at Suffolk Registry of Deeds on December 16, 1949, Book 6570, page 409.

Voted, That the Chairman of the Board of Trustees be, and he hereby is, authorized and directed to notify the City Council of the City of Boston on behalf of the Metropolitan Transit Authority that it is the opinion of the Authority that the aforesaid land shown on plan dated July 14, 1950, and entitled "Plan of Land, Homer Street, East Boston," is no longer required for public purposes and that the Metropolitan Transit Authority recommends the sale of the aforesaid land to Vincent and Helen M. D'Avella, 83 Homer street, East Boston, the owners of adjoining parcel, for the sum of forty dollars (\$40) which is at the same rate, namely, 20 cents per foot, which was the basis for settlement of the claim for damages of the said Vincent and Helen M. D'Avella for the entire parcel of land, apart from improvements thereto, taken by the aforementioned vote and order of taking dated December 16, 1949.

To the City Council.

Gentlemen:
There is forwarded herewith an order transferring the sum of \$40,000 from the Reserve Fund to the budget of the Law Department.

Of this sum, \$3,000 is necessary to provide for the payment of services and testimony of physicians in accident cases; \$16,500 for the services of experts before the Appellate Tax Board in connection with special investigations and in tax title examinations; and \$12,500 for witness and recording fees, as well as services of constables.

These items were charged against the Contingent Fund in previous years. This year, however, the Contingent Fund, which was a lump sum appropriation, was eliminated, and its 30-odd component parts distributed in the various city and county budgets, making it very difficult to estimate the exact amount needed in these items. Therefore, this additional sum of \$32,000 is needed to provide sufficient funds for these purposes in the Law Department budget for the balance of the year.

The balance of the transfer, namely, \$8,000, is needed for salaries and supplies for the codification of the laws of the City of Boston, under chapter 28 of the Resolves of 1950.

Consideration and adoption of the accompanying order by your Honorable Body is recommended.

Respectfully,
J. B. HYNES, Mayor.

Ordered, That in accordance with the provisions of section 3B of chapter 486 of the Acts of 1909, as amended by chapter 604 of the Acts of 1941, the City Auditor be, and hereby is, authorized to transfer:

From the appropriation for Reserve Fund (Unclassified), \$40,000, to the appropriation for General Government, Law Department, A, Personal Services, \$7,800, B, Contractual Services, \$32,000, D, Supplies, \$200.

Referred to the Executive Committee.

TRANSFER OF APPROPRIATIONS BETWEEN DEPARTMENTS.

The following was received:

City of Boston,
Office of the Mayor, August 21, 1950.
To the City Council.

Gentlemen:
The inclosed request for transfer of appropriations, together with the accompanying orders, are forwarded for consideration and adoption by your Honorable Body.

Respectfully,
J. B. HYNES, Mayor.

Ordered, That in accordance with the provisions of section 3B of chapter 486 of the Acts of 1909, as amended by chapter 604 of the Acts of 1941, the City Auditor be, and hereby is, authorized to transfer:

From the appropriation for the Hospital Department, B. Contractual Services, 39, General Repairs, \$20,631 to the appropriation for Hospital Department, Special Appropriation, Installation, Alterations and Repairs, \$20,631.

Ordered, That in accordance with the provisions of section 3B of chapter 486 of the Acts of 1909, as amended by chapter 604 of the Acts of 1941, the City Auditor be, and hereby is, authorized to transfer:

From the appropriation for the Park Department, Special Appropriation, Dredging of Muddy River, Leverett Pond, \$35,000, to the appropriation for Park Department, Special Appropriation, Removal of Trees Afflicted with the Dutch Elm Disease, \$35,000.

Ordered, That in accordance with the provisions of section 3B of chapter 486 of the Acts of 1909, as amended by chapter 604 of the Acts of 1941, the City Auditor be, and hereby is, authorized to transfer:

From the appropriation for Park Department, B. Contractual Services, 39, General Repairs, \$116.17, to the appropriation for Park Department, Special Appropriation, North Bennet Street Building, Restoration of, \$116.17.

Ordered, That in accordance with the provisions of section 3B of chapter 486 of the Acts of 1909, as amended by chapter 604 of the Acts of 1941, the City Auditor be, and hereby is, authorized to transfer:

From the appropriation for Associate Medical Examiner, Southern Division, B. Contractual Services, 35, Fees, Service of Venires, etc., \$100, to the appropriation for Associate Medical Examiner, Southern Division, A. Personal Services, 2, Temporary Employees, \$100.

Ordered, That in accordance with the provisions of section 3B of chapter 486 of the Acts of 1909, as amended by chapter 604 of the Acts of 1941, the City Auditor be, and hereby is, authorized to transfer:

From the appropriation for Central Courts, Superior Court, Criminal Session, B. Contractual Services, 34, Jurors, \$2,500, to the appropriation for District Courts, Municipal Court, Roxbury District, D. Supplies, 1, Office, \$2,500.

Referred to the Executive Committee.

APPROPRIATION OF \$150,000 FOR INSTALLING TRAFFIC SIGNALS.

The following was received:

City of Boston,
Office of the Mayor, August 14, 1950.
To the City Council.
Gentlemen:

I am in receipt of a communication from the Chairman of the Boston Traffic Commission in which he recommends the immediate appropriation of \$150,000 for the purpose of installing 40 to 45 traffic signals at various intersections in Boston.

While this number of traffic signals will not completely meet the demands for traffic signals, nevertheless it will provide for those intersections which experience indicates are extremely dangerous.

I recommend the passage of the accompanying order by your Honorable Body with as much promptness as possible in order that the preparations for the installation of these signals may be commenced at once.

Respectfully,
J. B. HYNES, Mayor.

Boston Traffic Commission.
August 10, 1950.

Hon. John B. Hynes,
Mayor of Boston.

Dear Sir:

For the purpose of exercising efficient control of traffic at various street intersections throughout the city it is necessary from time to time to install traffic signal lights.

A survey by our engineers indicates that there are approximately a hundred locations at the present time which would be benefited by the installation of such lights.

The required work for making up specifications; for installation of underground wiring, and construction of fixtures takes considerable time and, therefore, it would not be possible to make a hundred installations this year.

However it is respectfully requested that an appropriation of \$150,000 be made available to this department for the purpose of installing traffic signals at 40 to 45 intersections.

As soon as this appropriation is made available this department will go forward at once with the work necessary to accomplish these installations at the most hazardous or important intersections requiring such signal devices.

Each set of four traffic lights at an intersection normally costs \$3,500 installed.

Respectfully submitted,
WM. ARTHUR REILLY, Commissioner.

Ordered, That under the provisions of section 63 of chapter 44 of the General Laws the sum of one hundred fifty thousand dollars (\$150,000) be, and the same hereby is, appropriated from the

Special Account, Sales of City Property, to be expended under the direction of the Traffic Commissioner, as follows:

Automatic Traffic Control Signals in
Various Sections of the City..... \$150,000

Referred to the the Executive Committee.

EXEMPTION OF LIBRARY EMPLOYEES FROM 40-HOUR-WORK WEEK.

The following was received:

City of Boston,
Office of the Mayor, August 21, 1950.
To the City Council.
Gentlemen:

Section 33A of chapter 149 of the General Laws, as inserted by chapter 657 of the Acts of 1948, establishing a five-day and forty-hour-work week for employees, exempted certain classes of employees and provided that other classes or groups of employees may, from time to time, be specifically exempted therefrom in the same manner provided for the acceptance of the act.

I am in receipt of the attached communication from Milton E. Lord, Director of the Public Library of the City of Boston, setting forth the fact that the Trustees of the Public Library believe that it is in the best interests of the City of Boston, for the performance of the work of the Public Library, that the employees of the Library Department be exempted from the provisions of the above Act.

In compliance with the request of the Trustees of the Public Library, I am forwarding herewith an order providing for the exemption of the Library employees and recommending consideration and adoption of this order by your Honorable Body.

Respectfully,
J. B. HYNES, Mayor.

City of Boston,
Library Department, July 14, 1950.
Hon. John B. Hynes,
Mayor of Boston.

Dear Mr. Mayor:

Chapter 649 of the Acts of 1947, establishing the 40-hour-work week for employees, exempted certain classes of employees and provided that other classes or groups of employees may, from time to time, be specifically exempted therefrom in the same manner provided for in the acceptance of the Act.

The Trustees of the Public Library believe that it is in the best interests of the City of Boston for the performance of the work of the Public Library that formal action be taken by the City Council by way of specific exemption of the employees of the Library Department as mentioned above. Such action would make provisions formally for the continuation of the procedure which was long found necessary and desirable in the Library, prior to the enactment of the said chapter 649. All evidence available indicates that action in this respect would be universally favored by the employees of the Library Department, since it would be to their benefit in the sense that there would thus not be disturbed the arrangements long in existence before the enactment of chapter 649 and which have long been considered to be to the best interest for the performance of the work of the Library. The matter has been examined with the City Auditor, who has in his turn expressed agreement that it would be desirable to provide for the specific exemption here suggested.

The Trustees of the Public Library respectfully request that the matter be given consideration by you as the Mayor of the City of Boston, with a view to initiating action before the City Council, if your decision is to that effect.

If there is further information which is desired, I shall be glad to attempt to provide the same for you.

Respectfully,
MILTON E. LORD, Director.

Ordered, That section 33A of chapter 149 of the General Laws, as inserted by chapter 657 of the Acts of 1948, shall not apply to those specifically exempted therefrom by said section or to any person on the payrolls of the Public Library of the City of Boston.

Referred to the Executive Committee.

GIFT UNDER THE WILL OF HANNAH MILNOR LJUNGSTEDT.

The following was received:

City of Boston,
Office of the Mayor, February 20, 1950.
To the Honorable City Council.
Gentlemen:

Hannah Milnor Ljungstedt died on January 22, 1942, leaving a will providing that after the death of her husband, Olaf A. Ljungstedt, the trustees of her estate should deliver to the Mayor and the Council of the City of Boston a certain trust estate.

The second paragraph of the will provides as follows:

"At the death of my husband, Carl Olof Axel Ljungstedt aforesaid, should he survive me, I leave the said trust fund to the Mayor and Council of the City of Boston, Massachusetts, and direct that they shall deposit until the principal shall amount to three thousand dollars; when the compounded interest shall together with the original fund amount to three thousand dollars, I direct that the annual interest (the whole fund with the increase being properly and suitably invested) shall be used preferably by the Animal Refuge Society of Boston as agent, for the sole and only purpose of removing from the streets and alleys and public parks of the City of Boston, Massachusetts, abandoned or suffering cats and dogs. The amount of interest available will be small, and I desire that it shall be used as wisely as possible, probably in two annual instalments. And, furthermore, my desire is not primarily to continue the life of any old or sickly animal, not to find a "home" for it, but to mercifully destroy it. Two mature persons and fewer children are fit arbiters of life in a lower form."

The sixth paragraph of the will provides as follows:

"I further direct that the fund I leave to the authorities of the City of Boston, be known as the Gray Brother Memorial, in loving honor to a beautiful and unforgotten collie."

I have been advised by the Boston Safe Deposit and Trust Company, trustee under the will, that the trust fund is now worth approximately \$1,500. Under the terms of the gift, this sum must be held until the principal has reached \$3,000. This would mean that no expenditure could be made from the gift for approximately fifteen years, and at that time only the interest on \$3,000 could be expended. Because the income to be derived from the trust fund will be inadequate to attain the objects set forth in the trust instrument, and since the City of Boston is without facilities of its own to care for or exterminate diseased animals, and discharges this obligation by engaging the services of the Animal Rescue League; it is my opinion that this gift should be declined by your Honorable Body. If the gift is declined, it is the intention of the trustee to petition the Probate Court for Suffolk County to be allowed to pay over the trust fund to the Animal Rescue League. If the latter society is permitted to mingle this gift with other funds devoted to similar purposes, it will be in a far better position to carry out the general charitable intent of the gift.

I submit herewith an order by which the Mayor and Council may decline the gift and recommend its adoption.

Respectfully,
J. B. HYNES, Mayor.

Ordered, That the gift contained in the second paragraph of the will of Hannah Milnor Ljungstedt be and the same hereby is declined.
Referred to the Executive Committee.

Passed under suspension of the rule.

CONGRATULATIONS TO COUNCILOR JULIUS ANSEL.

Coun F. P. TRACEY offered the following:
Resolved, That the members of the Boston City Council extend their congratulations to their fellow councilor, Julius Ansel, of Ward 14, on the occasion of his election as President of the 53d Infantry Division Association.

As the first enlisted man, and as the first resident of Boston to attain this signal honor, we are justly proud of the confidence and trust placed in him by his comrades of combat days in the recent world war.

It is indeed fitting that one who has, throughout his lifetime, been known as a patriot and defender of human liberties should be so honored by his associates, and has thus brought to our city and to our citizenry this glorious honor.

The resolution was adopted by a unanimous rising vote.

BANNING OF COMMUNISTIC LITERATURE.

Coun. F. P. TRACEY offered the following:

Ordered, That the Boston City Council through the Police Commissioner, conduct an inquiry into the possibility of banning from our public news stands all periodicals and newspapers of known Communistic tendencies, such list to be secured from authorized Congressional Committees, the Department of Justice, and other proper sources.

It is time for this Council, the governing body of a city which proudly bears the name of the "Cradle of Liberty," to strike out against this evil menace which festers and grows around us.

There is no longer any doubt as to the intentions of the Communist Party here in America and throughout the world. The blood of brave American boys spilled in the rice fields of Korea bear eloquent witness to that fact. The time for dallying with the safety of this nation is past. We must now go forward, determined to wipe out every channel of Communistic teaching and propaganda.

Passed under suspension of the rule.

CITY OF BOSTON.**PARK DEPARTMENT.****PROPOSALS FOR REMOVAL AND DISPOSAL OF DEAD OR DISEASED TREES IN THE CITY OF BOSTON, MASS.**

The Park Commissioners of the City of Boston, 33 Beacon street, invite proposals for removal and disposal of dead or diseased trees in the City of Boston, Mass. Forms of proposals must be obtained at the engineer's office of the Park Department, 33 Beacon street. Each proposal should be signed by the bidder and enclosed in an envelope, sealed and marked "Proposal for Removal and Disposal of Dead or Diseased Trees in the City of Boston, Mass.," and left before 2 o'clock p.m. on Thursday, September 7, 1950, at the office of the Park Department with a certified check for \$3,000, payable to and to be the property of the City of Boston if the proposal is not carried out, and will then and there be publicly opened and read. A duplicate proposal, without check, must be deposited with the City Auditor previous to the time named for opening the bids. A bond will be required for doing the work in the sum of 100 per cent of the estimated contract price. The rate per hour of the wages to be paid to mechanics, chauffeurs and laborers in the work to be performed under the contract shall not be less than the rate of wages in the schedule determined by the Commissioner of Labor and Industries of the Commonwealth, a copy of which schedule is annexed to the form of contract referred to herein. PROPOSALS FOR BITUMINOUS CONCRETE PAVEMENT IN CLAXTON STREET, WARD 19, FROM WASHINGTON STREET, 245 FEET SOUTH-EASTERLY; GILMAN STREET, WARD 18, FROM CANTERBURY STREET TO MT. CALVARY ROAD; LAMARTINE PLACE, WARD 19, FROM LAMARTINE STREET TO BOSTON & PROVIDENCE RAILROAD, AND MANNING STREET, WARD 18, FROM GILMAN STREET, 390 FEET NORTH-EASTERLY.

The Commissioner of Public Works of the City of Boston, office 508 City Hall Annex, invites proposals from citizens of the United States and corporations or other legal associations wherein the controlling interest to the extent of at least over one half thereof is owned by a citizen or citizens of the United States, for bituminous concrete pavement in Claxton street, etc. A bond will be required for doing the work of a surety company approved by the Commissioner in the sum of 100 per cent of the amount of the contract, to secure the due performance of the contract and the full protection of the city. Forms of proposals may be obtained at Room 508, City Hall Annex. Each proposal should be enclosed in an envelope, sealed, marked "Proposal for Bituminous Concrete Pavement in Claxton Street, etc.," and left at Room 508, fifth floor, City Hall Annex, before 12 M. of WEDNESDAY, SEPTEMBER 13, 1950, with a certified check for FIFTEEN HUNDRED (1,500) DOLLARS, payable to and to become the property of the city if the proposal after acceptance is not carried out. The proposals will then be publicly opened and read in the hearing room of the Street Commissioners, Room 401, City Hall Annex.

Proposals must be made in duplicate, the sealed duplicate, without check, to be deposited by the bidder with the City Auditor previous to the time named for opening the bids. All proposals must be from bidders of record on file at Room 508, City Hall Annex. There will be a charge of two dollars (\$2) for each set of plans and specifications taken out. If the price of any item appears to the Commissioner to be abnormally high or low, or the bidder neglects to bid on each and every item, it may lead to the rejection of the proposal containing such price. The rate per hour of the wages to be paid to mechanics, teamsters, chauffeurs and laborers in the work to be performed under the contract shall not be less than the rate of wages in the schedule determined by the Commissioner of Labor and Industries of the Commonwealth, a copy of which schedule is annexed to the form of contract referred to herein. Copies of said schedule may be obtained, without cost, upon application therefor at the office of the Commissioner of Public Works. Before commencing performance of this contract, the Contractor shall provide by insurance for the payment of compensation and the furnishing of other benefits under chapter 152 of the General Laws (the Workmen's Compensation Law so called) to all persons to be employed under this contract, and shall continue such insurance in full force and effect during the term of this contract. The undersigned reserves the right to reject any or all proposals or to award the contract as he deems best.

RECENT FEDERAL ACTIONS AFFECTING CITIES.

The Housing Act of 1949, approved on July 15, authorized a uniform 10 per cent payment to cities in lieu of taxes on housing projects, but the independent offices appropriation bill passed on August 15 contains a provision that for the fiscal year ending June 30, 1950,

only payments provided for in the original contract between the housing authority and the city are authorized for federal reimbursement.

Federal aid for hospital construction has been approved for nearly 800 projects; more than 600 are general hospitals and the great majority are in towns of under 10,000 population.

DANGEROUS CONDITION IN PAVING AT FRANKLIN AND DEVONSHIRE STREETS BEING CORRECTED UNDER ORDERS OF MAYOR JOHN B. HYNES—PUBLIC WORKS COMMISSIONER GETS ORDERS TO PROCEED TO CORRECT MENACE TO AUTO AND PEDESTRIAN TRAFFIC.

Mayor Hynes has approved the request of the Public Works Commissioner, George G. Hyland, for permission to correct a dangerous condition in the pavement at Franklin and Devonshire streets. The letter asking for approval reads as follows:

BOSTON, August 24, 1950.

HON. JOHN B. HYNES,
Mayor of Boston.

DEAR MR. MAYOR:

At the present time the roadway pavement at the intersection of Franklin and Devonshire streets is in a deplorable condition and constitutes a menace, not only to vehicular traffic, but also to pedestrians. The condition has reached the point where it is absolutely essential to effect repairs, and I have, therefore, made arrangements to have the necessary repairs made next Sunday by department forces.

(Continued on page 915.)

MAYOR HYNES RULES MATTER OF TEACHERS' SALARY SCHEDULE CONCERN OF SCHOOL COMMITTEE AS WITHIN THEIR BUDGET APPROPRIATION CONTROL AND HE IS TAKING NO PART IN DECISIONS.

On September 6, Mayor Hynes issued the following statement:

No official notice of the action taken by the School Committee with respect to the teachers' salary schedule has been received by the Mayor's Office.

The School Committee is an elected body and, with respect to expenditures within budget appropriations, is in sole control of the administration of the School Department.

The action taken by the majority of the School Committee, while having an effect upon general city government itself, purports to be an expenditure within existing budget appropriations, and, therefore, strictly a matter of school administration and beyond my control, at least for the present time.

MAYOR JOHN B. HYNES CALLS PRESENT "THE GOLDEN AGE OF LABOR," IN ADDRESS ON COMMON DURING CITY'S OBSERVANCE OF LABOR DAY—WARNS OF DUTY TO INSURE AND PROTECT ADVANCES MADE SO WORKING MAN MAY NOT AGAIN BE AT MERCY OF UNSCRUPULOUS, AVARICIOUS, SLAVE-DRIVING EMPLOYERS—TELLS OF CORDIALITY OF LABOR-MANAGEMENT RELATIONS IN BOSTON, CITY AS WELL AS PRIVATE—ASKS ALL TO REMEMBER IN PRESENT CRISIS THAT THEY ARE AMERICANS, FIRST, LAST, AND FOREVER.

At the observance of Labor Day exercises on Boston Common, September 4, Mayor John B. Hynes spoke as follows:

As Mayor of Boston, I am pleased to be here on this day, dedicated as it is to the men and women whose toil and skill helped, immeasurably, to make this the greatest country of ancient or modern civilization.

For the past 65 years, this day has been observed in our Commonwealth as a legal holiday, and although, in that period, we have enacted a multiplicity of laws to benefit the working man and woman, nevertheless, it is within my lifetime, yes, within the past two decades, that the real beneficial changes have come which have resulted in such marked improvement in the lot of the man who earns his daily bread by the sweat of his brow.

In many cases, these changes were not easily brought about, they came only after struggle and effort, by unity of purpose, and by effective organization. They came about, because, in the ranks of union labor, were men and women of strong faith, of unchallenged principle, of untiring perseverance, and the memory of these men and women should not, on this day, go unnoticed.

Labor's Golden Age.

The statement might be ventured that this period in which we are living is the golden age of labor, and if it is, then it follows that there is a duty to insure and protect the advances made, so that never again may the working man be at the mercy of unscrupulous, avaricious, slave-driving employers.

In Boston, labor-management relations have been, for the most part, progressively cordial, because they have been based on mutual understanding, and the relations between the city government and labor have been the envy of other municipalities. We expect that those relations will continue on that same understanding plane during the immediate future.

We have now entered a period of national anxiety, if not emergency. It will take the combined ingenuity of both labor and capital to meet upon a common ground so that the national effort will bear the fullest results. It is my conviction that labor in this area, the civic-minded labor which serves on our public bodies, which aids in every charitable endeavor, which approaches problems with the weight of intelligent argument rather than the weight of force, will, as it has in past emergencies, be a good, strong, able arm in meeting whatever crisis may confront us.

(Continued on page 915.)

"O Boston, fair City enthroned like a radiant queen,
From thy hills looking down on the ship-teeming plain of the ocean,
May thy future be bright, thy skies beam with light all serene,
Ensured by thy sons' and thy daughters' unselfish devotion!"

From Boston Centennial Poem by
NATHAN HASKELL DOLE

MAYOR HYNES IN LABOR DAY ADDRESS CALLS UPON CITIZENS TO PROTECT ADVANCES MADE.

(Continued from page 913.)

Americans First.

In the name of our citizens who this day share in your holiday, I extend to the Central Labor Union and the American Federation of Labor, the warm greetings of the citizens of Boston and I take this opportunity, also, to extend to a former Mayor of Boston, the son of a laboring man, my warm personal greetings. As Secretary of Labor, Maurice J. Tobin is a credit to our city, to himself and his family, and is, I submit to you, a loyal and firm friend of every man and woman in labor's ranks.

On this great national holiday, let us remember, always, that we are Americans first, last, and forever, and let us thank God for all the benefits he has bestowed upon our grateful nation.

NEW OIL-BURNING EQUIPMENT BEING INSTALLED AT BOSTON SANATORIUM UNDER ORDERS FROM MAYOR HYNES—APPROVAL GIVEN TO HOSPITAL TRUSTEES' REQUEST.

Mayor John B. Hynes has approved proposals for furnishing and installing new oil-burning equipment at the Sanatorium Division of the Boston City Hospital. This installation is in keeping with the Mayor's plans for providing the best of facilities for those citizens who come under the care of the city.

The letter from the Trustees of the City Hospital asking for the approval of the contract reads as follows:

Boston, August 29, 1950.

HON. JOHN B. HYNES,
Mayor of Boston.

DEAR SIR:

Sealed proposals for furnishing and installing new oil-burning equipment at the Sanatorium Division were publicly opened at the Sanatorium Division on Thursday, July 13, 1950. The bids received were as follows:

Perfection Grate & Stoker Company, 10 High street, Boston, \$34,621; Powers & Mehegan Company, 500 Broadway, South Boston, \$35,850.

In the proposal submitted by the Perfection Grate & Stoker Company, "the total of Item 2" (all work to be performed by subcontractors—in the present case consisting solely of "brickwork") is set forth as \$11,980. However, an examination of the record copy of the brickwork subbid as filed by the selected subbidder, Donato Antonellis, with the Awarding Authority, in accordance with G. L., c. 149, c. 44 (c), subsection (B), has disclosed that the sum total of this subbidder's proposal is actually \$11,524, representing a difference of \$456 from the \$11,980 figure for brickwork as set out in Item 2 of the general contractor's proposal.

The time within which the Awarding Authority could have required the Perfection Grate & Stoker Company to execute a contract for this firm's proposed contract sum, namely, \$34,621, less the amount of the discrepancy, \$456, or \$34,165, has expired. This company is nevertheless willing at this time to execute the proposed contract for the subject work for the adjusted contract price of \$34,165.

In view of the foregoing, therefore, the Trustees have voted, subject to your approval, to award the contract for the furnishing and installation of the oil-burning equipment at the Sanatorium Division to the Perfection Grate & Stoker Company, in the sum of \$34,165, without further publicly advertising for bids, in order thereby to take advantage of this very favorable figure for the work.

Furthermore, in view of present conditions, the Board feels that no advantage would accrue to the city by again publicly advertising for bids for this work.

Respectfully submitted,

THOMAS J. GIBLIN,
Acting President,
Boston City Hospital Trustees.

MAYOR HYNES ORDERS BAD PAVING CONDITIONS CORRECTED.

(Continued from page 913.)

Due to the large volume of traffic crossing this intersection it is impossible to effect the repairs during the week.

It is our intention to purchase the bituminous material from the Central Construction Company of 228 Southamp-ton street, because it is expected that the latter-referenced contractor will be resurfacing Congress street under a current contract with this department, and their asphalt plant will be opened to furnish the materials on their contract job.

The above-referenced work at the intersection of Devonshire and Franklin streets in my opinion is in the nature of an emergency and should not be deferred. I am writing to you at this time for the purpose of obtaining your approval of the purchase of the necessary bituminous materials from the Central Construction Company, because there is a possibility that the cost of said materials will exceed \$1,000. It is impossible for us at this time to determine with accuracy the exact volume of bituminous materials needed, as this information cannot be obtained until the existing surface is removed by department forces.

The above-referenced contract with the Central Construction Company will have to be awarded by the Superintendent of Supplies, because it involves only the furnishing of materials.

Respectfully yours,

GEORGE G. HYLAND,
Commissioner of Public Works.

JAMES E. GILDEA,

Collector of Taxes for the City of Boston.

LAND-TAKING IN HYDE PARK.

The Mayor has approved the following vote of the Board of Street Commissioners for the taking of land for sewerage works to be constructed as follows:

The right and easement is taken to lay and maintain sewerage works in the following-described lands, exclusive of any interest in trees, buildings, or other structures standing thereon, reserving to the owners thereof the right to use the lands for any purpose except such as may injure or obstruct said works, and except for placing or maintaining any structure on said lands not authorized in writing by the Mayor of said city;

trees, buildings or other structures standing upon or affixed to the land in which an easement is hereby taken are to be removed therefrom within sixty days following a notice of the city's intention to enter upon said taking for the purpose of constructing said sewerage works. Said lands are in that part of Boston formerly Hyde Park and are bounded as follows:

A parcel of land, owners unknown, being part of the private way known as Melba Way, bounded:

Southerly by easement taken November 12, 1946, fifty feet; westerly by the westerly line of Melba Way, seventy-eight feet; northerly by another part of Melba Way, fifty feet; and easterly by the easterly line of Melba Way, seventy-eight feet, containing thirty-nine hundred square feet, more or less.

The sewerage works to be constructed are as follows: 110 linear feet of 10-inch pipe sanitary sewer and 112 linear feet of 10-inch pipe surface drain.

Betterments are to be assessed for the making of the aforesaid improvement.

Ordered, That this Board estimates that the abutting lots of land on both sides of Melba Way, designated below, will receive benefit or advantage, beyond the general advantage to all real estate in said city, from the improvement herein ordered; each of said lots in the amount hereinafter respectively set against it; said lots and the supposed owners thereof being shown on the plan hereinbefore referred to and on file in the office of this department.

On roll call the order passed by the following vote:

YEAS—Mrs. Dacey, Messrs. McDevitt and Muchnick—3.

NAYS—Mr. White—1

PRESENT—Mr. Ward—1

Chairman: I am voting "No" on the motion at this time. I would like to say, however, that I am in accord with many statements made here this afternoon in regard to an adjustment of the salaries of teachers. I was one of the men who went to the Legislature to ask them one year ago for \$516 as an increase, and at the request of Mr. Dalton we reduced that \$516 to \$300.

I still feel that a \$516 adjustment at that time and a like adjustment this year would have

been an equitable adjustment for the teachers, but until I can be shown what services we would have to curtail to obtain this money I cannot justifiably vote for the motion.

I do think we are putting the cart before the horse and might wind up by embarrassing the teachers a great deal by passing such an order, because at this time a salary increase would be given on a contingency basis. The Committee does not know whether that money is going to be available except by curtailment of some very important school services to the children, and I think that if that were done it would embarrass this Committee, it would perhaps be illegal, and it certainly might embarrass the teachers if they received a raise at the expense of the children.

I feel that if this motion had been made in this Committee before the budget was passed, I would have voted for it. Now there is no assurance from the Business Manager, on whose judgment I am relying, that if we pass this order we would not have to go to the Legislature next year for additional money.

I am certain also that if that is so, Mr. Smith, we would be embarrassing ourselves much further by the fact that if we were turned down by the Legislature, we could not continue this salary adjustment; and if I heard the representative of the Law Department correctly, he thought this procedure was illegal—and if it is illegal—and I am subject to correction if I make a statement that you do not not concur in—I am not so certain that the City Auditor would not refuse to recognize an illegal motion of this kind.

I cannot go in the face of the advice of the Business Manager and the advice of our counsel, Mr. Kerr, that this is not the efficient and the right way to do business.

If we can be shown before September where we have the money, that is the time when we should vote this adjustment and not be embarrassed about it.

As a consequence of that, I am voting no at this time, but I reserve my right to review this situation before the first of September when the Business Manager will give us an idea of what his unexpended balances are going to be. Furthermore, when any of these economies that have been inferred should be made are brought to this Committee, let us deliberate on them so that we will know exactly where the money is coming from.

Mr. Muchnick: Mr. Chairman, while you were temporarily absent, Mr. Smith pointed out that he had in the item for teachers' salaries approximately seventeen million for the year 1950. He also said that for the first four-month period, the first third of the year, the sum of \$5,562,000 had been spent. If you multiply that by three, you get the total of \$16,

686,000, which leaves us better than \$200,000 out of this salary item.

It was pointed out by Mr. Smith also that the third period from September through December is the one where you might be hit with larger salary payments out of that item because of retirements taking effect in September, and it was also pointed out by Mr. Smith that in the second period, May, June, and particularly July and August, you are hit with less than the amount of the first third because you not only have fewer illnesses, but you do not have any of that problem during July and August and it seems to me on that evidence and the money that is available from that item this year alone, with the reasonable decrease for the second third, offsetting the potential increase in the third period, you will probably hit the same \$5,500,000 average for all three periods.

Mr. Ward: Mr. Chairman, I am going to vote "present" on this because, although I have always voted for increases, I believe that when I am told by the Corporation Counsel that the procedure is illegal and that he doubts very much that the order would be honored by the Auditor; and unless I know where the money is coming from and unless the money appropriated here is not going to embarrass me again, I am going to keep myself free and clear to vote as my conscience dictates and say that I will not take money away from the children within the system, which action might be embarrassing even to the teachers. I vote "present."

Business Manager: Mr. Chairman, I would like to incorporate in the records the following statement, which was prepared by me on May 8, 1950:

"The cost of a \$212 increase for approximately 3,500 teachers, not including substitute or temporary teachers, or Civil Service employees, would approximate \$742,000 for one year. From September 1, 1950, to December 31, 1950, the cost would approximate \$247,000.

"The School Committee, in making up its Budget which was submitted last month to the Mayor, did not make such an appropriation. If the School Committee had intended to grant such an increase, it should have provided for such an appropriation in its Budget, and afforded the Mayor the opportunity to approve or veto such an item. Now that the Budget has been accepted by the Mayor, if this increase is granted, the School Committee must proceed under the law to petition the Mayor and the City Council for these additional funds.

"If the Mayor and the City Council do not act favorable before June 1, 1950 on the petition of the School Committee for an increased appropriation, then the

School Committee must transfer from existing appropriations \$247,000. By that I mean—certain activities would have to be curbed or eliminated. For example, the playgrounds could be closed down from May 31, 1950 for the balance of the year and \$166,000 saved; summer schools could be eliminated and \$43,000 saved; and the supply item for educational materials could be cut \$38,000.

"I should also like to call your attention to the fact that if this increase is voted you will not have sufficient appropriating power next year to carry it along unless the Legislature grants you an increase in your appropriating power, or the Mayor and the City Council provide again the necessary money. If both of these groups fail to act by May 1, 1951, the teachers would be obliged to take a drastic cut in salary for the balance of the next calendar year.

"I anticipate only small balances this year. The School Committee action of last Thursday, of withdrawing its request to the City Council to exempt the custodians from the provisions of the 40-hour week practically insures the expenditure of the \$125,000 which has been provided for that purpose. Besides, if a directive should be received from the proper authorities to install the 40-hour week for the custodians immediately, the School Committee will surely find itself in an embarrassing financial situation.

"I feel it is my duty as your financial adviser to bring the above facts to your attention."

Business Manager, continuing: I want to add that, in my opinion, because the School Committee has not today provided an appropriation for this increase, their action today is illegal.

CERTIFICATION OF AMOUNT PAID FOR PENSIONS

The Superintendent offered the following:

ORDERED, That the Chairman of this Committee is hereby authorized in its behalf and in accordance with the provisions of Section 16 of Chapter 32 of the General Laws to certify to the Teachers' Retirement Board, under oath, the amount of pensions paid by the City of Boston, for

the year ending July 1, 1950, to teachers and members of the supervising staff who have been retired since July 1, 1914, on whose account the City of Boston is entitled to reimbursement.

On roll call the order passed by the following vote: YEAS—Mrs. Dacey, Messrs. McDevitt, Muchnick, Ward and White—5 NAYS—0.

INJURIES SUSTAINED UNDER PHYSICAL EDUCATION PROGRAM

The following was offered:

WHEREAS, On October 17, 1947, this Committee adopted a series of three orders to provide for the payment of certain reasonable expenses incurred by or in behalf of certain school children injured "while participating, or practising or training for participation, in any game, meet or contest conducted or held as a part of or in connection with the athletic training program of the Boston School Department"; and

WHEREAS, It is the present sense of this Committee that like provision should be made with respect to injuries sustained by such children while participating, or practising or training for participation, in any game, meet or contest conducted or held as a part of or in connection with so much of the physical education program of the Boston School Department as is under the supervision of the Director of Physical Education;

NOW, THEREFORE, BE IT ORDERED:

I. That the aforesaid three orders adopted October 17, 1947, be amended, effective as of September 1, 1949, to read as follows:

"1. ORDERED, That the Director of Physical Education, the Director of School Hygiene, and the Business Manager be, and they hereby are, constituted a panel to administer the expenditure of money appropriated for the payment of the reasonable hospital, medical and surgical expenses incurred by or in behalf of any student in any of the public schools of the City of Boston by reason of injury sustained by such student while participating, or practicing or training for participation, in any game, meet or contest conducted or held as a part of or in connection with a physical education program, or an athletic training program, under the supervision of the Director of Physical Education of the Boston School Department; and

"2. ORDERED, That except when the School Committee shall otherwise order, no money so appropriated shall be expended (1) unless the student sustaining the injury has, within three months after sustaining the injury, applied in writing to the School Committee, on a form furnished by and filed with the Director of Physical Education, for the pay-

ment of the hospital, medical and surgical expenses incurred by the student or in his behalf, (2) unless the application is approved in writing by the student's parent or guardian, and (3) unless the application is accompanied (a) by a certificate from the teacher or coach in charge of the practising, training, game, meet or contest that the injury was sustained by the student while participating, or practising or training for participation, in a game, meet or contest conducted or held as a part of or in connection with a physical education program, or an athletic training program, under the supervision of the Director of Physical Education of the Boston School Department, (b) by a certificate from a doctor, satisfactory to the panel, that the hospital, medical and surgical expenses to which the application relates were the proximate result solely of the injury sustained by the student, and (c) by documents evidencing, satisfactorily to the panel, the amount of the expenses incurred by or in behalf of the student; and

"3. ORDERED, That as soon as conveniently possible after each application has been filed the panel shall consider the same; and if the full panel finds that the conditions of Order No. 2 have been fulfilled and that the whole or any part of the sum applied for may properly be paid from money appropriated for the purpose specified in Order No. 1, the sum applied for insofar as found by the full panel to come within the purposes of the appropriation shall, upon written approval of the full panel, be paid directly to the hospital, doctor or other person in interest without further action on the part of the School Committee; provided, however, that unless the School Committee shall otherwise order, not more than \$300 shall be so paid on account of any one injury."

II. That moneys appropriated in 1949 for the purposes of Order No. 1 as originally adopted be deemed to have been appropriated for the purposes of Order No. 1 as above amended;

III. That, if any student in any of the public schools of the City of Boston who has sustained injury, since August 31, 1949 but before the passage of this order, while participating, or practicing or training for participation, in any game, meet or contest conducted or held as a part of or in connection with so much of the Boston School Department's physical education program as is under the supervision of the Director of Physical Education, applies in writing to the School Committee on or before August 31, 1950, on a form furnished by and filed with the Director of Physical Education, for the payment of the hospital, medical and surgical expenses incurred by such student or in his behalf, he be deemed, for the purposes of Order No. 2,

to have made such application within three months after sustaining the injury.

IV. That the panel established by Order No. 1 take no action with respect to the pending application for the payment of the hospital, medical and surgical expenses incurred by, or in behalf of, Robert Leo Gillen by reason of injury sustained by him on or about November 29, 1949, while participating in a game conducted in connection with a physical education program under the supervision of the Director of Physical Education of the Boston School Department; but said application shall forthwith be disposed of through the Business Manager as follows:

By direct payment to the Boston City Hospital of \$75.00

By direct payment to Dr. Morton S. Berk of \$70.00

By direct payment to Dr. George J. Fink of \$15.00

And by direct payment to Mr. George T. Gillen for medical supplies of \$15.00

The preamble was adopted and the four orders passed by the following vote:

PROPOSALS FOR RESURFACING WARREN BRIDGE APPROACHES.

The Commissioner of Public Works of the City of Boston, office 508 City Hall Annex, invites proposals from citizens of the United States and corporations or other legal associations wherein the controlling interest to the extent of at least over one half thereof is owned by a citizen or citizens of the United States, for resurfacing Warren Bridge approaches. A bond will be required for doing the work of a surety company approved by the Commissioner in the sum of 100 per cent of the amount of the contract, to secure the due performance of the contract and the full protection of the city. Forms of proposals may be obtained at Room 508, City Hall Annex. Each proposal should be enclosed in an envelope, sealed, marked "Proposal for Resurfacing Warren Bridge Approaches," and left at Room 508, fifth floor, City Hall Annex, before 12 M. of WEDNESDAY, SEPTEMBER 20, 1950, with a certified check for NINE HUNDRED (900) DOLLARS, payable to and to become the property of the city if the proposal after acceptance is not carried out. The proposals will then be publicly opened and read in the hearing room of the Street Commissioners, Room 401, City Hall Annex.

Proposals must be made in duplicate, the sealed duplicate, without check, to be deposited by the bidder with the City Auditor previous to the time named for opening the bids. All proposals must be from bidders of record on file at Room 508, City Hall Annex. There will be a charge of two dollars (\$2) for each set of plans and specifications taken out. If the price of any item appears to the Commissioner to be abnormally high or low, or the bidder neglects to bid on each and every item, it may lead to the rejection of the proposal containing such price. The rate per hour of the wages to be paid to mechanics, teamsters, chauffeurs and laborers in the work to be performed under the contract shall not be less than the rate of wages in the schedule determined by the Commissioner of Labor and Industries of the Commonwealth, a copy of which schedule is annexed to the form of contract referred to herein. Copies of said schedule may be obtained, without cost, upon application therefor at the office of the Commissioner of Public Works. Before commencing performance of this contract, the Contractor shall provide by insurance for the payment of compensation and the furnishing of other benefits under chapter 152 of the General Laws (the Workmen's Compensation Law so called) to all persons to be employed under this contract, and shall continue such insurance in full force and effect during the term of this contract. The undersigned reserves the right to reject any or all proposals or to award the contract as he deems best.

JEWISH WAR MEMORIAL AT MOUNT LEBANON CEMETERY DEDICATED WITH FRANK T. PEDONTI OF VETERANS' GRAVES REGISTRATION DEPART- MENT REPRESENTING MAYOR JOHN B. HYNES.

At the dedication of the Jewish War Memorial at Mount Lebanon Cemetery, Baker street, West Roxbury, on September 6, Frank Pedonti, representing his Honor, Mayor John B. Hynes, spoke as follows:

Comrade Chairman, Officers, Members of the Jewish Auxiliary, and Friends.

Today I am here in a dual capacity. First, to bring you the sincere regrets of his Honor, Mayor John B. Hynes, who is unable to attend these dedication exercises this morning at this time because of previous commitments that compelled him to be out of town. Secondly, as your Veterans' Graves Registration Officer for the City of Boston, I take this opportunity for thanking all of the Jewish War Veterans Posts who cooperated so splendidly in decorating the graves of our deceased comrades. They certainly made the task much easier and it was a job well done.

This memorial is such a means of a deep reverence. It is an inspired means of perpetuating the noble and heroic

CITY COLLECTOR JAMES E. GILDEA OPENS OUTSIDE STATIONS FOR COLLEC- TION OF CITY TAXES— BRANCH OFFICES PRO- VIDED FOR CONVENIENCE OF CITIZENS UNABLE TO COME OR PREVENTED FROM COMING TO CITY HALL.

City Collector James E. Gildea has opened branch offices in several districts of Boston for the collection of taxes from those whose duties prevent or hamper them from coming to City Hall for the purpose. The first group of these were opened on Tuesday of this week. There will also be a series of stations opened for a similar purpose during the month of October.

They will be opened for the payment of real estate taxes, water bills, poll, personal, and excise taxes.

The Collector said that taxes are due and payable October 1. However, a 30-day "grace" period will be allowed until November 1. People not paying their taxes by November 1 will have to pay an extra 4 per cent as of October 1.

HYNES PLANS GIGANTIC CHRISTMAS FESTIVAL DURING DECEMBER WITH LEADERS IN CIVIC, INDUSTRIAL, AND COMMERCIAL LIFE COOPERATING TO MAKE BOSTON CENTER FOR SOCIAL AND COMMERCIAL ACTIVITIES SURPASSING ANY SIMILAR THING EVER ATTEMPTED—THOR- OUGHFARES IN DOWNTOWN AREA AS WELL AS COMMON AND PUBLIC GARDEN TO BE PROFUSELY DECORATED TO RESEMBLE FAIRYLAND—MAYOR TO NAME NON- PARTISAN COMMITTEE TO BE IN CHARGE.

Mayor John B. Hynes has announced that the city will sponsor a gigantic Christmas Festival during the month of December. Cooperating with him in the organization and promotion of the event are leaders of the Boston Chamber of Commerce, Boston Retail Trade Board, Back Bay Association, Kenmore Square Association, Boston Real Estate Exchange, Beacon Hill Association, and the Boston Hotel Association.

"It is difficult to enthuse about festivities of any sort with a war in existence at Korea and the possibility of another in the offing," said the Mayor in making the announcement. "However, we must not let the communists or any other group hostile to our form of government interfere with our normal way of life, if it can be avoided. Furthermore, it is possible that by the time the Christmas season arrives, the belligerents will have subsided and the true spirit of Christmas will again prevail."

Streets and Parks to Be Lighted.

The possibilities of staging a permanent Christmas Festival for the city have been studied by the Mayor for several months. During that period representatives of leading business organizations of the city have been working with him in the formulation of plans. If his ideals are realized, not only will the thoroughfares, bisecting streets, and squares of downtown Boston and the Back Bay be attractively decorated and lighted annually during the entire month of December, but both the Public Garden and the Boston Common will be converted into veritable fairylands. Moreover, a number of special musical and other public entertainment features will be arranged.

Municipal Christmas festivals are growing more and more popular throughout the nation. All of the leading cities of the country now stage them, including a number of smaller communities throughout New England. Most of them merely take the form of special lighting.

The Boston Christmas Festival, however, will provide many novel features, including multicolored plastic snowflake decorations strung across the main traffic arteries and thoroughfares of the downtown section of the city, with appropriate lighting at night. Part of the Back Bay, as well as Copley square, Dewey square, Haymarket square, and Faneuil Hall square, will also be appropriately decorated and lighted under the plan.

"O Boston, fair City enthroned like a radiant queen,
From thy hills looking down on the ship-teeming plain of the ocean,
May thy future be bright, thy skies beam with light all serene,
Ensured by thy sons' and thy daughters' unselfish devotion!"

MAYOR HYNES PLANS GIGANTIC CHRISTMAS FESTIVAL WITH PROMINENT LEADERS COOPERATING.

(Continued from page 937.)

Plans for Children.

A number of features for the entertainment and amusement of the children will also be arranged for the Festival. Among those being considered is the housing of Santa Claus' reindeer at Playland, Boston Common, during the period from December first to Christmas Eve. Santa will also be seen passing over Boston on Christmas Eve, if weather permits.

If the plans of the Mayor fully materialize, daily throughout the month of December traditional Christmas music will be piped throughout the areas of the festivities, including the railroad and bus terminals.

The Christmas Festival will be operated by a large nonpartisan committee of business men and women to be appointed by the Mayor in the immediate future.

The decorations and lighting, under the plan, will be paid for by the store and building owners, and the promotional expenses by those concerns that will benefit by the Christmas trade.

The headquarters of the committee will be at Room 37, City Hall.

JEWISH WAR MEMORIAL DEDICATED.

(Continued from page 937.)

achievements of our people in the remote and immediate past. To the men and women of your faith who have given more than generously in valour and sacrifice it defines for our successors what the essential aims of the war were and it suggests the kind of men and women who fought and won it.

They were burning with no fierce fire of personal ambition. They had no desire to exalt themselves; they had no expectation of attaining rewards which are reserved for great military chieftains. They had no such hopes. They knew that, if they survived, all the honor they could attain was that general praise which customarily is given to all who serve faithfully; that the only prize in which they could indulge was that which comes from knowing that they were united in spirit with those of the past who had been brave and true in the defense of our country.

Deep within the hearts of us today is the hope that this will be the last memorial to be dedicated. We dare to entertain that hope only because we pray that our successors will be spared the awful experience of war.

Whatever the future may bring, this memorial will speak to those who belong to it and those who in our day are above and beyond the confusion of the present hour in the far east, the Korean conflict that we are now being faced with. Our boys in the present conflict in Korea are striving manfully and paying the supreme sacrifice for the grand objective of the war, as portrayed in these tablets, and which is and has been the constant goal of our republic. For the men and women who paid the supreme sacrifice in your faith, and in all faiths all over the world, who, with their comrades in youth and bravery, in the final fulfillment of their resolve, embraced death in the name of these freedoms, we can but invoke with all humility the ancient prayer in the ancient language:

"Requiem aeternam dona eis Domine, et lux perpetua luceat eis!"—Eternal rest grant unto them, O Lord, and may perpetual light shine upon them.
